U- and E-Service, Science and Technology Tai-hoon Kim, Jianhua Ma, Wai-chi Fang, Byungjoo Park, Byeong-Ho Kang, Dominik Ślęzak, 2010-11-23 Welcome to the proceedings of the 2010 International Conference on u- and e-Service, Science and Technology (UNESST 2010) – one of the partnering events of the Second International Mega-Conference on Future Generation Information Technology (FGIT 2010). UNESST brings together researchers from academia and industry as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of u- and e-services and their applications, with links to computational sciences, mathematics and information technology. In total, 1,630 papers were submitted to FGIT 2010 from 30 countries, which includes 223 papers submitted to UNESST 2010. The submitted papers went through a rigorous reviewing process: 395 of the 1,630 papers were accepted for FGIT 2010, while 50 papers were accepted for UNESST 2010. Of the 50 papers 8 were selected for the special FGIT 2010 volume published by Springer in the LNCS series. 27 papers are published in this volume and 15 papers were withdrawn due to technical reasons. We would like to acknowledge the great effort of the UNESST 2010 International Advisory Board and members of the International Program Committee, as well as all the organizations and individuals who supported the idea of publishing this volume of proceedings, including SERSC and Springer. Also, the success of the conference would not have been possible without the huge support from our sponsors and the work of the Chairs and Organizing Committee.

American Yachts in Naval Service Kenneth Howard Goldman, 2020-11-02 Before there was a U.S. Navy, several Colonial navies were all-volunteer--both the crews and the vessels. From its beginnings through World War II, the Navy has relied on civilian sailors and their fast vessels to fill out its ranks of small combatants. Beginning with the birth of the yacht in the Netherlands in the 17th century, this illustrated history traces the development of yacht racing, the advent of combustion-engine power and the contribution privately owned vessels have made to national defense. Vessels conscripted during the Civil War served both the Union and Confederacy--sometimes changing sides after capture. The first USS Wanderer saw the slave trade from both sides of the law. Aboard the USS Sylph, Oscar-winning actor Ernest Borgnine fought the Third Reich's U-boats under sail. USS Sea Cloud made history as the first racially integrated ship in the Navy, three years before President Truman desegregated the military.
