Floating Offshore Wind Farms Laura Castro-Santos,Vicente Diaz-Casas,2016-03-05 This book provides an overview of floating offshore wind farms and focuses on the economic aspects of this renewable-energy technology. It presents economic maps demonstrating the main costs, and explores various important aspects of floating offshore wind farms. It examines topics including offshore wind turbines, floating offshore wind platforms, mooring and anchoring, as well as offshore electrical systems. It is a particularly useful resource in light of the fact that most water masses are deep and therefore not suitable for fixed offshore wind farms. A valuable reference work for students and researchers interested in naval and ocean engineering and economics, this book provides a new perspective on floating offshore wind farms, and makes a useful contribution to the existing literature.

Ageing and Sexualities Rosie Harding,Elizabeth Peel,2017-05-15 This book showcases developments in theory, research and practice regarding sexuality and ageing, considering the differences as well as similarities between and among ageing heterosexual and LGBT older people. Identifying the questions central to future social scientific research on ageing and sexuality, it focuses on the important, emerging dimensions of sexuality and ageing: embodiment, the diversification of the ageing context and the intersections of care and sexuality. With attention to the different forms of sexualities, particularly at their intersection with gender, this volume explores the importance of spatial and relational contexts, whether individual, residential or virtual, with authors offering studies of online dating, sexuality in the context of residential care and the relationship between sexuality, legal frameworks and social policy. Interdisciplinary in scope and offering the latest research from scholars in the UK, Australasia and Africa, Ageing and Sexualities constitutes an integrated approach to the conceptual and practical challenges of understanding the interplay of ageing and sexuality in contemporary society. As such, it will appeal to scholars from a variety of disciplinary backgrounds, including sociology, cultural studies, socio-legal studies, social gerontology, psychology, medicine and health care.

Lost in America Sherwin B. Nuland, 2007-12-18 A writer renowned for his insight into the mysteries of the body now gives us a lambent and profoundly moving book about the mysteries of family. At its center lies Sherwin Nuland's Rembrandtesque portrait of his father, Meyer Nudelman, a Jewish garment worker who came to America in the early years of the last century but remained an eternal outsider. Awkward in speech and movement, broken by the premature deaths of a wife and child, Meyer ruled his youngest son with a regime of rage, dependency, and helpless love that outlasted his death. In evoking their relationship, Nuland also summons up the warmth and claustrophobia of a vanished immigrant New York, a world that impelled its children toward success yet made them feel like traitors for leaving it behind. Full of feeling and unwavering observation, *Lost in America* deserves a place alongside such classics as *Patrimony* and *Call It Sleep*.

But hatred is slow to die, and not everyone likes the expressive way in which Urban, a serpiente dancer, is courting Oliza--especially not Marus, her reserved avian suitor. And when Urban is found beaten in avian land, Oliza is filled with despair. How can she be expected to lead a unified society if her people still cannot live peacefully together? Before Oliza can try to mend the rift in Wyvern's Court, she is kidnapped by mercenaries, who take her deep into wolves' territory. As Wyvern princess, all Oliza has ever wanted is to see a future where she can find love and take a mate without inciting another war. The time is now. She owes it to her people--and to herself.
