[Delivering Value with BIM](#) Adriana X. Sanchez,Keith D. Hampson,Simon Vaux,2016-03-31 Building Information Modelling (BIM) is a global phenomenon which is gaining significant momentum across the world. Currently there is little information on how to realise and monitor benefits from implementing BIM across the life-cycle of a built environment asset. This book provides a practical and strategic framework to realise value from implementing BIM by adapting Benefit Realisation Management theory. It presents an approach for practitioners aiming to implement BIM across the life-cycle of built environment assets, including both buildings and infrastructure. Additionally, the book features: wide-ranging information about BIM, the challenges of monitoring progress towards benefit goals and the greater context of implementation; a set of dictionaries that illustrate: how benefits can be achieved, what the benefit flows are and the enabling tools and processes that contribute to achieving and maximising them; a suite of measures that can serve to monitor progress with examples of how they have been used to measure benefits from BIM; real-world examples from across the world and life-cycle phases that show how these benefits can be achieved; and information on international maturity and competency measures to complement the value realisation framework. Including a blend of academic and industry input, this book has been developed in close collaborative consultation with industry, government and international research organisations and could be used for industry courses on BIM benefits and implementation for asset management or by universities that teach BIM-related courses.

[Innovation Development for Highly Energy-Efficient Housing](#) E. Mlecnik,IOS Press,2013-03-20 In previous years we have seen a recognition of the significant potential that exists for reducing energy use through innovation in residential buildings. This study investigates innovation challenges and identifies opportunities that could lead to a rapid increase in the adoption of highly energy-efficient housing concepts, particularly that of the passive house. To this end, it exemplifies, interprets and develops the innovation adoption theory through an investigation of views and experiences on the supply side, the demand side and the policy side. It highlights successful innovation trajectories and barriers experienced by businesses. It addresses both problems and positive experiences from the perspective of the end user and investigates different policy approaches. As such, the research reveals important features of innovation-adoption strategies in the building sector. It shows how multi-player enterprise collaboration plays a key role, and the study also recommends the development of quality assurance schemes. It makes a valuable contribution to discussions about how active the role of government policymakers and enterprise networks should be.

Zorgdomotica Joost van Hoof, E.J.M. Wouters, 2012-04-10 Mensen worden steeds ouder en blijven in absolute zin langer gezond. Ook ouderen willen graag baas zijn over hun leven en daar hoort ook bij het kunnen blijven wonen in het huis waar ze vaak al jaren wonen en zich thuis voelen. Tegelijkertijd hebben ouderen op latere leeftijd meer hulp nodig bij de dagelijkse activiteiten en krijgen vaak ook diverse grotere en kleinere beperkingen ten aanzien van hun gezondheid te verduren. Het aantal jongere mensen dat hulp kan verlenen neemt juist af. De tijd is dan ook rijp voor slimme technologie, waar zorgdomotica er een van is. Wat wordt eigenlijk bedoeld met zorgdomotica? Wat kan men ermee en wat niet? Wie heeft er iets aan en hoe verandert het werk van de installateur en de zorgverlener erdoor? Hoe kan bevorderd worden dat de toepassing ervan succesvol verloopt? Welke ervaringen zijn er al mee? Op deze en andere vragen wordt in dit boek antwoord gegeven. Zorgdomotica is geschreven voor iedereen die te maken heeft of krijgt met zorgdomotica: zowel de mensen die nu en in de toekomst als zorgverlener werken, als zij die zich juist met de ontwikkeling en installatie van technologie (gaan) bezighouden. Want een ding is zeker: de demografische en sociaal-economische veranderingen vragen om slimme en innovatieve oplossingen, en dat betekent tevens slim samenwerken tussen de verschillende disciplines. Op die manier wordt zorgdomotica een succes en is het mogelijk een kwalitatief goede of zelfs betere zorg te bereiken.

The Work of Cepezed Architectenbureau Cepezed, 2007 In the past few decades, cepezed has gained renown with transparent, sustainable and technologically progressive architecture that is remarkably usable and humane. Unaffected design, sober but stylish materialization, and careful finishing are just as characteristic of Cepezed's oeuvre as the integration of spatial and construction-technical aspects. The design and building processes at cepezed are also integrated: the use of prefab components and the application of industrial building methods guarantee an optimum alignment of design and realization, in which time, quality, and costs are meticulously planned and controlled. Prototypes documents a large number of key projects and deals extensively with the various aspects of product development, building process and architecture. The layout and form of the book make it very similar to a cepezed design: clear, logical and efficient. It offers very incisive insight into the office philosophy that cepezed has drawn straight through architectural history. In addition to the timeless aesthetic pleasure that can be experienced in the designs and the craftsmanship displayed at detail level, the much-discussed role of the architect in the design process today is examined in the book. A must read for every architect who wrestles with the threatened depreciation of the discipline.

