Restyling Factual TV Annette Hill, 2007-06-11 Addressing the wide range of programmes and formats from news, to documentary, to popular factual genres, Annette Hill's new book examines the ways viewers navigate their way through a busy, noisy and constantly changing factual television environment. *Restyling Factual TV* addresses the wide range of programmes that fall within the category of 'factuality', from politics, to natural history, to reality entertainment. Based on research with audiences of factual TV, primarily in Sweden and the UK, but with reference to other countries such as the US, this book tackles issues such as legitimacy, ethics and value in contemporary news and current affairs, documentary and reality programming. Drawing on the ethics of truth-telling and notions of quality, this wide-ranging, authoritative book expands the debate on popular factual entertainment and will be a welcome addition to the current literature.

Media and Culture Richard Campbell, Christopher R. Martin, Bettina Fabos, 2011-02-23 It's no secret today's media landscape is evolving at a fast and furious pace — and students are experiencing these developments firsthand. While students are familiar with and may be using the latest products and newest formats, they may not understand how the media has evolved to this point or what all these changes mean. This is where Media and Culture steps in. The eighth edition pulls back the curtain and shows students how the media really works, giving students the deeper insight and context they need to become informed media critics.

The 2013 Update also includes the must-cover events and trends students need to know to become informed media consumers and critics — from social media's influence on political events like the Occupy Wall Street movement and the Arab Spring revolutions and what the News Corp. phone-hacking scandal means for journalism to the continued growth of television streaming and apps and the advent of tablet-only newspapers. Television Brandcasting Jennifer Gillan, 2014-11-20 Television Brandcasting examines U. S. television's utility as a medium for branded storytelling. It investigates the current and historical role that television content, promotion, and hybrids of the two have played in disseminating brand messaging and influencing consumer decision-making. Juxtaposing the current period of transition with that of the 1950s-1960s, Jennifer Gillan outlines how in each era new technologies unsettled entrenched business models, an emergent viewing platform threatened to undermine an established one, and content providers worried over the behavior of once-dependable audiences. The anxieties led to storytelling, promotion, and advertising experiments, including the Disneyland series, embedded rock music videos in *Ozzie & Harriet*, credit sequence brand integration, *Modern Family's* parent company promotion episodes, second screen initiatives, and social TV experiments. Offering contemporary and classic examples from the American Broadcasting Company, Disney Channel, ABC Family, and Showtime, alongside series such as *Bewitched*, *Leave it to Beaver*, *Laverne & Shirley*, and *Pretty Little Liars*, individual chapters focus on brandcasting at the level of the television series, network schedule, Blu-ray/DVD/Digital combo pack, the promotional short, the cause marketing campaign, and across social media. In this follow-up to her successful previous book, *Television and New Media: Must-Click TV*, Gillan provides vital insights into television's role in the expansion of a brand-centric U.S. culture.

A Transnational Study of Law and Justice on TV Peter Robson, Jennifer L Schulz, 2016-11-17 This collection examines law and justice on television in different countries around the world. It provides a benchmark for further study of the nature and extent of television coverage of justice in fictional, reality and documentary forms. It does this by drawing on empirical work from a range of scholars in different jurisdictions. Each chapter looks at the raw data of how much justice material viewers were able to access in the multi-channel world of 2014 looking at three phases: apprehension (police), adjudication (lawyers), and disposition (prison/punishment). All of the authors indicate how television developed in their countries. Some have extensive public service channels mixed with private media channels. Financing ranges from advertising to programme sponsorship to licensing arrangements. A few countries have mixtures of these. Each author also examines how TV justice has developed in their own particular jurisdiction. Readers will find interesting variations and thought-provoking similarities. There are a lot of television shows focussed on legal themes that are imported around the world. The authors analyse these as well. This book is a must-read for anyone interested in law, popular culture, TV, or justice and provides an important addition to the literature due to its grounding in empirical data.

Popular Television in Eastern Europe During and Since Socialism Anikó Imre, Timothy Havens, Kati Lustyik, 2013 This collection will be the first volume to gather the best writing on socialist and postsocialist entertainment television as a medium, technology, and institution in Eastern Europe.

Para-Interactivity and the Appeal of Television in the Digital Age Oranit Klein-Shagrir, 2017-08-15 This book explores television's efforts to remain culturally relevant, socially significant, and commercially viable in a changing media environment. It traces its adaptation to the digital era and television's attempts to appeal to its audience by using televisual strategies to simulate interactivity and viewer participation.

Action TV: Tough-Guys, Smooth Operators and Foxy Chicks Anna Gough-Yates, Bill Osgerby, Anna Gough Yates, 2013-10-18 From re-runs of 'TV classics' like *The Avengers* or *Starsky and Hutch*, to soundtracks, club nights and film remakes such as *Mission Impossible II*, the action series is enjoying a popular revival. Yet little attention has been paid to the history, nature and enduring appeal of the action series, and its place in popular culture, past and present. Action TV traces the development of the action series from its genesis in the 1950s. From *The Saint* to *Knight Rider*, contributors explore the key shows which defined the genre, addressing issues of audiences and consumption, gender and sexuality, fashion and popular culture. They examine the institutional and cultural factors influencing the action series, and relate shifts in the genre to other forms of popular culture including film, pop music, fashion and popular literature. Chapters include: * Of leather suits and kinky boots: *The Avengers*, style and popular culture * 'Who loves ya, baby?': *Kojak*, action and the great society * 'A lone crusader in a dangerous world': heroics of science and technology in *Knight Rider* * Angels in chains? feminism, femininity and consumer culture in *Charlie's Angels* * 'Who's the cat that won't cop out?' Black masculinity in American action shows of the sixties and seventies
