Joe action figures, demolishing fleets of vehicles with your Tonka Toy Trucks, or Karate-chopping imaginary street thugs with your Teenage Mutant Ninja Turtles? What about carefree summer afternoons counting ticks on your Skip-It, scooting around the neighborhood on your Big Wheel, or soaring down your backyard Slip 'n Slide? Still a little bitter that your parents never let you have a Nerf Super Soaker, or a Barbie Dream House? Did you prefer to unleash your inner artist with your Etch a Sketch, or your inner chef with your Easy-Bake Oven? Did you like to challenge your friends to a rousing game of Mousetrap, or did you prefer to get tied up in knots over a round of Twister? In Toy Time! you'll be reunited with all these classic toys and more. My Year Collecting Toys 2017 Matthew Marchon, It's not an addiction, it's a passion. I love collecting toys. Okay, yeah, fine, maybe a little bit of an addiction. We'll let you decide. Journey with me as we take a trip back to 2017. The year my beloved WWF Hasbro figures returned to the shelves as WWE Retros. The year Mega Construx added Masters Of The Universe to their line of mini figures. The year I bought a collection of the 2011 Thundercats and found a bag of He-Man figures at a thrift store in the mountains of New Hampshire. While traveling New England for my hiking guides, I stopped at every toy store, flea market and thrift store I came across. Not to mention my parents' shed and attic, always good places for old treasures. And of course, good old eBay. The cover says it all, you know what we're hunting down. This isn't superheroes and Star Wars, I'm looking for those forgotten lines. And a few not so forgotten. We're talking Dino-Riders and Super Naturals. Wrestling and MOTU. GI Joes, Turtles, the ninja kind, not the ones you have to brake for in the road, Transformers and even, ugh, I know people hate it but I'm gonna say it anyway, Go-Bots. And Thundercats, everyone loves them. Does that make up for it? It was a good year for toy hunting, but not nearly as good as the years that fell around it. Since this book's a little short, we're going to give it away for free, just pretend it's one of those mini comics that came with 80's action figures. But don't let your kids read it, some of the humor may be a little inappropriate. They can enjoy the

pictures though, just like I did with the actual mini comics that came with my figures when I was a kid. Let's take a look at my year collecting toys in 2017.

*Good Toys, Bad Toys* Andrew McClary, 2015-02-18 In early America, most children had only a few toys and parents received advice from family and friends on the best ways to make and use toys. By the early 1900s the Industrial Revolution was producing a new world of toys and giving more parents the wealth to buy them. Mass media also sang the praises of these new factory-made, store-bought toys, but that began to change as early as the mid-1900s when the mass media was used to inform parents of the many dangers of children's toys. Many encourage violence, sexism, racism, and some are actually unsafe and unhealthy. The development of children's toys from early America to the present time and the shifting opinions of them expressed by parents and the mass media throughout this time are the main subjects of this

book. The first section discusses the many problems with toys, while the second puts these problems in historical perspective. How have these problems changed, and are still changing today? Might today's toys be about to enter a time when they will be better than ever? The third section argues that many media toy watchers are biased toward the negative, giving toys more of a black eye than they deserve, and considers the challenges that face today's parents as they try to choose the best toys for their children.
