**Perspectives on the New Economics and Regulation of Telecommunications** Institute for Research on Public Policy, 1996 This volume is a compilation of papers reflecting many of the issues related to telecommunications that are being debated today and are likely to continue to be addressed in the next few years. The papers examine the ways in which economic and technological forces are changing the regulation of telecommunications and the characteristics of the industry itself. After an introduction on issues such as the information highway, industry consolidation, market integration, and constraints on new policies, the papers cover such topics as the changes in Canadian telecommunications and their economics, the role of telecommunications in productivity and competition, the business network concept as an alternative governance structure, competition policy, convergence of technologies, separation of infrastructure from services, European telecommunications policy, and the historical context in which Canada has handled earlier transformations of a technological nature.

**Encyclopedia of Children, Adolescents, and the Media** Jeffrey Jensen Arnett, 2007 Publisher Description

Media Violence and Children Douglas A. Gentile, 2014-09-30 Stripping away the hype, this book describes how, when, and why media violence can influence children of different ages, giving parents and teachers the power to maximize the media's benefits and minimize its harm. There are many opinions about media violence and children, but not all are supported by science. In this book, the top experts gather the latest results from 50 years of scientific study as the basis for a comprehensive, in-depth examination of the complex issues surrounding the effects of media violence of different types. Each chapter focuses on a particular issue of concern, including hot topics such as brain development, cyber-bullying, video games, and verbal aggression. Articles take into account factors such as economics, differences based on the ages of children, and differences between types of media violence. This book provides the information parents and those who work with families need to make the best choices. It includes chapters specifically relevant to the types of bullying schools have the most trouble identifying and controlling. Most importantly, the writing is both intelligent and accessible so that parents, educators, pediatricians, and policymakers can understand and apply the findings presented.

The Case for Television Violence Jib Fowles, 1999-09-20 The Case for Television Violence is a dense, dry and devastating dissection that surely counts as one of the most important books about American culture to appear in the last decade. --Andrew O'Hehir, *The Myth of Media Violence*, Salon.com, 3/17/05 The Case for Television Violence makes the provocative argument that television violence has been misinterpreted. Rather than undermining the social order, television supports it by providing a safe outlet for aggressive impulses. Media scholar Jib Fowles challenges the conventional wisdom by: 1) demonstrating that the scientific literature does not say what many believe it says; 2) calling attention to the viewing habits and behaviors of the reader and those the reader knows; 3) explaining that the anti-violence critique is most profitably understood as the signature issue in the conflict between high and popular culture and 4) situating the arrival of televised violence within the historical context of the disallowance of traditionally

sanctioned targets of aggression. The Case for Television Violence will intrigue scholars and students of Media Studies, Cultural Studies, Politics and Mass Communication.

**Angola** Mike Stead, Oscar Scafidi, Sean Rorison, 2019-07-05 This new third edition of Bradt's Angola remains the only dedicated English-language guide to this increasingly popular southern African nation. Thoroughly updated, it includes full practical and background information, everything you need to know about the capital city, Luanda, plus coverage of the rest of the country in 16 chapters. Also featured are 38 maps, including detailed city maps for all 18 provincial capitals, plus a specific section devoted to the sometimes-tricky process of applying for a visa. Bradt's Angola is written by expert author Oscar Scafidi who lived and worked in Angola for five years, has travelled to all the country's provinces, and who has successfully completed a record-breaking kayak trip along the length of Angola's Kwanza River. Thanks to his knowledge, Bradt's Angola is ideal for everyone from independent surfers and bird-watchers on organised tours to fishing enthusiasts, conservationists, surfers, NGO workers and overlanders, not to mention adventurous travellers simply wanting to discover this intriguing country. Angola continues to change at a rapid pace and offers everything from colonial Portuguese ruins to \$100-a-plate sushi bars, landscaped waterfronts to grand public buildings, Portuguese and Brazilian heritage to frontier diamond towns, tropical rainforests to desert, and relaxed coastal resorts on 1,000km of unspoiled beaches. It's also the site of the UNESCO World Heritage listed Mbanza Kongo, once the centre of power for the Kilukeni dynasty, who founded the city almost 100 years before the arrival of the Portuguese. Whether wildlife watcher or surfer, business traveller or pioneering adventurer, Bradt's Angola provides all the information you will need to get the most out of this vast country.

*Measuring the Information Society Report 2016* International Telecommunication Union, 2017-07-11 The Measuring the Information Society Report, which has been published annually since 2009, features key ICT data and benchmarking tools to measure the information society, including the ICT Development Index (IDI). The IDI 2016 captures the level of ICT developments in 175 economies worldwide and compares progress made since the year 2014. The MISR 2016 assesses IDI findings at the regional level and highlights countries that rank at the top of the IDI and those that have improved their position in the overall IDI rankings most dynamically since 2014. It will also use the findings of the IDI to analyze trends and developments in the digital divide. The report will present 2015 prices for about 160 countries and

provide a detailed analysis of mobile-cellular, fixed-broadband and mobile-broadband prices over the period 2008-2015. It will highlight the role of ICTs in achieving the Sustainable Development Goals and present the newly agreed SDG indicator framework, including the ICT indicators. The report will also include a chapter looking into new metrics to measure mobile uptake, and a chapter presenting data analyzing Internet use and uptake.

**Tuning In to Young Viewers** Tannis M. MacBeth, 1996-05-07 This book provides a much-needed overview of crucial topics concerning the uses and effects of television, including diversity on television, dependence, diagnosis and prevention, the socialisation of young children and children's fear.
