Kon-Tiki Thor Heyerdahl,2014-11-11 “One of the great adventures of our time.” —Life “Am going to cross Pacific on a wooden raft to support a theory that the South Sea islands were peopled

from Peru. Will you come? . . . Reply at once.” That is how six brave and inquisitive men came to seek a dangerous path to test a scientific theory. On a primitive raft made of forty-foot balsa logs and named “Kon-Tiki” in honor of a legendary sun king, Thor Heyerdahl and five companions deliberately risked their lives to show that the ancient Peruvians could have made the 4,300-mile voyage to the Polynesian islands on a similar craft. For three months, the bold young men made their way across the Pacific at the complete mercy of the ocean. They encountered storms that threatened to tear their raft apart, whales large enough to sink them in the blink of an eye, and sharks ready to feast on any man unfortunate enough to fall overboard. In the true spirit of adventure, they held on until finally making landfall on a remote Polynesian island, proving Heyerdahl’s theory possible after all. On every page of this true chronicle—from the actual building of the raft through all the dangerous and comic adventures on the sea, to the spectacular crash landing and the native islanders’ hula dances—each reader will find a wholesome and spellbinding escape from the twenty-first century.

Hydraulics of Pipeline Systems Bruce E. Larock, Roland W. Jeppson, Gary Z. Watters, 1999-09-28 The first of its kind, this modern, comprehensive text covers both analysis and design of piping systems. The authors begin with a review of basic hydraulic principles, with emphasis on their use in pumped pipelines, manifolds, and the analysis and design of large pipe networks. After the reader obtains an understanding of how these principles are implemented in computer solutions for steady state problems, the focus then turns to unsteady hydraulics. These are covered at three levels:

The Residents of An Economy International Monetary Fund,1988-01-01 Based on jurisdictional grounds, this paper suggests that for statistical, analytical, and policy purposes, the residents of a given economy can best be defined in terms of their presence in the territory of that economy. The paper recommends that this concept, which is underlying the definitions of general government, individuals, and enterprises in the 1968 version of the United Nations' A System of National Accounts and the 1977 version of the International Monetary Fund's Balance of Payments Manual, should continue to be used for measuring gross domestic and gross national product as well as international transactions.

G-D's Physics Jehonathan Bentovish PhD,2021-02-15 God's Physics: A New Science Transforming the World & Our Life Science is currently undergoing a profound Paradigmatic-Shift from the Old Material-Causal Paradigm of 20th Century's Relativity Theory and Quantum Mechanics to the New God's Physics Paradigm: Succinctly stated, 'God's Physics' replaces our old way of looking at the world as created by a random Big-Bang nuclear explosion towards an exciting new realization that

our entire physical universe, our bodies and minds, and our total physical and human existence are all being continuously created by a singular higher Universal Consciousness Reality - 'God'! Yes, according to this New 'God's Physics' Paradigm there exists a singular higher 'Universal Consciousness Reality' which produces, remembers, sustains and evolves every small pixel in our entire physical universe - including our own body and mind, helps and encourages us to lead a moral, purposeful and meaningful life! Indeed, according to this New 'God's Physics' understanding of the world, everything in our universe, e.g., from the tiniest cells in our bodies, every atom in the universe, every rock, plant, animal or human being - are all being produced and re-produced a billion-billion-billion times (per second!) by this singular higher 'Universal Consciousness Reality' (UCR), i.e., 'God'! Indeed, this profound new scientific discovery comes along with the realization that this singular higher 'Universal Consciousness Reality' cares about our own 'moral-choices', evolves every small 'pixel' in the universe as well as us as (intelligent conscious) human beings towards leading a Moral, Spiritual Existence within an awakened New Morally and Spiritually Perfected World! Therefore, the discovery of this new (exciting) God's Physics not only resolves the biggest unresolved Scientific Enigma that Einstein was working on for half of his illustrious scientific career - but also completely transf
