**Handbook of Mobile Learning** Zane L. Berge, Lin Muilenburg, 2013-06-19 Winner of the AECT Division of Distance Learning (DDL) Distance Education Book Award! This handbook provides a comprehensive compendium of research in all aspects of mobile learning, one of the most significant ongoing global developments in the entire field of education. Rather than focus on specific technologies, expert authors discuss how best to utilize technology in the service of improving teaching and learning. For more than a decade, researchers and practitioners have been exploring this area of study as the growing popularity of smartphones, tablets, and other such devices, as well as the increasingly sophisticated applications for these devices, has allowed educators to accommodate and support an increasingly mobile society. This handbook provides the first authoritative account of the theory and research that underlies mobile learning, while also exemplifying models of current and future practice.

Mobile Learning and STEM Helen Crompton, John Traxler, 2015-12-07 In recent years, there has been a renewed focus on STEM education in the United States, fueled by evidence that young learners' competencies in science, technology, engineering, and mathematics are falling behind those of their global peers. Scholars and practitioners are beginning to utilize the new pedagogical opportunities offered by mobile learning to improve the successes of teachers and K-12 students across STEM subjects. *Mobile Learning and STEM: Case Studies in Practice* is a comprehensive collection of case studies that explore mobile learning's support of STEM subjects and that utilize mobile technology to facilitate unique and effective K-12 teaching and learning experiences. In addition to its focus on STEM achievement for researchers, this volume is a resource for teachers working to implement mobile learning initiatives into their classrooms. *Mobile Learning and STEM* also includes research that is applicable to classrooms in nations around the world, where few students from underrepresented racial and socioeconomic backgrounds are entering into STEM jobs. Concluding with a summary of its research and its implications to future scholarship and practice, this book is a springboard for practitioners, specialists, higher education instructors, and researchers who want to establish better practices in schools and raise student achievement in STEM subjects.

*One Mixed-Up Night* Catherine Newman, 2017-09-05 Two best friends on the run... to IKEA. Frankie and Walter aren't really running away. Just like the kids in their favorite book, they are running to somewhere. Specifically, a massive furniture store. They've been obsessed with the Ikea catalog for years. So they make a plan, pack their backpacks, give their parents the sleepover switcheroo . . . and they're in. One night all on their own, with no grown-ups or little brothers. One night of couch jumping, pillow forts, and unlimited soda refills. One night of surprises and twinkle lights and secrets they have been keeping—and waiting to share. One unforgettable night in Ikea. A tribute to the beloved classic *From the Mixed-Up Files of Mrs. Basil E. Frankweiler*! Only, instead of running away to the Metropolitan Museum, these kids are running away to somewhere a little more modern...

*Civility, Compassion, and Courage in Schools Today* Patricia Kohler-Evans, Candice Dowd Barnes, 2015-02-13 Over the past two decades, and perhaps even before the "No Child Left Behind Act," policy makers and others have managed to drain civility, compassion, and courage from everyday classroom instruction. We have grown to become an educational system that is almost solely focused on academics at the expense of teaching to the whole child. *Civility, Compassion, and Courage in Schools Today* argues that civility, compassion and courage are absolutely essential to foster good citizenship—to encourage and motivate students to action—to take on the perspectives of others, and to see how they can become productive members in an ever changing global community. Using the authors' "Model of Influence," a four level hierarchy, they suggest that students can be taught to be more civil, compassionate, and courageous, even when facing adversity, and can move from developing a consciousness about these attributes into embracing influence and taking bold action. This book provides numerous examples as well as lesson plans designed to assist all educators to infuse their instruction with these critical attributes.

**Global Diplomacy** Thierry Balzacq, Frédéric Charillon, Frédéric Ramel, 2019-11-08 This volume brings together different approaches to diplomacy both as an institution and a practice. The authors examine diplomacy from their own backgrounds and through sociological traditions, which shape the study of international relations (IR) in Francophone countries. The volume's global character articulates the Francophone intellectual concerns with a variety of scholarships on diplomacy, providing a first contact with this subfield of IR for students and practitioners.

