

Uconn Athletics

David Borges

Shock the World Peter F. Burns, 2012 How Jim Calhoun made the University of Connecticut a basketball powerhouse and became the greatest coach of his generation

Bird at the Buzzer Jeff Goldberg, 2019-05-07 On March 6, 2001, the top two women's college basketball teams in the nation, UConn and Notre Dame, played what was arguably the greatest game in the history of the sport. When UConn's Sue Bird hit a twelve-foot pull-up jumper at the buzzer over national player of the year Ruth Riley in the Big East Tournament championship game, it marked the end of an epic contest that featured five future Olympians and eight first-round WNBA selections. Bird at the Buzzer re-creates this unique season with a detailed account of the games that led up to--and beyond--the tournament final; profiles of the two coaches, UConn's Geno Auriemma and Notre Dame's Muffet McGraw; close-ups of the players who made the year so memorable; and, finally, an in-depth recap of the game worthy of being designated ESPN's first-ever women's basketball Instant Classic. Author Jeff Goldberg shows us the drama on the court and behind the scenes as the big game pitted Riley and the upstarts from Notre Dame against what many believed was the most talented team in UConn history, under Hall of Fame coach Auriemma. A see-saw affair in which neither team led by more than eight points, the 2001 Big East championship game encapsulates the quintessential inside story of the individual talents and skills, team spirit and smarts, and the moment-by-moment realities of college athletics that made this season a snapshot of sports at its finest.

Red Brick in the Land of Steady Habits Bruce M. Stave, Laura Burmeister, 2006 A lively history of the University of Connecticut from its founding to the present day

From Exploitation Back to Empowerment Joseph N. Cooper, 2019 From Exploitation Back to Empowerment: Black Male Holistic (Under)Development Through Sport and (Mis)education addresses three major issues: the under theorization of Black male athletes' socialization processes, deficit-based theories on Black male athletes, and the lack of expansive analyses of Black male athletes from diverse backgrounds.

Rebound! David Borges, 2015-03-03 In September 2012, legendary University of Connecticut men's basketball coach Jim Calhoun—who had won three national championships, the last in 2011—abruptly retired. His handpicked replacement was Kevin Ollie, a former UConn player and longtime NBA journeyman who had returned two years earlier to be Calhoun's assistant. Ollie was widely praised as a basketball savant and respected by virtually everyone who knew him. But he had no head coaching experience—at any level—before taking the UConn job. He was also inheriting a mess. Due to past academic problems, UConn was barred from postseason play in 2013, and largely because of this, several top players left the program, either for the NBA draft or for other schools. On top of that were the uncertainties of a greatly changed conference, as well as difficulties on the recruiting trail. Despite it all, a dedicated core of players stayed and won twenty hard-fought games, even with no tournament chances to hope for. The following season, expectations for the team were modest, and the odds of a championship were slim to none. But with the tournament ban lifted, a talented group of players, led by Shabazz Napier, emerged and went on to upset Michigan State to advance to the Final Four, causing millions of college hoops fans across the country to rip up their carefully constructed brackets. When they beat preseason no. 1 Kentucky, with its Fab 5 NBA-bound starters and celebrity coach John Calipari, to win the 2014 title, theirs became one of the great comeback stories in all of sports, a rags-to-riches triumph for a storied program and its new head coach.

The Cooperstown Symposium on Baseball and American Culture, 2019 and 2021 William M. Simons, 2022-05-03 Selected from the two most recent proceedings of the Cooperstown Symposium on Baseball and American Culture (2019 and 2021), this collection of essays explores subject matter centered both inside and beyond the ballpark. Fifteen contributors offer critical commentary on a range of topics, including controversial decisions on the field and in Hall of Fame elections; baseball's historical role as a rite of passage for boys; two worthy catchers who never received their due; the genesis and development of the minor leagues; and baseball's place in popular culture.

This book explores the complexities of intercollegiate athletics while explaining the organizational structures, key players, terms, and important issues relevant to the growing fields of recreational studies,

sports management, and athletic administration.

