Helena Hof

The EU Migrant Generation in Asia Helena Hof, 2022-12-01 Drawing on an extensive study with young individuals who migrated to Singapore and Tokyo in the 2010s, this book sheds light on the friendships, emotions, hopes and fears involved in establishing life as Europeans in Asia. It demonstrates how migration to Asian business centres has become a way of distinction and an alternative route of middle-class reproduction for young Europeans during that period. The perceived insecurities of life in the crisis-ridden EU result in these migrants' onward migration or prolonged stays in Asia. Capturing the changing roles of Singapore and Japan as migration destinations, this pioneering work makes the case for EU citizens' aspired lifestyles and professional employment that is no longer only attainable in Europe or the West.

Rapport d'information sur l'évaluation du soutien public aux exportations

Jean-Christophe FROMANTIN, Patrice PRAT, 2013-07-04 Le 18 octobre 2012, le Comité d'évaluation et de contrôle des politiques publiques (CEC) de l'Assemblée nationale a inscrit à son programme de travail, le sujet suivant : « évaluation du soutien public aux exportations ». L'évaluation a porté sur les politiques publiques menées au niveau national (État et opérateurs) ou infranational (collectivités territoriales, organismes consulaires) visant précisément et exclusivement à favoriser les exportations françaises. Le 4 juillet 2013, ont été publiées les propositions des rapporteurs, afin

d'améliorer le soutien aux exportations. Celles-ci tiennent en cinq axes :
1.- Répondre à la nouvelle donne du commerce international, notamment en suscitant l'envie d'exporter et en donnant l'image d'un pays industriel dynamique. 2.- Renforcer l'engagement de l'État régalien, notamment en définissant une véritable doctrine d'intervention de l'État à l'international. 3.- Clarifier les compétences des acteurs s'agissant de la détection du potentiel export, en faisant de Bpifrance le pivot de la relation avec les entreprises. 4.- Mieux coordonner les acteurs de « l'équipe de France de l'export » à l'étranger pour offrir des services plus complets et plus lisibles aux entreprises, en clarifiant notamment le rôle d'Ubifrance. 5.- Rationaliser et simplifier les produits de financement du développement international.

Gestion internationale des ressources humaines - 3e édition Michel Barabel, Olivier Meier, 2014-03-19 Quel est le rôle d'une fonction ressources humaines dans les entreprises internationales ? Comment s'organise la mobilité internationale (expatriation, détachement, VIE, impatriation, etc.) ? Pourquoi encourager les carrières internationales ? Les auteurs abordent les grandes questions de la gestion internationale des ressources humaines (GIRH) : • le contexte d'internationalisation des entreprises et ses conséquences sur les ressources humaines ; • les pratiques de GIRH à travers de nombreux cas et points de vue d'experts ; • les spécificités du système français, avec une analyse comparative des différents pays. Entièrement

actualisée, cette troisième édition propose plusieurs cas d'entreprises et des fiches-outils inédites permettant de mettre en pratique les processus étudiés. .

Repatriation to France and Germany Matthias Walther, 2014-05-19 A significant amount of German and French career agents are involved with international careers. Applying Bourdieu's Theory of Practice, Matthias Walther compares the repatriation of German and French career agents into the external labor markets of their parent country career fields. A qualitative content analysis of 40 semi-structured interviews shows that the German and French career agents' career capital and habitus develops during expatriation, which has an important impact on the re-integration into the parent country career field. The Author shows that in an international career mobility context, the rules of the game change compared to the rules in a pure national career context, which challenges the pertinence of national career models in understanding repatriation in a Franco-German context.

Jugaad 3.0 Simone Ahuja, 2019-02-28 This book will prove that every organization's best chance, to survive and become better than ever, lies within itself. Against the decidedly progressive, action-oriented, and above all restless backdrop of disruption, the DNA of established business is starting to realign. It's the beginning of a groundswell that has started to make lean entrepreneurship a core competency within big business. Based on hundreds of interviews, as well as the author's consulting work within

companies, Jugaad 3.0 Hacking the Corporation identifies the competencies these corporate hackers possess. It also offers a spectrum of carefully crafted archetypes to help people see themselves in this trend and allow organizations identify the innovators in their midst.

