Underwater Acoustic Sensor Networks Yang Xiao,2010-05-19 A detailed review of underwater channel characteristics, Underwater Acoustic Sensor Networks investigates the fundamental aspects of underwater communication. Prominent researchers from around the world consider contemporary challenges in the development of underwater acoustic sensor networks (UW-ASNs) and introduce a cross-layer approach for effective integration of all communication functionalities. Discussing architectures for two- and three-dimensional sensor networks, this authoritative resource clearly delineates the main differences between terrestrial and underwater sensor networks—covering the wide range of topics related to UW-ASNs. It examines efficient distributed routing algorithms for delay-insensitive and delay-sensitive applications and introduces a realistic acoustic model characterized by channel utilization efficiency that enables proper setting of the optimal packet size for underwater communication. It also: Provides efficient sensor communication protocols for the underwater environment Addresses the topology control problem for sparse and dense 3D networks Presents a novel distributed MAC protocol that incorporates a unique closed-loop distributed algorithm for setting the optimal transmit power and code length The book includes coverage of routing, fault tolerance, time synchronization, optimal clustering, medium access control, software, hardware, and channel modeling. Exploring the need to design an energy-efficient cross-layer protocol suite, this resource provides the understanding required to achieve high-performance channel access, routing, event transport reliability, and data flow control with underwater acoustic sensors.

Comparative Cognition James R. Anderson,Hika Kuroshima,2021-08-27 This book presents an overview of selected topics in comparative cognition, which is the study of behaviour and mental activities in nonhuman animals. Human psychological capacities are often used as a heuristic by comparative cognitive scientists, whose tasks include designing valid procedures for studying species’ sensory, linguistic or manipulatory abilities that differ from those of humans. Nonetheless, researchers have developed many original ways to gain insights into how other species perceive the world, store and integrate information, and communicate. The contributors to this book have all been involved in such work, and will present some of the approaches that have led to clear advances in our understanding of cognitive processes in other species. The chapters integrate a review of past literature with recent work, covering a variety of subject species including birds, domestic dogs and cats, and nonhuman primates. All contributors have worked with or been otherwise influenced by Professor Kazuo Fujita, to whom the volume will be dedicated. Fujita’s openness to research on various topics and species is reflected in the diversity of the chapters presented.The book will be of interest to students and more experienced researchers in diverse fields including psychology, anthropology, biology and veterinary studies.

My Friend, the Messiah Ray Green,2003 I met John on a deserted beach. He was confused, disoriented, dirty, and had lost his memory. When we made eye contact, the skin on my arms and chest froze and a lump of fear suddenly developed in my throat. Our fingers touched and I experienced a sudden wave of peace, like a golden sunset.My wife and I agreed to help John and escort him to New York where he knew he must address the United Nations Security Council.In New York, John performs 'miracles' in Central Park, conducts an impromptu sermon to 5,000 people, resurrects a fatally injured girl and convinces the UN delegates to act.My intrigue is the constant uncertainty of John's origins and his true nature. Is he a messiah, an alien or a unique man with incredible powers?We travelled with him to Jerusalem, Rome and Switzerland, where five million people gather to hear John speak.I finally understood who he was and why he came....He was...My Friend, The Messiah....all he said was, ...let there be light...
