The United States and China Dong Wang,2013 This text offers the first comprehensive synthesis of the history of U.S.-Chinese relations from initial contact to the present. It is also the only text to examine issues in the relationship from both Chinese and American perspectives.

Conferences and Conventions Judith Mair,2013-12-13 Conferences and conventions are one of the fastest growing areas of the events industry. This is a substantially important sector yet research into many dimensions is in its infancy. This timely book, uniquely presents a 'state of the art' synthesis of the research on both demand and supply sides of the industry as well as insights into how current and future trends are affecting conferences and conventions. This volume provides a critical review of the players involved in conferences and conventions; destination image and impacts; and current and future trends. The players in the industry include attendees/delegates, professional conference organisers, and association meeting planners. On the destination side, conference venues and facilities, along with convention and visitor bureaux are examined, as well as how destination image can be developed and improved. Further, this section considers the economic, social and environmental impacts of conferences and conventions. The final section considers some of the major trends that are likely to impact on the industry, including climate change, new technologies and risk and crisis management. To reflect the sector's international nature case studies and examples from different geographical regions are included throughout. By identifying gaps in our knowledge, and presenting a collection of themes to guide future research, this book not only adds to our current knowledge, but will underpin the advancement of knowledge in the future. This book is essential reading for all those interested in Events.

Israel International Monetary Fund. European Dept.,2015-09-16 This 2015 Article IV Consultation highlights that Israel's economy has been doing well and near-term growth prospects are favorable. Following growth of 2.6 percent in 2014, the economy is expected to expand by about 2.5 percent in 2015 and 3–3.3 percent each year in the medium term. Employment creation has been remarkable—growing by 3.5 percent annually—and unemployment is at multi-decade lows. Inflation has been negative, but this trend reflects temporary external factors, not domestic weakness. Debt has declined to 67 percent of GDP from a peak of 94 percent of GDP in 2003 but is expected to increase for the first time since 2009, following the upward revisions to the deficit targets.

Internationalization, Design and Global Development P.L.Patrick Rau,2011-06-24 This volume constitutes the refereed proceedings of the 4th International Conference on Internationalization, Design and Global Development, IDGD 2011, held in Orlando, FL, USA, in July 2011 in the framework of the 14th International Conference on Human-Computer Interaction, HCII 2011. The 71 revised papers presented were carefully reviewed and selected from numerous submissions. The papers accepted for presentation thoroughly cover the entire field of internationalization, design and global development and address the following major topics: Cultural and cross-cultural design, culture and usability, design, emotion, trust and aesthetics, cultural issues in business and industry, culture, communication and society.

Handbook Event Market China Helmut Schwägermann,Peter Mayer,Yi Ding,2015-12-14 China's event market is full of dynamic and exciting developments, innovation, new players and novel ideas, but at the same time of certain shortcomings. This new and huge market is drawing increasing attention from the event industry worldwide. The aim of this handbook is to analyse the Chinese event market, reflect on emerging trends, scrutinise the key players and identify the implications for the education of future professionals in this industry. This handbook is the first of its kind on the Chinese event market written in English. It is a collection of 27articles written by 39 authors from China, Germany, Malaysia, South Africa, the United Kingdom and the United States. The contributions embrace a mix of theoretical and practical reflections, written by academics/lecturers and practitioners alike. The focus lies on business events, such as trade fairs, conventions and corporate events. Some very specifically describe a certain trend or development; others focus on overall trends. The handbook is divided into four chapters. Following an introductory chapter on the event market, the second chapter focuses on the event market in China from a global perspective. The third chapter reflects on management aspects in China's event industry. The fourth and final chapter addresses the issue of educating professionals for the event industry.

Introduction to Sustainable Transports Bernard Favre,2014-02-19 Transport systems have to meet the mobility needs of people and commodities on all scales, from the local to the global level. Concerns about the energy, fumes and sound emissions produced, and about the safety, service quality, intelligence and lifecycle of the systems, etc. can all be included in a systemic approach. This approach can contribute to the development of sustainable solutions, for individual vehicles as well as for transport systems. Derived from an approach combining the social and physical sciences, these solutions result from the integration of physical objects, services and organizational processes, which involve several actors. Their harmonious organization contributes to the development of more virtuous transport systems for the future of urban and inter-urban mobility.

OECD Environmental Performance Reviews: Austria 2013 OECD,2013-11-06 This report is the third OECD review of Austria's environmental performance. The report evaluates Austria's progress towards sustainable development and green growth, with a focus on chemicals management and climate change adaptation.

Back to the Roots Sara Shostak,2021-05-14 Across the Commonwealth of Massachusetts, urban farmers and gardeners are reclaiming cultural traditions linked to food, farming, and health; challenging systemic racism and injustice in the food system; demanding greater community control of resources in marginalized neighborhoods; and moving towards their visions of more equitable urban futures. As part of this urgent work, urban farmers and gardeners encounter and reckon with both the cultural meanings and material legacies of the past. Drawing on their narratives, Back to the Roots demonstrates that urban agriculture is a critical domain for explorations of, and challenges to, the long standing inequalities that shape both the materiality of cities and the bodies of their inhabitants.

