*Rapport d'information sur la déontologie des fonctionnaires et l'encadrement des conflits d'intérêts* Fabien Matras,Olivier Marleix, commission des lois ,2018-01-31 Dans la continuité des débats ouverts lors de l'examen de la loi pour la confiance dans la vie politique, la commission des Lois a confié à 18 de ses membres une mission d'information pour faire un premier bilan des évolutions intervenues en matière de déontologie et d'encadrement des conflits d'intérêts pour les agents publics. Fabien Matras et Olivier Marleix, respectivement président-rapporteur et vice-président et co-rapporteur, ont souhaité établir un état des lieux documenté en procédant à de nombreuses auditions rassemblant des acteurs aussi bien issus du secteur public que du secteur privé. Sur un total de plus de trente-trois heures d'auditions, dix-huit auditions et sept tables rondes ont été organisées. Le rapport d'information considère que le cadre légal, tel que modifié en 2016, apparaît aujourd'hui suffisant à condition que le dispositif gagne en transparence et que les contrôles soient effectifs. Fort de ce constat, les Rapporteurs proposent d'abord de renforcer les outils statistiques et d'améliorer la formation initiale et continue pour que tous les agents publics s'approprient ces questions. Mais ces évolutions doivent surtout s'accompagner d'un renforcement de la transparence passant en particulier par une publicité systématique des avis de la commission de déontologie. D'après le rapport d'information, les organes de contrôle doivent par ailleurs être dotés de moyens permettant de vérifier que leurs recommandations ou réserves sont effectivement respectées. La commission de déontologie et la Haute Autorité pour la transparence de la vie publique pourraient ainsi fusionner pour former une nouvelle autorité administrative indépendante, référence nationale en matière de déontologie et d'encadrement des conflits d'intérêts.

*The Official History of Britain and the Channel Tunnel* Terry Gourvish,2006-09-27 Commissioned by the Cabinet Office and using hitherto untapped British Government records, this book presents an in-depth analysis of the successful project of 1986-94. This is a vivid portrayal of the complexities of quadripartite decision-making (two countries, plus the public and private sectors), revealing new insights into the role of the British and French Governments in the process. This important book, written by Britain's leading transport historian, will be essential reading for all those interested in PPPs, British and European economic history and international relations. The building of the Channel Tunnel has been one of Europe's major projects and a testimony to British-French and public-private sector collaboration. However, Eurotunnel's current financial crisis provides a sobering backcloth for an examination of the British Government's long-term flirtation with the project, and, in particular, the earlier Tunnel project in the 1960s and early 1970s, which was abandoned by the British Government in 1975.

**A Social History of Knowledge II** Peter Burke,2013-04-17 Peter Burke follows up his magisterial Social History of Knowledge, picking up where the first volume left off around 1750 at the publication of the French Encyclopédie and following the story through to Wikipedia. Like the previous volume, it offers a social history (or a retrospective sociology of knowledge) in the sense that it focuses not on individuals but on groups, institutions, collective practices and general trends. The book is divided into 3 parts. The first argues that activities which appear to be timeless - gathering knowledge, analysing, disseminating and employing it - are in fact time-bound and take different forms in different periods and places. The second part tries to counter the tendency to write a triumphalist history of the 'growth' of knowledge by discussing losses of knowledge and the price of specialization. The third part offers geographical, sociological and chronological overviews, contrasting the experience of centres and peripheries and arguing that each of the main trends of the period - professionalization, secularization, nationalization, democratization, etc, coexisted and interacted with its opposite. As ever, Peter Burke presents a breath-taking range of scholarship in prose of exemplary clarity and accessibility. This highly anticipated second volume will be essential reading across the humanities and social sciences.

*Hope* Simon Wortham,2019-11-14 A colourful map of the current conflict between pessimism and optimism in Western politics and theory, Hope attempts to reveal both the deep history and contemporary necessity of political hopefulness. Starting in the 17th century with Spinoza, Wortham tells the story of the various fallacies and insights of pessimism and optimism through the 18th century with the help of Kant and Voltaire through to the famously nihilistic writings of Nietzsche and the 20th century works of thinkers such as Benjamin, Arendt, Kristeva and Fanon (to name but a few). He explores the contemporary significance of ideas such as affirmation, sovereignty, violence, therapy, existentialism and, of course, the oft maligned notion of 'hopefulness' to create a politics of optimism which avoids the pitfalls of uncritical acceptance of the status quo or the newest political idea. Short chapters written in an engaging narrative manner enable the reader to follow the story of political optimism over the last 4 centuries inspiring a new way of thinking about the transformative uses of hopefulness.

*Letters from an Other* Lise Gauvin,1989 The Quebec Roxane describes to her best friend Sarah in these thirteen letters is a territory fast taking on new shapes. Its geographical space extends from Montreal through the bucolic islands of the Saint Lawrence as far as New York; its cultural space is dominated by literary modernism and feminism. Most significantly, Roxane's map of artistic practices is given against a backdrop of the

power relationships which sustain them: the tensions between small and large cultures, the inequalities of Quebec and English Canada, the subtle conflicts which mark the continued subordination of women in a supposedly emancipated society. Her letters address not only that persistent puzzle what is Quebec? but - a question certainly as difficult - what is culture today?-Sherry Simon, Concordia University

**La Guerre, Yes Sir** ,1998 Vital, funny, moving and assured, La Guerre, Yes Sir! is a surrealist fable set in rural Quebec during WWI and one of the major achievements in Canadian fiction. Canadian Literature greeted its first appearance in these terms: It is the French-Canadian writer Roch Carrier who comes closest to the significance, power and artistry of Faulkner at his best . . . . He might well be able to do for French Canada what Faulkner did for the American South.

**The Prisoners** Guy de Maupassant,2016-03-31 This early work by Guy de Maupassant was originally published in the 1880's. Guy de Maupassant was born in 1850 at the Château de Miromesnil, near Dieppe, France. He came from a prosperous family, but when Maupassant was eleven, his mother risked social disgrace by trying to secure a legal separation from her husband. After the split, Maupassant lived with his mother till he was thirteen, and inherited her love of classical literature. In 1880, Maupassant published his first - and, according to many, his best - short story, entitled 'Boule de Suif' ('Ball of Fat'). It was an instant success. He went on to be extremely prolific during the 1880s, working methodically to produce up to four volumes of short fiction every year. Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.
