New Realities in the Management of Student Affairs Ashley Tull,Linda Kuk,2023-07-03 Student affairs organizations are at a crossroads. They face expanding enrollments; a concomitant increase need for often more complex services; changing demographics; a growing cohort of non-traditional and first-generation students; shifting and more demanding responsibilities; and increased expectations from the greater campus community, parents, and external constituents. These challenges are intensified by the accelerating speed of advancements in technology, globalization, innovation, and student consumerism; and by the long-term reality of shrinking resources, and limitations on the ability to increase tuition and fees. This book shares alternative ideas about organizational design, and about ways to restructure roles and responsibilities to enable student affairs organizations to respond to these challenges and demands more effectively at a time of reduced resources. It also addresses the many emerging roles that student affairs organizations are increasingly being expected to address – such as IT, fund raising and development, external communications, human resources management and professional development, as well as research and assessment – and describes approaches developed by a variety of institutions. The contributors also pay attention to the solutions appropriate for smaller institutions, and for community colleges. They explore the various dimensions of change and offer frameworks to help student affairs leaders and practitioners to more effectively understand and manage the changes they are confronting; and describe ideas and solutions adopted by others within the profession.

The Professional Student Affairs Administrator Roger B. Winston, Don G. Creamer, Theodore K. Miller, 2013-08-21 Styled as a complete update to the 1991 book *Administration and Leadership in Student Affairs*, this work addresses issues of importance to student affairs professionals. Grounded in human development, learning, leadership, group dynamics, management theories, and social science research and evaluation methods, this book articulates the means for college student affairs administrators to function in the forefront of student learning and personal development initiatives. The book focuses on the three essential roles played by student affairs administrators: as educators who play a significant role in addressing the academic goals of their institutions, as leaders who help to shape the vision of their institution's student affairs practice and education mission, and as managers who are responsible for co-ordinating programs and services, supervising staff, and overseeing university facilities and budgets.

Critical Issues for Student Affairs Arthur Sandeen, Margaret J. Barr, 2014-03-14 Student affairs is now part of the management and administrative structure of almost every college and university in the United States. Professional staff working under the banner of student affairs are engaged in a wide variety of educational, support, and service functions. Measured by almost any standard, today's student affairs profession has never been stronger. There are still, however, a number of critical issues that must be debated and discussed if the student affairs profession is to move forward in the years ahead. *Critical Issues for Student Affairs* identifies the most vital issues currently confronting the student affairs profession. Each chapter in this important volume focuses on a specific issue and presents a background, a summary of related research and writing, an examination of the issue, related references, and a list of suggestions for further discussion.

What the Eyes Don't See Mona Hanna-Attisha, 2018-06-19 A NEW YORK TIMES NOTABLE BOOK • The dramatic story of the Flint water crisis, by a relentless physician who stood up to power. "Stirring . . . [a] blueprint for all those who believe . . . that 'the world . . . should be full of people raising their voices.'"—The New York Times "Revealing, with the gripping intrigue of a Grisham thriller." —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don't See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family's activist roots inspired her pursuit of justice. *What the Eyes Don't See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for *What the Eyes Don't See* "It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero."—Erin Brockovich "A clarion call to live a life of purpose."—The Washington Post "Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page."—The New York Times Book Review "Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . 'Flint will not be defined by this crisis,' vows Ms. Hanna-Attisha."—The Economist "Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case."—Rachel Maddow

Supporting Graduate and Professional Students: The Role of Student Affairs Melanie J. Guentzel, Becki Elkins Nesheim, 2006-10-13 This volume identifies the needs of graduate and professional students (a demographic historically underrepresented by student affairs professionals) and advises how student services professionals help these students address their needs. Traditionally, the psychological aspects of the graduate and professional student experience have fell on academic departments or the graduate college. An increasing number of student services professionals, however, are now including the graduate and professional student under their umbrella of service. This volume is a response to the demand from these professionals for more research based information and advice addressing the needs of these graduate and professional students. This is the 115th volume of *New Directions for Student Services*, a quarterly journal published by Jossey-Bass. Click here to view the entire list of *New Directions Student Services* titles.

When Diversity Drops Julie J. Park, 2013-07-16 Julie J. Park examines how losing racial diversity in a university affects the everyday lives of its students. She uses a student organization, the InterVarsity Christian Fellowship (IVCF) at "California University," as a case study to show how reductions in racial diversity impact the ability of students to sustain multiethnic communities. The story documents IVCF's evolution from a predominantly white group that rarely addressed race to the most racially diverse campus fellowship at the university. However, its ability to maintain its multiethnic membership was severely hampered by the drop in black enrollment at California University following the passage of Proposition 209, a statewide affirmative action ban. Park demonstrates how the friendships that students have—or do not have—across racial lines are not just a matter of personal preference or choice; they take place in the contexts that are inevitably shaped by the demographic conditions of the university. She contends that a strong organizational commitment to diversity, while essential, cannot sustain racially diverse student subcultures. Her work makes a critical contribution to our understanding of race and inequality in collegiate life and is a valuable resource for educators and researchers interested in the influence of racial politics on students' lives.

Job One Peter Mark Magolda, Jill Ellen Carnaghi, 2004 Places new professionals' stories center stage. The book focuses on nine narratives written by new professionals about their introduction and transitions into student affairs work. These stories document their joys and angst felt as they prepare to move from graduate school to work, search for their first student affairs position, assimilate campus norms, formulate a professional identity, satisfy supervisors' expectations, mediate cultural conflicts, and remain true to their personal and professional values. ... Also includes four chapters co-written by senior student affairs professionals and preparation program faculty who synthesize, integrate, and theoretically interpret the new professionals' narratives. Recommendations included in the final chapter focus on reconceptualizing graduate preparation program curricula and professional development opportunities.--Page 4 of cover.

The Role & Contribution of Student Affairs in Involving Colleges National Association of Student Personnel Administrators (U.S.), 1991 This book describes how student affairs organizations, programs, services, and personnel assist an institution in attaining its educational purposes by promoting student involvement in out-of-class learning opportunities. *Student Involvement: The Key to Promoting Student Learning and Growth* (John Schuh) discusses the challenges facing higher education institutions and highlights the role of student affairs. *Characteristics of Involving Colleges* (George Kuh) summarizes the five clusters of factors and conditions common to involving colleges. Seven chapters present case analyses of seven involving colleges: (1) *Making a Large University Feel Small: The Iowa State University Story* (John Schuh, with commentary by Arthur Sandeen); (2) *Caretakers of the Collegiate Culture: Student Affairs at Stanford University* (George Kuh, with commentary by William Gurowitz); (3) *Emergence of a Metroversity: The University of Louisville Case* (Carney Strange, with commentary by Carmen Witt); (4) *Where Achievement is the Rule: The Case of*

Xavier University of Louisiana (Rosalind Andreas, with commentary by Rodger Summers); (5) A Community of Women Empowering Women: Mount Holyoke College (Elizabeth Whitt, with commentary by Daryl Smith); (6) Checking of the Truth: The Case of Earlham College (Lee Krehbiel and Carney Strange, with commentary by Frances Lucas-Tauchar); and (7) An Eclipse of the Usual: The Evergreen State College (James Lyons, with commentary by David Dodson).
