**Against the Nation** Sasanka Perera, Dev Nath Pathak, Ravi Kumar, 2019-07-18 *Against the Nation* invites readers to explore South Asia as a place and as an idea with a sense of reflection and nuance rather than submitting to conventional understanding of the region merely in geopolitical terms. The authors take the readers across a vast terrain of prospects like visual culture, music, film, knowledge systems and classrooms, myth and history as well as forms of politics that offer possibilities for reading South Asia as a collective enterprise that has historical precedents as well as untapped ideological potential for the future.

## **Sports Economics: Present and Future Impact on General Economics** Ruud H.

Koning,Wolfgang Maennig,2016-11-21

The Oxford Handbook of Modern Chinese Literatures Carlos Rojas,Andrea Bachner,2016 Abstract: Rather than attempt to offer a definition of modern Chinese literature or provide a comprehensive survey of all that the category might entail, this volume instead uses a series of strategic interventions to illustrate the structural conditions out of which modern Chinese literature has emerged, how it is viewed, and how it may be interpreted. Our goal, in other words, is to showcase a set of methodologies that one may use to approach modern Chinese literature, while in the process offering different ways of reassessing what modern Chinese literature is in the first place. We contend that modern Chinese literature is not a static category but rather it is a dynamic entity whose significance and limits are continually being reshaped through the process of interpretation itself. Similarly, modern Chinese literature is not a singular, unitary category, but rather a plurality of overlapping categories--of modern Chinese literatures. Divided into three parts, on structure, taxonomy, and methodology, this volume contains 46 original articles that examine unfamiliar texts and literary phenomena and offer new perspectives on more familiar ones

**Temples in Transformation** Filip Čapek,2023-04 The focus of this book is on temples in the Southern Levant during the Iron Age (ca. 1200-600 BC) and their transformations. In order to capture the long-term context, some significant sites with temples from the Late Bronze Age are also presented and discussed. The author traces both material culture related to the temples and the way in which the same themes are treated in Old Testament texts concentrated primarily on Israel and Judah. From the analysis of these texts, he deduces a threefold transformation of the form of memory in relation to the temples and the cult. The first concerns a contrastive reshaping (Philistia and other

neighbouring political entities), the second an external (Israel) and the third an internal (Judah) silencing of the actual form of religious practice in the Iron Age.

*Off to College* Roger H. Martin, 2015-08-04 What should parents expect during their child's first year of college? Roger Martin, double president emeritus of two colleges, spent a year visiting five diverse colleges public and private, large and small, elite and non-elite in order to offer the parents of college-bound seniors a comprehensive overview of the first-year college experience. In addition to a stint with dorm life and time with students and professors, Martin draws from conversations with a wide variety of campus administrators and staff members in financial aid, campus police, sports, health care, and disabilities accommodations. We join Martin, for example, as he and a campus safety officer walk around campus on a busy Saturday night. While *Off to College* deals with more traditional topics such as the financial challenges of college, homesickness, and time management, it also tackles more complex, contemporary issues that college freshman may encounter. There are sections devoted to date rape, drinking, campus shootings, and depression, as well as chapters targeted at athletes, minorities, and first generation students. We can boast in this book not only a most appropriate and uniquely positioned author, but also one full of information and good advice from campus sources. *Off to College* promises to be an encouraging and extremely well-informed guide for any parent sending their child off to a four-year residential college.

*Principles of Modeling* Marten Lohstroh, Patricia Derler, Marjan Sirjani, 2018-07-19 This Festschrift is published in honor of Edward A. Lee, Robert S. The Festschrift contains 29 papers that feature the broad range of Edward A. Lee's research topics; such as embedded systems; real-time computing; computer architecture; modeling and simulation, and systems design.

**Jump-Starting Boys** Pam Withers, 2013-06-17 Everyone knows that boys are falling behind in education. Largely left out of the discussion are parents of boys, who are most aware that their bright, eager sons hit an invisible wall somewhere near fourth grade, after which they become disengaged, discouraged, and disaffected. There are dozens of books on underachieving boys, but most parents brave enough to lift one off the shelf are instantly intimidated by the footnotes, graphs, case studies, and academic-speak addressed almost entirely to educators. What about the average guilt-ridden, frustrated mother or father of an underachieving boy? *Jump-Starting Boys* is the first book on the market that empowers parents, helping them reclaim the duties and rewards of raising their children and navigate the influences of school and media. Filled with reassurance and support, the authors turn fear and guilt into can-do confidence. Through easy tips and action list sidebars, this is the most practical, readable book on the topic.

