Programming Reality Zoë Druick, Aspa Kotsopoulos, 2008-08-01 *Programming Reality: Perspectives on English-Canadian Television*, the first anthology dedicated to analyses of Canadian television content, is a collection of original, interdisciplinary articles, combining textual analysis and political economy of communications. It explores the television that has thrived in the Canadian regulatory and cultural context: namely, programs that straddle the border between reality and fiction or even blur it. The conceptual basis of this collection is the hybrid nature of television fare: the widely theorized notion that all mediations of reality involve fiction in the form of narrative or symbolic shaping. Each of the contributions here is a reminder, too, of the significant relationship of television to nation building in Canada—to the imaginative work involved in thinking through the relations that constitute nations, citizens, and communities. The collection focuses on English-language Canadian television because the imperatives guiding its texts are markedly different from those pertaining to their French-language counterparts. The collection, therefore, develops a nuance of perspective on the cultural and political economic specificities that inform the imaginative work of television production for English Canada.

The Platinum Age of Television David Bianculli, 2017-09-05 Television today is better than ever. From *The Sopranos* to *Breaking Bad*, *Sex and the City* to *Girls*, and *Modern Family* to *Louie*, never has so much quality programming dominated our screens. Exploring how we got here, acclaimed TV critic David Bianculli traces the evolution of the classic TV genres, among them the sitcom, the crime show, the miniseries, the soap opera, the Western, the animated series, the medical drama, and the variety show. In each genre he selects five key examples of the form to illustrate its continuities and its dramatic departures. Drawing on exclusive and in-depth interviews with many of the most famed auteurs in television history, Bianculli shows how the medium has evolved into the premier form of visual narrative art. Includes interviews with: MEL BROOKS, MATT GROENING, DAVID CHASE, KEVIN SPACEY, AMY SCHUMER, VINCE GILLIGAN, AARON SORKIN, MATTHEW WEINER, JUDD APATOW, LOUIS C.K., DAVID MILCH, DAVID E. KELLEY, JAMES L. BROOKS, LARRY DAVID, KEN BURNS, LARRY WILMORE, AND MANY, MANY MORE

Radio's Legacy in Popular Culture Martin Cooper, 2022-01-27 Examining work by novelists, filmmakers, TV producers and songwriters, this book uncovers the manner in which the radio – and the act of listening – has been written about for the past 100 years. Ever since the first public wireless broadcasts, people have been writing about the radio: often negatively, sometimes full of praise, but always with an eye and an ear to explain and offer an opinion about what they think they have heard. Novelists including Graham Greene, Agatha Christie, Evelyn Waugh, and James Joyce wrote about characters listening to this new medium with mixtures of delight, frustration, and despair. Clint Eastwood frightened moviegoers half to death in *Play Misty for Me*, but Lou Reed's 'Rock & Roll' said listening to a New York station had saved Jenny's life. *Frasier* showed the urbane side of broadcasting, whilst *Good Morning, Vietnam* exploded from the cinema screen with a raw energy all of its own. Queen thought that all the audience heard was 'ga ga', even as *The Buggles* said video had killed the radio star and Tom Petty and the Heartbreakers lamented 'The Last DJ'. This book explores the cultural fascination with radio; the act of listening as a cultural expression – focusing on fiction, films and songs about radio. Martin Cooper, a broadcaster and academic, uses these movies, TV shows, songs, novels and more to tell a story of listening to the radio – as created by these contemporary writers, filmmakers, and musicians.

Rock & Pop on British TV Jeff Evans, 2017-02-16 When rock 'n' roll arrived, all Britain had were two black and white TV channels, the BBC and the slightly racier ITV. In just over a decade after the first dedicated music programme, *Cool For Cats*, aired in 1956, cheap black and white studio-bound miming would give way to epic prog-rock live performances as programme controllers' were forced to accept the rise of the counter culture. Eventually, mammoth rock festivals would be enjoyed on multi-channel high-definition TV, delivering more coverage than any one person attending the actual event could ever experience. In *Rock & Pop on British TV*, Jeff Evans tells the whole story of how this entertainment medium morphed and grew as technology advanced and cultures changed. In a world where music is available on demand, 24/7, the story of *Rock & Pop On British TV* takes you back to your youth – whenever that was – and the days when pop on TV was an eagerly anticipated, greedily consumed and thrilling part of growing up in Britain. This Omnibus Enhanced digital edition includes a Digital Timeline of the notable programmes discussed within the book and the #1 hits of the day, illustrated with videos and images.

