A-10s Over Kosovo Phil M. Haun,Christopher E. Haave,Air University Press,2011 First published in 2003. The NATO-led Operation Allied Force was fought in 1999 to stop Serb atrocities against ethnic Albanians in Kosovo. This war, as noted by the distinguished military historian John Keegan, marked a real turning point . . . and proved that a war can be won by airpower alone. Colonels Haave and Haun have organized firsthand accounts of some of the people who provided that airpower--the members of the 40th Expeditionary Operations Group. Their descriptions--a new wingman's first combat sortie, a support officer's view of a fighter squadron relocation during combat, and a Sandy's leadership in finding and rescuing a downed F-117 pilot--provide the reader with a legitimate insight into an air war at the tactical level and the airpower that helped convince the Serbian president, Slobodan Milosevic, to capitulate.

Dragonworld Byron Preiss,2009-02-02 “Dragonworld goes far beyond the flashy pyrotechnics of contemporary fantasy and fantasy illustration. Joe Zucker is a superlative and original illustrator, and he reveals a rare and astonishing gift for infusing a richness of character into his pictures, which do justice to Byron Preiss's and Michael Reaves's compelling story.” —Maurice Sendak “Until now, there have been only two real grandmasters of modern epic fantasy—J.R.R. Tolkien and Ann McCaffrey. With the team of Preiss and Reaves, there are three, and may they write and write and write.” —United Press International Somewhere beyond the northern mists lies a land where dreams live and dragons are real. This is the tale of the twilight of the dragons, of two nations plunged into war by a tragic misunderstanding, of a shy dreamer's incredible voyage of peace to a long-forgotten land where nightmares are born. A magnificent creation, a sweeping epic of high fantasy set in a richly imagined world, vividly brought to life with over eighty pages of stunning illustrations by Joseph Zucker.

Going Native Stephen Wright,2020-01-07 A dutiful husband and father walks out of his life and into a road trip from hell in a novel Toni Morrison calls astonishing and Don DeLillo proclaims a slasher classic . . . strange, dark, and funny. Wylie Jones has a happy marriage, beautiful children, and backyard barbecues in his tastefully decorated suburban house. One night he follows a sudden impulse, leaves his wife in bed, and commandeers his neighbor's emerald-green Ford Galaxy 500, driving away without a second look. He sheds all traces of his old life in favor of a new name and a new life and drives from town to town, following his deepest impulses where they lead. By turns scathing and hilarious, Stephen Wright's outrageous rollercoaster of sex and violence probes the nihilistic and savage core of the American identity.

DOOM Dan Pinchbeck,2013-06-18 In December 1993, gaming changed forever. id Software's seminal shooter DOOM was released, and it shook the foundations of the medium. Daniel Pinchbeck brings together the complete story of DOOM for the first time. This book takes a look at the early days of first-person gaming and the video game studio system. It discusses the prototypes and the groundbreaking technology that drove the game forward and offers a detailed analysis of gameplay and level design. Pinchbeck also examines DOOM's contributions to wider gaming culture, such as online multiplayer and the modding community, and the first-person gaming genre, focusing on DOOM's status as a foundational title and the development of the genre since 1993. Pinchbeck draws extensively from primary data: from the game itself, from the massive fan culture surrounding the title, and from interviews with the developers who made it. This book is not only the definitive work on DOOM but a snapshot of a period of gaming history, a manifesto for a development ethos, and a celebration of game culture at its best.

The Night Watch Sarah Waters,2016-07-28 I thought everything would change, after the war. And now, no one even mentions it. It is as if we all got together in private and said whatever you do don't mention that, like it never happened. It's the late 1940s. Calm has returned to London and five people are recovering from the chaos of war. In scenes set in a quiet dating agency, a bombed-out church and a prison cell, the stories of these five lives begin to intertwine and we uncover the desire and regret that has bound them together. Sarah Waters's story of illicit love and everyday heroism takes us from a dazed and shattered post-war Britain back into the heart of the Blitz, towards the secrets that are hidden there. Olivier-nominated playwright Hattie Naylor has

created a thrilling and theatrically inventive adaptation of a great modern novel. The stage adaptation of *The Night Watch* was premiered at the Royal Exchange Theatre, Manchester, on 16 May 2016.

Serious Educational Game Assessment: Practical Methods and Models for Educational Games, Simulations and Virtual Worlds L.A. Annetta,Stephen Bronack,2011-07-22 In an increasingly scientific and technological world the need for a knowledgeable citizenry, individuals who understand the fundamentals of technological ideas and think critically about these issues, has never been greater. There is growing appreciation across the broader education community that educational three dimensional virtual learning environments are part of the daily lives of citizens, not only regularly occurring in schools and in after-school programs, but also in informal settings like museums, science centers, zoos and aquariums, at home with family, in the workplace, during leisure time when children and adults participate in community-based activities. This blurring of the boundaries of where, when, why, how and with whom people learn, along with better understandings of learning as a personally constructed, life-long process of making meaning and shaping identity, has initiated a growing awareness in the field that the questions and frameworks guiding assessing these environments should be reconsidered in light of these new realities. The audience for this book will be researchers working in the Serious Games arena along with distance education instructors and administrators and students on the cutting edge of assessment in computer generated environments.