Boston Ball Clayton Trutor, 2023 Boston Ball is the story of how three ambitious young college basketball coaches learned their trade in Boston in the late seventies and early eighties in the shadow of the dynastic Celtics, and who in their various careers played a big role in reshaping their sport.

Shock the World Peter F. Burns, 2012-10-09 Before March 2011 only four coaches had ever won the NCAA men's basketball championship three times or more. That month, with the culmination of the famous March Madness, the University of Connecticut's Jim Calhoun became the fifth. In twenty-five years at UConn, coach Jim Calhoun changed a team, a university, a state, and college basketball. Shock the World is a riveting season-by-season, game-by-game, and player-by-player biography of Jim Calhoun's winning program. It paints a vivid portrait of college basketball in the last twenty-five years and highlights the challenges Calhoun overcame to become the best program builder of all time, and the greatest coach of his generation. Calhoun's Huskies show that spirit, fortitude, and perseverance are keys to winning in modern collegiate sports, just as they are the keys to overcoming challenges off the court. At the end of the 2010 season an NCAA investigation, penalties, and few returning players threatened an end to the Calhoun era. Despite these obstacles, Calhoun, point guard Kemba Walker, and a group of freshmen led UConn to a win at the Maui Invitational in November, and UConn became the first team to capture its conference tournament by winning five games in five days. They went on to a thrilling win in the championship, making this period in the Calhoun era one of great resilience and an enduring monument to Husky pride.

Saturday Millionaires Kristi Dosh, 2013-07-31 Last year Football Bowl Subdivision college football programs produced over \$1 billion in net revenue. Record-breaking television contracts were announced. Despite the enormous revenue, college football is in upheaval. Schools are accused of throwing their academic mission aside to fund their football teams. The media and fans are beating the drum for athletes to be paid. And the conferences are being radically revised as schools search for TV money. Saturday Millionaires shows that schools are right to fund their football teams first; that athletes will never be paid like employees; how the media skews the financial facts; and why the TV deals are so important. It follows the money to the heart of college football and shows the real game being played, covering such areas as: Myth #1: All Athletic Departments Are Created Equal Myth #2: Supporting Football Means Degrading Academics Myth #3: College Football Players Could Be Paid Like Employees Myth #4: Football Coaches Are Overpaid Myth #5: A Playoff Will Bring Equality to College Football Myth #6: Only a Handful of Athletic Departments Are Self-Sustaining The business of college football is unlike any other business. Saturday Millionaires takes you behind the scenes and teaches you how to understand the industry from the inside out, touching on such subjects as conference realignment, pay-for-play, conference television networks and where all those millions go at the end of the day.

Writing Program Architecture Bryna Siegel Finer, Jamie White-Farnham, 2017-11-01 Writing Program Architecture offers an unprecedented abundance of information concerning the significant material, logistical, and rhetorical features of writing programs. Presenting the realities of thirty diverse and award-winning programs, contributors to the volume describe reporting lines, funding sources, jurisdictions, curricula, and other critical programmatic matters and provide insight into their program histories, politics, and philosophies. Each chapter opens with a program snapshot that includes summary demographic and historical information and then addresses the profile of the WPA, program conception, population served, funding, assessment, technology, curriculum, and