Too Much Robert Hewison, 2023-02-03 First published in 1986, *Too Much* records the tumultuous period between 1960 and 1975 when, more than at any other time in history, the arts were a battleground for the conflicting forces of social change. With the new affluence of the Sixties the cultural conformism of the previous decade was rejected in favour of new forms of expression. Pop Art, pop music, fringe theatre and performance poetry helped to create the semi-mythological image of 'Swinging London.' The liberation ethic was feted as it masked the insecurities of a society in decline but, as a real political challenge to the status quo, it also led to conflict. The confrontation between official culture and the underground came in 1968, a year with its own mythical resonance. This book will be of interest to students of art, media studies and cultural studies.

Gender and Media in the Broadcast Age Justine Lloyd,2020-01-01 The 20th century was a time of rapid expansion in media industries, as well as of accelerating demands for equality and recognition for women. While women's agency has typically been defined through the domestic sphere, the introduction of media into the home destabilised firm boundaries between public and private spheres. Gender and Media in the Broadcast Age demonstrates how women as media producers and audiences in three countries with public service broadcasters (UK, Canada and Australia) have contributed to changes in our understandings of public and private. Justine Lloyd offers a new way of understanding how tremendous changes in social definitions of gender roles played out in media forms worldwide during this period through the notion of 'intimate geographies'. Women's participation in media continues to be a key challenge to notions of the public sphere and the book concludes that profound changes initiated in the broadcast era are unfinished in the age of digital media. Lloyd therefore provides rich and valuable evidence of the dynamic relationship between media texts, producers and audiences that is relevant to contemporary debates about a growing gender 'apartheid' in a mediated culture.

Entertaining Crime Mark Fishman,2018-02-06 In eleven original studies by social scientists, this is the first volume to focus on television reality crime programming as a genre. Contributors address such questions as: why do these programs exist; what larger cultural meaning do they have; what effect do they have on audiences; and what do they indicate about crime and justice in the late twentieth century? Adaptable at both undergraduate and graduate levels, Entertaining Crime will contribute to discussions of crime and the media, as well as crime in relation to other issues, such as gender, race/ethnicity, and fear of crime.

Television Talk Shows Andrew Tolson,2001-06-01 The talk show has become a ubiquitous feature of American and European television. The various examples have been frequently discussed by academic commentators, as well as journalists in an attempt to place them in a cultural setting. Ultimately, the conclusion is reached by both academics and non-academics that talk shows matter because they are a focus for considerable public debate and are crucial to the landscape of popular television. All the variations of talk shows, from chat shows to celebrity interviews, have key elements in common: They all feature groups of guests, not individual interviewees, and they all involve audience participation. The studio audience is not only visible, but is given the opportunity to comment and intervene. Other books have applied academic analysis to the phenomenon of these shows, but this is the first to analyze the actual talk of the talk shows, and in that sense it is closer to discourse analysis than to other forms of analysis. This book provides a systematic empirical study of the broadcast talk in talk shows and maps out the range of formats that appear in the major American and British television shows. The contributors are members of an international network of researchers interested in the study of broadcast talk.

Keeping Quiet Julian Dutton,2015-07-23 Keeping Quiet is a love-letter to the modern sight-gag on film and television, tracing the history of physical clowning since the advent of sound. Taking up the story of visual humour where Paul Merton’s Silent Comedy leaves off, Julian Dutton charts the lives and work of all the great comedians who chose to remain silent, from Charlie Chaplin – who was determined to resist the ‘talkies’ – right through to the slapstick of modern-day performers such as Rowan Atkinson, Matt Lucas and Harry Hill. This fascinating chronicle – spanning nine decades – shows how physical comedy, at first overshadowed by dialogue-films in the 1930s, reinvented itself and how this revival was spearheaded by a Frenchman: Jacques Tati. Julian Dutton draws on his own experience as a comedy writer and performer to give an expert analysis of the screen persona and the comedy style of dozens of the screen’s best-loved performers including Laurel & Hardy, Buster Keaton, Harpo Marx, Norman Wisdom, Jerry Lewis, Benny Hill, Peter Sellers, Eric Sykes, Ronnie Barker, Marty Feldman – and many more. This book will appeal both to the serious student of film, television and theatre – including those aspiring to write or perform comedy – and to the general reader and comedy fan.
