Principles of European Family Law Regarding Divorce and Maintenance Between Former Spouses

Katharina Boele-Woelki, 2004 A book series dedicated to the harmonisation and unification of family and succession law in Europe. The European Family Law series includes comparative legal studies and materials as well as studies on the effects of international and European Law making within the national legal systems in Europe. The books are published in English, French or German under the auspices of the Organising Committee of the Commission on European Family Law (CEFL). Three years after its establishment the CEFL presents its first Principles of European Family Law in the field of divorce and maintenance between former spouses. The Principles aim to bestow the most suitable means for the harmonisation of family laws in Europe. In this respect they may serve as a frame of reference for national, European and international legislatures alike. The Principles could considerably facilitate their task not only by virtue of the fact that the CEFL's in-depth and comprehensive comparative research is easily accessible but also because most of the rules have been drafted in a way which Legislatures normally consider to be appropriate. Harbinger of Doom Glenn G. Thater, 2020-11-23 The epic Harbinger of Doom saga continues in this special Omnibus edition, which contains Volume 4, Dwellers of the Deep, Volume 5, Blood, Fire, and Thorn, and Volume 6, Gods of the Sword. Dwellers of the Deep embraces the pulse-pounding action that the Harbinger of Doom Saga is known for, with battles so real, so immersive, you will find yourself reaching for your sword. Expansive in scope, Dwellers drops the reader into the Byzantine web of political intrigue that swirls about the Kingdom of Lomion. In Glenn G. Thater's world of Midgaard, some kill for love or honor; others die for blood and souls. In Dwellers of the Deep, the fourth volume of the saga unfolds across a vast ocean of bleak expanses and forbidden islands that harbor secrets best unspoken, ancient magics best left buried, voracious monsters of the gelid depths, and a god of the outer spheres whose wrath will

shake the very foundations of Midgaard. Within these pages, heroes and villains abound. But are the heroes those that quest with Theta to keep shuttered the portal betwixt the worlds, or those that sail with Korrgonn for god and glory, to restore Azathoth's reign? Only you can decide. But in the end, Ob will tell you, evil is as evil does, and in Midgaard, only one thing is certain: nothing is as it seems.

A Digitalization Framework for Smart Maintenance of Historic Buildings Zhongjun Ni, 2023-08-31

Smart maintenance of historic buildings involves integration of digital technologies and data analysis methods to help maintain functionalities of these buildings and preserve their heritage values. However, the maintenance of historic buildings is a long-term process. During the process, the digital transformation requires overcoming various challenges, such as stable and scalable storage and computing resources, a consistent format for organizing and representing building data, and a flexible design to integrate data analytics to deliver applications. This licentiate thesis aims to address these challenges by proposing a digitalization framework that integrates Internet of Things (IoT), cloud computing, ontology, and machine learning. IoT devices enable data collection from historic buildings to reveal their latest status. Using a public cloud platform brings stable and scalable resources for storing data, performing analytics, and deploying applications. Ontologies provide a clear and concise way to organize and represent building data, which makes it easier to understand the relationships between different building components and systems. Combined with IoT devices and ontologies, parametric digital twins can be created to evolve with their physical counterparts. Furthermore, with machine learning, digital twins can identify patterns from data and provide decision-makers with insights to achieve smart maintenance. Papers I-III have shown that data can be reliably collected, transmitted, and stored in the cloud. Results of Paper IV indicate that a digital twin that depicts the latest status of a historic building can be created and fed with real-time sensor data. The insights discovered from the digital twin provide facts for improving the indoor climate to achieve both heritage conservation and human comfort. Papers V and VI have shown that deep learning methods exhibit strong capabilities in capturing tendency and uncertainty in building energy consumption. Incorporating future information that determines energy consumption is critical for making multi-horizon predictions. Moreover, changes in the operating mode of a building and activities held in a building bring more uncertainty in energy consumption and deteriorate the performance of point forecasts. Overall, this thesis contributes to the field of preservation of historic buildings by proposing a comprehensive digitalization framework that integrates various advanced digital technologies to provide a holistic approach to achieve smart maintenance of historic buildings.

The Rainmaker John Grisham, 2010-03-16 #1 NEW YORK TIMES BEST SELLER • Grisham returns to the courtroom and weaves a riveting tale of legal intrigue and corporate greed. It's summer in Memphis. The sweat is sticking to Rudy Baylor's shirt and creditors are nipping at his heels. Once he had aspirations of breezing through law school and punching his ticket to the good life. Now he doesn't have a job or a prayer ... except for one: an insurance dispute that leaves a family devastated and opens the door for a lawsuit, if Rudy can find a way to file it. By the time Rudy gets to court, a heavyweight corporate defense team is there to meet him. And suddenly he's in over his head, plunged into a nightmare of lies and legal maneuverings. A case that started small is exploding into a thunderous million-dollar war of nerves, skill and outright violence--a fight that could cost one young lawyer his life, or turn him into the biggest
