Facebook Nation Newton Lee,2014-10-16 Facebook’s psychological experiments and Edward Snowden’s NSA leaks epitomize a world of increasing information awareness in the social media ecosystem. With over a billion monthly active users, Facebook as a nation is overtaking China as the largest country in the world. President Barack Obama, in his 2011 State of the Union Address, called America “the nation of Edison and the Wright brothers” and “of Google and Facebook.” U.S. Chief Information Officer Steven VanRoekel opines that America has become a “Facebook nation” that demands increased transparency and interactivity from the federal government. Ubiquitous social networks such as Facebook, Google+, Twitter, and YouTube are creating the technologies, infrastructures, and big data necessary for Total Information Awareness – a controversial surveillance program proposed by DARPA after the 9/11 attacks. NSA’s secret PRISM program has reinvigorated WikiLeaks founder Julian Assange’s accusation that “Facebook is the most appalling spying machine that has ever been invented.” Facebook CEO Mark Zuckerberg once said, “We exist at the intersection of technology and social issues.” This book offers discourse and practical advice on the privacy issue in the age of big data, business intelligence in social media, e-government and e-activism, as well as personal total information awareness. This expanded edition also includes insights from Wikipedian Emily Temple-Wood and Facebook ROI experts Dennis Yu and Alex Houq.

Health, Safety and Well-Being of Workers in the Informal Sector in India Sigamani Panneer,Sanghmitra S. Acharya,Nagarajan Sivakami,2019-07-25 This book focuses on the core problems of occupational health, safety and well-being of workers in the informal sector in developing countries, where it accounts for most of the rural labour force and a substantial percentage of the urban labour force. The sector is characterised by low incomes, unstable employment and lack of protection in the form of legislation/policies or trade unions. Though some health and problem-solving measures have been introduced, a focused academic effort to address the problems confronting workers in the unorganised sector, or informal economy, is lacking. The book evaluates workers’ physical and mental health in the context of labour migration, social inclusion of minorities and the differently abled, provisions for women workers, demonetisation, occupational safety for hazardous work, and in connection with various areas of informal work, e.g. agriculture, construction, transportation, sanitation, tanning, the tobacco industry, powerloom industry, surrogacy, and self-employment. It provides a well-rounded description of an analytical reflection on the challenges these workers face and focuses on social policy changes to help alleviate them. Accordingly, it offers a valuable asset for researchers and students interested in development studies, the sociology of work, health and labour economics, public health, and social work.

In Islam Revealed, Dr. Anis Shorrosh explains the driving force behind the fanatical, as well as the moderate and conservative sects of Islam. Drawing on his experience as a Palestinian-born Arab Christian and years of research and study, Dr. Shorrosh takes a hard look at an ever-growing religion that currently numbers 900 million members.
