Solo Vocal Works on Jewish Themes Kenneth Jaffe,2011 Solo Vocal Works on Jewish Themes: A Bibliography of Jewish Composers is a comprehensive and annotated compendium of stage, concert, and liturgical compositions written by Jewish composers from every known time period and country. Kenneth Jaffe has amassed nearly 3,000 large-scale musical works for solo voice(s) on Jewish themes, written by Jewish composers. The works include over 400 cantatas, 150 oratorios, almost 300 operas, more than 100 sacred services, 20 symphonies, and more than 350 stage works, including Yiddish theatre, Purim and sacred plays, multi-media pieces, and musical theatre. In addition, original song cycles and liturgical services arranged for a modest to large complement of instruments are also included. The works are organized by composer and subdivided by genre, and each entry is fully annotated, detailing the title, opus, voicing and instrumentation, text source, commission, year completed, year and location of the premiere, the year of publication and the publisher (if any), the location of scores, and the duration of the work. The works are then broken down by theme, such as Biblical themes, works for children, works of the Holocaust or Jewish suffering and persecution, interfaith works, and wedding music. They are then cross-referenced by voice type, arrangement, and by title. A list of libraries and publishing houses of Jewish music rounds out this invaluable reference.

Foreign Fighters under International Law and Beyond Andrea De Guttry, Francesca Capone, Christophe Paulussen, 2016-02-27 This book offers various perspectives, with an international legal focus, on an important and underexplored topic, which has recently gained momentum: the issue of foreign fighters. Outstanding experts in the field – lawyers, historians and political scientists – contributed to the present volume, providing the reader with a multitude of views concerning this multifaceted phenomenon. Particular attention is paid to its implications in light of the armed conflicts currently taking place in Syria and Iraq. Andrea de Guttry is a Full Professor of International Law at the Scuola Superiore Sant'Anna, Pisa, Italy. Foreign Fighters in Ukraine Kacper Rękawek, 2022-12-30 *Foreign Fighters in Ukraine* is the first comprehensive academic study taking an in-depth look at foreigners who have chosen to fight in the conflict in Ukraine. While there has been considerable focus in policy, security and academic circles on the threat from returning jihadists – so-called returnee foreign terrorist fighters – the same danger from right-wing, but not essentially terrorist, extremists and others has been largely overlooked. As Westerners rushed to join the nascent Caliphate in Syria/Iraq, others simultaneously traveled to another foreign war on what many would call Europe's doorstep: the Russo-Ukrainian war. This book unmaskes this largely unknown group of fighters as the author dives into the fighters' ideological and social backgrounds, their motivations for joining the conflict, their travails on the way there and their battle record in Eastern Ukraine. To a large extent based on interviews with the fighters themselves, it is a study on how and why men risk their lives while fighting a foreign war – and attract the attention of security services at home upon their return. Particularly, given the Russian invasion of Ukraine in February 2022 and the growing interest in far-right violence worldwide, the book evaluates whether these returnees constitute another security threat to the West. This volume will be of interest to all those researching small wars, terrorism, peace and conflict studies and right-wing extremism.

Medium Design Keller Easterling, 2021-01-19 Everyone is a designer. But while many practitioners may be looking for solutions or ideological certainties, Easterling argues that solutions are mistakes and ideologies are unreliable markers. Instead, *Medium Design* speaks to anyone looking for alternative approaches to the world's unresponsive or intractable dilemmas—from climate cataclysm to inequality to concentrations of authoritarian power. Such an approach joins many disciplines in considering not only separate objects, ideas and events but also the space between them. In case studies dealing with everything from automation and migration to explosive urban growth and atmospheric changes, *Medium Design* looks not to new innovations but rather to sophisticated relationships between emergent and incumbent technologies. It does not try to eliminate problems but put them together into productive combinations. And it offers forms of activism for modulating power and temperament in organization of all kinds

Balkan Fighters in the Syrian War Tanja Dramac Jiries, 2021-09-15 This book analyses the process of the recruitment of foreign fighters from the Western Balkans, specifically Bosnia and Herzegovina and Kosovo, to Syria and Iraq from 2012 to 2015. Utilizing in-depth, semi-structured interviews with foreign fighters and their

families, as well as a number of relevant stakeholders it answers the question of what were the processes and circumstances leading up to the departure of foreign fighters from Bosnia and Herzegovina and Kosovo and what informed their agency? The author draws on the theories of social movement approaches, more specifically, contentious politics literature and utilizes the specific concepts of triggering mechanisms, which refer to the enabling circumstances that make the radicalization and departure possible, and pleasure in agency, to elaborate on individual motivation. The book also shows how a wider state- fragility within the context of the post-Yugoslav wars and the transitional period that never ended, aided radicalization and how an incomplete process of post-war transition can fuel the process of political and religious radicalization creating a wider enabling web for recruitment. It will be of interest to students and scholars of Southeast European politics and foreign policy, post-war democratic transition, security policy and radicalization more broadly.

Great Black War Fighters Ben L. Walton,2017-06-20 This is a reissue of Great Black War Fighters: Profiles in Service that was first published in May 2012. Inspiration to make the volume available again came from the many outstanding reviews found on websites in 2017 about the publication. Below, for information, is the narrative that appeared on the back cover of the first edition of the book. Great Black War Fighters: Profiles in Service sets a precedent. No other book has ever been written to meet three documented and validated needs. One, to inform readers of the phenomenal achievements and remarkable contributions made to the defense and national security of the United States by African-American admirals and generals since President Harry S. Truman signed Executive Order 9981 on July 26, 1948, abolishing segregation in the nation's armed forces. Two, to captivate, enlighten, and inspire students in training programs such as ROTC, the service academies, and OCS, who upon graduation, will be commissioned as officers in the military. Furthermore, it creates a resource for personnel on active duty or serving in the reserves to read how a group of black officers reached the pinnacle of their career, and doing it against enormous odds. Three, to produce a collectible, gift or keepsake for former service members, their loved ones and friends, so they can all take pride and be moved by the life stories in this book. Great Black War Fighters chronicles 29 black flag officers from among the 250 researched for the work.

Jihadism, Foreign Fighters and Radicalization in the EU Inmaculada Marrero Rocha,Humberto M. Trujillo Mendoza,2018-11-20 Jihadism, Foreign Fighters and Radicalization in the EU addresses the organizational and strategic changes in terrorism in Europe as a result of urban jihadism and the influx of foreign fighters of European nationality or residence. Examining the different types of responses to the treatment of radicalization and its consequences in the recruitment of young urban fighters and jihadists, this book offers a framework for understanding the process of violent radicalization. It critically analyses political and legal responses that have taken place within the European framework, whilst also examining a series of functional responses from social and behavioural psychology. This book then goes on to develop an explanatory model from an economic standpoint, exploring the need to adapt the fight against the financing of terrorism to the changes in the sources of

financing jihadist cells and foreign fighters. Furthermore, the volume draws on experience from the prison sector to assess the process of radicalization and the possibilities of intervention. Taking an interdisciplinary approach, this book will be of great interest to students of terrorism and counter-terrorism, radicalization, European politics, radical Islam and security studies.
