**White Coat, Black Hat** Carl Elliott, 2011-09-13 By New Yorker and Atlantic writer Carl Elliott, a readable and even funny account of the serious business of medicine. A tongue-in-cheek account of the changes that have transformed medicine into big business. Physician and medical ethicist Carl Elliott tracks the new world of commercialized medicine from start to finish, introducing the professional guinea pigs, ghostwriters, thought leaders, drug reps, public relations pros, and even medical ethicists who use medicine for (sometimes huge) financial gain. Along the way, he uncovers the cost to patients lost in a health-care universe centered around consumerism.

*Psychoanalytic Energy Psychotherapy* Phil Mollon, 2018-03-26 People like to talk. We know that talking to an attentive and thoughtful listener can be helpful in clarifying conscious and unconscious feelings, thoughts, and motivations. But is talk enough? The complex physiology of anxiety and traumatic stress reactions is often stubbornly persistent, despite therapeutic exploration in both conscious and unconscious areas of the mind. In the case of severe trauma, talking can stir up the emotions and associated bodily disturbance without providing any resolution - sometimes leaving clients feeling worse. The developing field of energy psychology offers an entirely new perspective and gamut of techniques for locating where these traumatic patterns are encoded. They are not in the mind - but in the energy system at the interface of psyche and soma. By addressing these realms concurrently, a powerful therapeutic synergy emerges that allows rapid and deep shifts in the patterns of distress that drive the psychosomatic system.