As a result, Business Process Manager solutions benefit from tuning, configuration, and best practices information for WebSphere Application Server and the corresponding platform Java virtual machines (JVMs). This book targets a wide variety of groups, both within IBM (development, services, technical sales, and others) and customers. For customers who are either considering or are in the early stages of implementing a solution incorporating Business Process Manager and Business Monitor, this document proves a useful reference. The book is useful both in terms of best practices during application development and deployment and as a reference for setup, tuning, and configuration information. **In the Presence of a King** Angela Webster Ph.D.,2012-06-01 While growing up in Memphis, Tennessee, the author wanted to be special. While she knew she was different, she did not believe she was special. She decided when she grew up, she would become a princess, like Cinderella! *Virtual Heritage* Erik Malcolm Champion,2021-07-22 Virtual heritage has been explained as virtual reality applied to cultural heritage, but this definition only scratches the surface of the fascinating applications, tools and challenges of this fast-changing interdisciplinary field. This book provides an accessible but concise edited coverage of the main topics, tools and issues in virtual heritage. Leading international scholars have provided chapters to explain current issues in accuracy and precision; challenges in adopting advanced animation techniques; shows how archaeological learning can be developed in Minecraft; they propose mixed reality is conceptual rather than just technical; they explore how useful Linked Open Data can be for art history; explain how accessible photogrammetry can be but also ethical and practical issues for applying at scale; provide insight into how to provide interaction in museums involving the wider public; and describe issues in evaluating virtual heritage projects not often addressed even in scholarly papers. The book will be of particular interest to students and scholars in museum studies, digital archaeology, heritage studies, architectural history and modelling, virtual environments.

**Mangrove Ecosystems: A Global Biogeographic Perspective** Victor H. Rivera-Monroy,Shing Yip Lee,Erik Kristensen,Robert R. Twilley,2017-11-03 This book presents a comprehensive overview and analysis of mangrove ecological processes, structure, and function at the local, biogeographic, and global scales and how these properties interact to provide key ecosystem services to society. The analysis is based on an international collaborative effort that focuses on regions and countries holding the largest mangrove resources and encompasses the major biogeographic and socio-economic settings of mangrove distribution. Given the economic and ecological importance of mangrove wetlands at the global scale, the chapters aim to integrate ecological and socio-economic perspectives on mangrove function and management using a system-level hierarchical analysis framework. The book explores the nexus between mangrove ecology and the capacity for ecosystem services, with an emphasis on thresholds, multiple stressors, and local conditions that determine this capacity. The interdisciplinary approach and illustrative study cases included in the book will provide valuable resources in data, information, and knowledge about the current status of one of the most productive coastal ecosystem in the world.

**Deliver Modern UI for IBM BPM with the Coach Framework and Other Approaches** Rackley Boren,Eric Ducos,Ge Gao,Thalia Hooker,Matthew Oatts,Paul Pacholski,Dennis Parrott,Claudio Tagliabue,IBM Redbooks,2017-05-08 IBM® Coach Framework is a key component of the IBM Business Process Manager (BPM) platform that enables custom user interfaces to be easily embedded within business process solutions. Developer tools enable process authors to rapidly create a compelling user experience (UI) that can be delivered to desktop and mobile devices. IBM Process Portal, used by business operations to access, execute, and manage tasks, is entirely coach-based and can easily be configured and styled. A corporate look and feel can be defined using a graphical theme editor and applied consistently across all process applications. The process federation capability enables business users to access and execute all their tasks using a single UI without being aware of the implementation or origin. Using Coach Framework, you can embed coach-based UI in other web applications, develop BPM UI using alternative UI technology, and create mobile applications for off-line working. This IBM Redbooks® publication explains how to fully benefit from the power of the Coach Framework. It focuses on the capabilities that Coach Framework delivers with IBM BPM version 8.5.7. The content of this document, though, is also pertinent to future versions of the application.

**Ghost** Michael R. McGowan,Ralph Pezzullo,2018-10-02 The explosive memoir of an FBI field operative who has worked more undercover cases than anyone in history. Within FBI field operative circles, groups of people known as “Special” by their titles alone, Michael R. McGowan is an outlier. 10% of FBI Special Agents are trained and certified to work undercover. A quarter of those agents have worked more than one undercover assignment in their careers. And of those, less than 10% of them have been involved in more than five undercover cases. Over the course of his career, McGowan has worked more than 50 undercover cases. In this extraordinary and unprecedented book, McGowan will take readers through some of his biggest cases, from international drug busts, to the Russian and Italian mobs, to biker gangs and contract killers, to corrupt unions and SWAT work. Ghost is an unparalleled view into how the FBI, through the courage of its undercover Special Agents, nails the bad guys. McGowan infiltrates groups at home and abroad, assembles teams to create the myths he lives, concocts fake businesses, coordinates the busts, and helps carry out the arrests. Along the way, we meet his partners and colleagues at the FBI, who pull together for everything from bank jobs to the Boston Marathon bombing case, mafia dons, and, perhaps most significantly, El Chapo himself and his Sinaloa Cartel. Ghost is the ultimate insider's account of one of the most iconic institutions of American government, and a testament to the incredible work of the FBI.

Critical CALL – Proceedings of the 2015 EUROCALL Conference, Padova, Italy Francesca Helm,Linda Bradley,Marta Guarda,Sylvie Thouëсны,2015-12-02 The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term ‘critical’ has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become ‘naturalized’ and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.
