Sports Afield's Deer Hunter's Almanac Sid Evans, Sports Afield, 1996 From the Introduction: There is not a successful deer hunter in the world who has not come up with his own peculiar methods -- some of them secret, some not -- for

beating the long odds of killing a deer. The Ojibwa Indians of the Great Lakes figured out they could attract deer by smoking wild aster in a pipe, the smell of which was like the scent of a deer's hooves. Other tribes -- such as the Choctaws and Cherokees in the Southeast -- would carry skinned-out deer heads on their belts, which they could wear over their heads whenever they needed to make a stalk (this is no longer an advisable, or legal, technique). They used decoys and calls, and they knew that banging a pair of antlers together could summon a buck during the rut. In this book we have tried to compile some of the best information and most interesting pieces written about deer in Sports Afield since the magazine was founded in 1887. There were not as many deer to hunt back then, but over the last quarter century deer populations have boomed in nearly every state but Alaska and Hawaii, and so have the articles written about them. Many of these pieces originally appeared in the Sports Afield Almanac, which was introduced by Editor Ted Kesting in 1972; others appeared as departments or short features. All told, more than 250 deer hunters contributed, making this, we hope, a very unique look at what is now America's favorite game animal. Some of the contributors-like Dwight Schuh and Peter Fiduccia, Tom McIntyre and Ted Kerasote-are what we would call pros. They have hunted, studied and written about deer all their lives. Others are just guys who wanted to share a couple of their best deer-hunting secrets. Do not be surprised if you turn up some contradictory views. There's more than one way to shoot, skin, and cook a deer; but it may be that the best way of all is the one you have to figure out on your own. This is the finest book on whitetail hunting that I have seen. -- Larry Myhre, Sioux City Journal

The American Deer Hunter Francis E. Sell, 2018-03-28 The American Deer Hunter is the result of a great amount of experience in hunting with an extraordinary degree of success. The content represents the determination to set down the hard facts and the effective equipment and means for stalking and shooting the white-tail and his cousins. The book is highly original in its presentation. It is in no sense a rehash of previous discussions or formulae. The author deals at all times with actual problems of locating, maneuvering, and shooting and with the guns employed. The discussions are based on circumstances of reality in the relationships of deer, environment, hunter and gun, not on preconceived or synthetic situations. Here are interesting and important data on deer habits and on speeds and gaits. Here

also is an extensive treatment of selection and care of weapons for deer hunting; the killing and dressing of game; and even on clothing for the deer hunter. All told, it has a wealth of material useful to both the veteran hunter and the novice.