more. The architecture of the book itself makes comparison across programs and contexts easy, not only among the programs described in each chapter but also between the program in any given chapter and the reader's own program. An online web companion to the book includes access to the primary documents that have been of major importance to the development or sustainability of the program, described in a "Primary Document" section of each chapter. The metaphor of architecture allows us to imagine the constituent parts of a writing program as its foundation, beams, posts, scaffolding—the institutional structures that, alongside its people, anchor a program to the ground and keep it standing. The most extensive resource on program structure available to the field, *Writing Program Architecture* illuminates structural choices made by leaders of exemplary programs around the United States and provides an authoritative source of standard practice that a WPA might use to articulate programmatic choices to higher administration. The Big East Dana O'Neil, 2023-02-28 The definitive, compulsively readable story of the greatest era of the most iconic league in college basketball history—the Big East "This book, full of long-standing rivalries, unmatched moments in the lives of coaches and players, and juicy insider gossip, is, like the game of basketball, a ton of fun."—Philadelphia magazine The names need no introduction: Thompson and Patrick, Boeheim and the Pearl, and of course Gavitt. And the moments are part of college basketball lore: the Sweater Game, Villanova Beats Georgetown, and Six Overtimes. But this is the story of the Big East Conference that you haven't heard before—of how the Northeast, once an afterthought, became the epicenter of college basketball. Before the league's founding, East Coast basketball had crowned just three national champions in forty years, and none since 1954. But in the Big East's first ten years, five of its teams played for a national championship. The league didn't merely inherit good teams; it created them. But how did this unlikely group of schools come to dominate college basketball so quickly and completely? Including interviews with more than sixty of the key figures in the conference's history, *The Big East* charts the league's daring beginnings and its incredible rise. It transports fans inside packed arenas to epic wars fought between transcendent players, and behind locker-room doors where combustible coaches battled even more fiercely for a leg up. Started on a handshake and a prayer, the Big East carved an improbable arc in sports history, an ensemble of Catholic schools banding together to not only improve their own stations but rewrite the geographic boundaries of basketball. As former UConn coach Jim Calhoun eloquently put it, "It was Camelot. Camelot with bad language."

Civil ConFLiCT? Cody T. Havard, Rhema D. Fuller, 2018 The attempt by the football coach of the University of Connecticut Huskies to start a rivalry with the University of Central Florida Knights by creating the Civil ConFLiCT trophy has been met with silence and avoidance by the Knights football coach. This case study asks students to use existing research on the phenomenon of rivalry in sport to determine if the relationship between the University of Connecticut and the University of Central Florida in fact represents a rivalry. With the recent influence of conference realignment on rivalry, it is important that

athletic departments better understand how rivalries are created and grow. This case study also asks students to determine how this relationship can better be promoted to fans, or if the athletics department at the University of Connecticut should focus on other schools in the American Athletic Conference as potential rival teams.

The NCAA and the Exploitation of College Profit-Athletes Richard M.

Southall, Mark S. Nagel, Ellen J. Staurowsky, Richard T. Karcher, Joel G. Maxcy, 2023-05-04

A well-constructed and reasoned debunking of the mythology of amateurism in for-profit NCAA athletics For the last 60-plus-years, as the revenue-generating capacity of Power Five football and men's basketball has dramatically increased, NCAA Division I Power Five football and men's basketball players (college profit-athletes) have been economically exploited, their labor has been severely restricted. To mask this inequity, the NCAA and its members created, disseminated, and embedded a fictitious collegiate model of athletics established and repeatedly modified for the benefit of member schools, designed to ensure profit-athletes were denied employment status and just compensation for their athletic labor. The NCAA and the Exploitation of College Profit-Athletes: An Amateurism That Never Was provides a comprehensive historical, sociological, legal, financial, and managerial argument for the reclassification of profit-athletes as employees. Such a reclassification would permit profit-athletes to gain not only fair financial compensation but also equal access to educational benefits that have been promised but systematically denied. The authors trace how Power Five college sports have morphed into a hyper professionalized and commercialized sport-business enterprise. They provide evidence that at least since 1956 the NCAA's amateurism has been a collusive, exploitative, and racialized pay for play scheme that disproportionately affects Black profit-athletes. The authors cut through the institutional doublespeak of approved benefits, cost-of-attendance stipends, or name, image, likeness (NIL) collectives to lay bare the immorality of Power Five college sports. The NCAA and the Exploitation of College Profit-Athletes makes the case that profit-athletes (and their representatives) must have the right to unionize and freely negotiate a collective bargaining agreement with management (e.g., NCAA, Power Five conferences and athletic departments). In addition, this book offers a forward-thinking structure in which individual labor contracts, or a potential collective bargaining agreement, address profit-athlete compensation and working conditions.