Events Management Razaq Raj,Paul Walters,Tahir Rashid,2017-09-25 Events Management provides an introductory overview of the fundamentals in managing events from conception to delivery, highlighting both the theoretical and operational aspects, to prepare students for a career in events management and hospitality. Now in its Third Edition, the authors have included new chapters on Crowd Control and Crowd Dynamic; Expos, Conferences and

Conventions; Brand Co-creation and Social Media, and have added new content on contemporary trends like the environmental and social impact of large scale events such as the Olympics. International case studies covering all manner of events are used throughout and include: · The impact of the London 2012 and Rio 2016 Olympic Games · Van Gogh Augmented Reality in Nuenen · Sands EXPO and Convention Center, Las Vegas · Glastonbury Music Festival · Lane Horse Night Club, Russia · The Leeds Caribbean Festival Suitable for Events Management students at Undergraduate and Postgraduate level.

Government Finance Statistics Yearbook, 2012 International Monetary Fund. Statistics Dept.,2013-03-19 The demand for high quality detailed public finance statistics covering a globally representative sample of countries has increased dramatically during the recent financial crisis. Due to the complexity of public finance statistics, however, such data tend to be either available in oversimplified high level aggregates and lacking in methodological transparency, or, available with a great level of detail and a unified methodological approach yet overly complicated to understand. The IMF's Government Finance Statistics Yearbook shows fiscal data of around 140 countries following the Government Finance Statistics Manual 2001 framework. The associated database includes data series covering over an almost 40 year period. The IMF's Statistics Department embarked on several initiatives to improve its accessibility.

Adaptive Hybrid Active Power Filters Lei Wang,Man-Chung Wong,Chi-Seng Lam,2018-08-01 This book introduces advanced thyristor-based shunt hybrid active power filters (HAPFs) for power quality improvement in power grids, which are characterized by a low dc-link operating voltage and a wide compensation range. This means they can overcome the high dc-link voltage requirement of conventional active power filters and the narrow compensation range problem of LC-coupling hybrid active power filters. Consisting of 10 chapters, the book discusses the principle, design, control and hardware implementation of thyristor-based hybrid active power filters. It covers 1) V-I characteristics, cost analysis, power loss and reliability studies of different power filters; 2) mitigation of the harmonic injection technique for thyristor-controlled parts; 3) nonlinear pulse width modulation (PWM) control; 4) parameter design methods; 5) minimum inverter capacity design; 6) adaptive dc-link voltage control; 7) unbalanced control strategy; 8) selective compensation techniques; and 9) the hardware prototype design of thyristor-based HAPFs, verified by simulation and experimental results. It enables readers to gain an understanding of the basic power electronics techniques applied in power systems as well as the advanced techniques for controlling, implementing and designing advanced thyristor-based HAPFs.

Polymer Reaction Engineering of Dispersed Systems Werner Pauer,2018-11-19 The series Advances in Polymer Science presents critical reviews of the present and future trends in polymer and biopolymer science. It covers all areas of research in polymer and biopolymer science including chemistry, physical chemistry, physics, material science.The thematic volumes are addressed to scientists, whether at universities or in industry, who wish to keep abreast of the important advances in the covered topics.Advances in Polymer Science enjoys a longstanding tradition and good reputation in its community. Each volume is dedicated to a current topic, and each review critically surveys one aspect of that topic, to place it within the context of the volume. The volumes typically summarize the significant developments of the last 5 to 10 years and discuss them critically, presenting selected examples, explaining and illustrating the important principles, and bringing together many important references of primary literature. On that basis, future research directions in the area can be discussed. Advances in Polymer Science volumes thus are important references for every polymer scientist, as well as for other scientists interested in polymer science - as an introduction to a neighboring field, or as a compilation of detailed information for the specialist.Review articles for the individual volumes are invited by the volume editors. Single contributions can be specially commissioned.Readership: Polymer scientists, or scientists in related fields interested in polymer and biopolymer science, at universities or in industry, graduate students.

Konfigurationen von Messelogistikdienstleistern Vera Bannas,2019-02-19 Die Messelogistik findet in der Messebranche trotz des grundsätzlich bekannten Kostensenkungs- und Effizienzsteigerungspotenzials bisher wenig Beachtung. Dieses ungenutzte Potenzial bildet den Ausgangspunkt der vorliegenden Arbeit. Da die Koordination der internationalen Logistikketten in der Regel spezialisierten Messelogistikdienstleistern übertragen wird, stehen diese Unternehmen im Fokus der Betrachtung. Zur Untersuchung des Marktes der Messelogistikdienstleister wird der Konfigurationsansatz herangezogen, welcher basierend auf einer multidimensionalen Analyse die Ableitung unterschiedlicher Typen, sogenannter Konfigurationen, erlaubt. Vera Kimmeskamp analysiert auf der Grundlage einer weltweiten quantitativen Befragung von Messelogistikdienstleistern die interne und externe Situation sowie die Strategien der Unternehmen und entwickelt fünf Konfigurationen von Messelogistikdienstleistern. Diese dienen im Anschluss der Ableitung konkreter Managementimplikationen für die relevanten Akteure der Messebranche. Das Buch richtet sich an Praktiker der Messe- und Logistikbranche sowie an Dozenten und Studierende der Wirtschaftswissenschaften, insbesondere mit den Schwerpunkten Unternehmensführung, Logistik und Messewirtschaft.