The Palgrave Handbook of Wine Industry Economics Adeline Alonso Ugaglia, Jean-Marie Cardebat, Alessandro Corsi, 2019-03-15 This Palgrave Handbook offers the first international comparative study into the efficiency of the industrial organization of the global wine industry. Looking at several important vineyards of the main wine countries, the contributors analyze differences in implementation and articulation of three key stages: grape production, wine making and distribution (marketing, selling and logistics). By examining regulations, organization theory, industry organizational efficiency and vertical integration, up to date strategies in the sector are presented and appraised. Which models are most efficient? What are the most relevant factors for optimal performance? How do reputation and governance impact the industry? Should different models co-exist within the wine countries for global success? This comprehensive volume is essential reading for students, researchers and professionals in the wine industry.

6th International Finance Conference on Financial Crisis and Governance Mondher Bellalah, 2011-08-08 Financial markets, the banking system, and the real estate, commodity and energy markets have, since 2007, been experiencing

higher integration, more volatility and have undergone several shocks. More coordination is needed between G20 and market authorities. Regulators, banking supervision agencies and politicians are worried about economic growth and financial crisis. This book covers seven aspects related to financial economic issues, along with some connected topics. The first covers risk assessment, corporate governance and value creation through an appropriate risk management system. The second covers international investments, market correlation, institutional holdings and market reactions during crisis. The third part is devoted to empirical and quantitative analysis of the observed economics and finance issues. The fourth part is devoted to the role of debt in financial crisis and its impact on financial markets and the world economy. The fifth part is devoted to debt policy, free cash flows and the structure of governance. The sixth part deals with management control and the importance of communication. The last part covers Islamic finance as an alternative to conventional finance for the debt solution, the importance of the energy sector and the role of financial innovations.

The Vietnamese City in Transition Patrick Gubry, Frank Castiglioni, Jean-Michel Cusset, Nguyen Thi Thieng, Pham Thuy Huong, 2010 Since the Doi Moi policy of economic renovation was introduced in 1986, Vietnam has undergone deep transformations as a result of the transition to a socialist-oriented market economy. Social and urban transition has taken place in parallel, as urban dynamics were spurred on by Vietnamese public and private stakeholders, and by external agents such as international organizations and international solidarity organizations, experts, consultants and bilateral aid organizations. Le Voyage avant le Voyage Julia Peyron, 2020-11-24 L'époque que nous traversons nous invite à nous aligner : nous sommes appelés à devenir pleinement nous-mêmes et à exprimer notre potentiel en respectant nos valeurs, de façon fluide et joyeuse. Souvent, insatisfaits mais trop occupés, incapables de savoir ce que nous voulons, ou déconnectés de ce qui fait notre talent, nous ne savons pas par où commencer. Pour nous éclairer et nous inspirer, voici un morceau de l'histoire vraie de Julia, qui décide de

prendre une année sabbatique. C'est le début d'une effervescente quête. Tout est possible. Que faire, et où aller ? Qu'est-ce qui a du sens ? Qu'ai-je à offrir au monde ? Julia nous raconte, étape par étape, la façon dont elle a préparé le voyage qui marquera le début d'une profonde transition de vie. Avec transparence et humour, elle livre un cheminement fait de révélations et de rencontres, de bouteilles à la mer et de synchronicités, de claques et de sauts dans l'inconnu... Ce qu'elle n'imaginait pas, c'est que cette phase préparatoire serait en elle-même un grand bain d'expériences : d'ores et déjà, elle devient créatrice de la vie qui lui convient vraiment. Un véritable Voyage avant le Voyage ! En suivant ses aventures, vous découvrirez qu'il est possible de commencer sans attendre à vivre la vie que vous souhaitez profondément vivre.