Legalizing LGBT Families Amanda K. Baumle, D'Lane R. Compton, 2017-11 In-depth interviews examine the role of the law in the lives of LGBT parents. The decision to have a child is seldom a simple one, often fraught with complexities regarding emotional readiness, finances, marital status, and compatibility with life and career goals. Rarely, though, do individuals consider the role of the law in facilitating or inhibiting their ability to have a child or to parent. For LGBT individuals, however, parenting is saturated with legality - including the initial decision of whether to have a child, how to

have a child, whether one's relationship with their child will be recognized, and everyday acts of parenting. Through interviews with 137 LGBT parents, Amanda K. Baumle and D'Lane R. Compton examine the role of the law in the lives of LGBT parents and how individuals use the law when making decisions about family formation or parenting. Baumle and Compton explore the ways in which LGBT parents participate in the process of constructing legality through accepting, modifying, or rejecting legal meanings about their families. They conclude that legality is constructed through a complex interplay of legal context, social networks, individual characteristics, and familial desires. Ultimately, the stories of LGBT parents in this book reflect a rich and varied relationship between the law, the state, and the private family goals of individuals.

**Earth Matters** Karen E. Milbourne, 2013-11-12 Featuring more than 100 extraordinary works of art from 1800 to the present, *Earth Matters* reveals how African individuals and communities have visually mediated their most poignant relationships with the land—whether it be to earth as a sacred or medicinal material, as something uncovered by mining or claimed by burial, as a surface to be interpreted and turned to for inspiration, or as an environment to be protected. Both internationally recognized and emerging contemporary artists are represented, from the continent and diaspora, including El Anatsui, Ghada Amer, Sammy Baloji, Ingrid Mwangi and William Kentridge. Highlights include a pair of rare Yoruba onile figures, a one-of-a-kind Punu reliquary from Gabon, and 3 bocio figures from the personal collection of legendary French dealer Jacques Kerchache. The text includes statements by contemporary African artists including Wangechi Mutu, Clive van den Berg, Allan de Souza, and George Osodi. National Museum of African Art curator Karen E. Milbourne explores how diverse African concepts of healing, the sacred, identity, memory, history, and environmental sustainability have all been formed in relation to the land in this pioneering scholarly study.

*Introductory Statistics* Textbook Equity Edition,2014-02 *Introductory Statistics* is designed for the one-semester, introduction to statistics course and is geared toward students majoring in fields other than math or engineering. This text assumes students have been exposed to intermediate algebra, and it focuses on the applications of statistical knowledge rather than the theory behind it. The foundation of this textbook is Collaborative Statistics, by Barbara Illowsky and Susan Dean. Additional topics, examples, and ample opportunities for practice have been added to each chapter. The development choices for this textbook were made with the guidance of many faculty members who are deeply involved in teaching this course. These choices led to innovations in art, terminology, and practical applications, all with a goal of increasing relevance and accessibility for students. We strove to make the discipline meaningful, so that students can draw from it a working knowledge that will enrich their future studies and help them make sense of the world around them.

**School-based Mental Health** Debra Susan Lean, 2013 School-based Mental Health: A Framework for Intervention provides essential steps for integrating community-based personnel and programs into school systems for the provision of mental health services. Based on the current school mental health research and practice landscape, the framework consists of governance structures, funding methods, accountability procedures, system change protocols, multi-tiered systems of support, training guidelines and the implementation process. Comprehensive checklists, templates and examples are included. The framework builds on the School-based Integrated Support Services Model (SISSM), developed in our preceding book, *Barriers to Learning: The Case for Integrated School Mental Health Services*. A unique component of the framework is the key integration role allocated to school-based district-employed mental health professionals. This innovative framework facilitates the provision of evidence-based mental health interventions that are aligned with school district goals and needs.

**Between Mission and Market** Daniel Rosenberg, 2017-04-26 This book confronts some of the main controversies in higher education, particularly those affecting first-year students: high-stakes testing in general (particularly the SAT), the intensification of student debt and the financial sentence imposed upon all who incur it, and the dramatic pressures placed upon freshmen as they transition to college.

*American Ingrate* Benjamin Weingarten, 2020-03-17 She says that America was “founded by the genocide of indigenous people and on the backs of slaves,” and that “ignorance really is pervasive”

among Americans today. She says America must “dismantle” capitalism and “demilitarize” U.S. foreign policy, which she sees “from the perspective of a foreigner,” tweeting “thousands of Somalis [were] killed by...American forces...#NotTodaySatan.” She says American support for Israel is “all about the Benjamins baby;” and that American Jews disloyally pledge “allegiance” to Israel’s “apartheid...regime,” which has “hypnotized the world.” She says of the 9/11 attacks: “some people did something.” Shockingly, Congresswoman Ilhan Omar’s (D-MN) words merely scratch the surface of her hatred of America—and the West—and divert our gaze from the nefarious actions she is taking to sabotage it from within. *American Ingrate* is the defining book on the size, scope, and nature of the threat posed by Representative Omar—the personification of the anti-American Left-Islamist nexus—heightened by her hidden collusion with like-minded adversaries foreign and domestic, and alleged criminality and corruption. This is a clarion wakeup call to the dangers epitomized by Rep. Omar. For she is not merely a lone radical in Congress, but the archetype of the new Democratic Party—and a uniquely dangerous figure at the heart of a uniquely dangerous challenge to America.
