A Dictionary of the Gaelic Language, in Two Parts, I. Gaelic and English.-II. English and Gaelic ...
Norman Macleod,Daniel Dewar,1831

The Gaelic-English Dictionary Colin B.D. Mark,2003-09-02 This book fulfils a keenly-felt need for a modern, comprehensive dictionary of Scottish Gaelic into English. The numerous examples of usage and idiom in this work have been modelled on examples culled from modern literature, and encompass many registers ranging from modern colloquial speech, to more elaborate literary constructions. The main contemporary terms and idiomatic phraseology, often not available in other dictionaries, provide excellent models for easier language learning. In addition to the main dictionary, the volume contains introductory material, providing guidance on using the dictionary, spelling and pronunciation. There are also twelve useful appendices which cover not only the various parts of speech, lenition and proper nouns, but also address the more difficult issues of expressing time, direction and numerals. The clarity of the design and layout of the volume will greatly ease the process of attaining mastery of the Gaelic language.