Le BIM entre recherche et industrialisation Charles-Edouard Tolmer, Régine Teulier, 2019-07-18 Édition bilangue français/anglais Le BIM est actuellement testé dans de multiples démarches d'entreprises de la construction. Ce qui relevait jusqu'ici du questionnement et des expérimentations est désormais à maturité, les entreprises ayant dépassé le stade de l'exploration pour mettre en œuvre des solutions. On trouvera ici un choix représentatif de travaux portant sur les infrastructures comme sur le bâtiment; qu'il s'agisse de recherche ou bien de réalisations exécutées dans la filière construction, ils ont été conduits en France par des spécialistes du BIM. Des spécialistes de la donnée font le point sur les données liées; des ingénieurs et des juristes d'entreprise formulent les nouvelles conditions d'application du droit de la propriété privée sur la propriété de la donnée ;

des architectes s'intéressent à l'évolution des métiers et aux nouvelles méthodes de coordination dans le projet de construction dont l'issue devient un produit numérique qui s'ajoute à l'objet physique livré au client. Enfin, le point de vue de l'évolution systémique des méthodes est exploré par un ingénieriste.

Het Fenomeen Stad Willem Verbaan,2012-04-10 In zijn Lectorale Rede gaat Willem Verbaan in op de veranderingen die de stad doormaakt, nu en in de toekomst. Door het globaliseringsproces is de competitie tussen steden op dit moment enorm. Het aantrekken en ontwikkelen van talent is hierdoor cruciaal. Klimaatveranderingen beïnvloeden de leefbaarheid van de stad en de vitaliteit van haar inwoners. Duurzaamheidsdenken en waardencreaties zijn daarom nieuwe koersen waarvoor ideeën en concepten ontwikkeld moeten worden. Er zal een verschuiving plaatsvinden van bouw naar beheer om de leefomgeving te verbeteren, met waardestijging als resultaat. Governance-vraagstukken en een multidisciplinaire benadering worden uitgangspunten daarbij. Oude financieringsvormen voldoen niet meer. Kernthema's voor de stad worden samenhang en het verbinden met nieuwe verdienmodellen; nieuwe partner- en financieringsvormen zullen ontstaan. Ketenintegratie en ICT gaan een fundamentele rol spelen in de nieuwe urbane processen.

Innoveren Binnen Handbereik Hatte van der Woude,Saskia Harkema,2008-12-16 Elke bedrijf moet innoveren in deze tijd, waarin ontwikkelingen razend snel gaan, en over de manier waarop is al heel wat managementliteratuur geschreven. Die is echter meestal geschreven voor grote bedrijven. Wat heeft een MKB-er daar in de praktijk aan? Innoveren binnen handbereik is een verslag van een 1-jarig onderzoek, in opdracht van De Haagse Hogeschool, naar innovatiemanagement binnen kleine bedrijven in de maakindustrie.

European Fair Trading Law Geraint Howells,Hans-W. Micklitz,Thomas Wilhelmsson,2016-04-22 The Unfair Commercial Practices Directive is the most important directive in the field of trade

practices to have emerged from the EC but it builds upon European activity which has sought to regulate trade practices on both a sectoral and horizontal level. It is an umbrella provision, which uses general clauses to protect consumers. How effective this approach is and how it relates the existing *acquis* are fundamental issues for debate. This work provides a critical appraisal of the Unfair Commercial Practices Directive linking discussion of it to general debates about how fair trading should be regulated. It explains how the Directive fits into the existing *acquis*. It also examines national traditions where these are necessary to explain the European approach, as in the case of general clauses. The book will be a valuable tool for any student of consumer law seeking to understand the thinking behind the directive and how it will affect national laws. It will also influence policy makers by suggesting how the directive should be interpreted and what policy lies behind its formulation. Businesses and their advisers will use the book as a means of understanding the new regulatory climate post-the directive.
