Universal versus Disney: The Unofficial Guide to American Theme Parks' Greatest Rivalry Sam Gennawey,2014-10-20 Universal Studios never really wanted to get into the theme park business. They wanted to be the anti-Disney. But when forced to do so, they did it in a big way. Despite the fits and starts of multiple owners, the parks have finally gained the momentum to mount a serious challenge to the Walt Disney Company. How did this happen? Who made it happen? What does this mean for the theme park industry? In Universal Versus Disney, his newest work to investigate the histories of America's favorite theme parks, seasoned Disney-author Sam Gennawey has thoroughly researched how Universal Studios shook up the multi-billion dollar theme park industry, one so long dominated by Walt Disney and his legacy.

Exploring Universal Orlando Resort With Kids Travelers Series,2013-04-19 The Universal Orlando Resort includes two world class theme parks - Universal Studios Florida and Universal's Islands of Adventure featuring the Wizarding World of Harry Potter! For less than the price of parking, your family can explore both parks of the Universal Orlando Resort in an entirely new way and create spectacular memories that will last a lifetime. The Exploring Universal Orlando Resort with Kids Memory Book will make your visit to the Universal Resort one to remember. The book includes interactive activities to keep your child entertained and engaged while waiting in line, for a show, or for food, along with day-long activities that will immerse your child in the Universal experience. With room for autographs, photos, buttons, stickers, pressed coins and more, the Exploring Universal Resort Orlando with Kids Memory Book brings these parks to life in an entirely new way. Best of all, you and your child will enjoy the completed Memory Book for years to come as a reminder of your adventures. A family vacation to the Universal Orlando Resort will be even better with a Jr. Travelers Series book. This is a trip you and the kids will never forget. Each Jr. Travelers Memory Book contains activities tailored to specific destinations or themes. While visiting each destination, your child collects items, answers trivia, writes stories, finds objects, or does something particular to that location. As he or she completes each activity, your child will accumulate a collection of items, artwork, stories, and mementos. Some of these are preserved by writing or taping them directly onto the pages of the Memory Book. By simply completing each fun activity during a family outing, your child transforms their activity book into a Memory Book that lasts a lifetime. ** GO TO WWW.TRAVELERSSERIES.COM TO LEARN MORE OR VIEW A BOOK PREVIEW **

Stage Lighting Richard E. Dunham, 2015-10-30 The book's organization follows a layered approach that builds on basic principles: Light as a Medium (Part 1), Tools of a Lighting Designer (Part 2), Design Fundamentals (Part 3), and Lighting Applications (Part 4). This presents students with a practical and logical sequence when learning basic concepts. The full spectrum of the lighting design process is presented in detail, giving students an example of how one might develop a lighting design from script analysis through concept and plot development, and all the way to an opening. This detailed process with a step-by-step design approach gives students a plan to work from, which they can later modify as they mature and gain confidence as designers. The text contains a more comprehensive discussion of basic technology, light as a physical phenomena, and methodology of designs than is found in most introductory texts, bridging the gap between introductory and advanced lighting courses. The text will appeal to theatrical designers who want to venture into areas of lighting like architectural or virtual lighting design, while at the same time gaining a solid grounding in the fundamentals of lighting design. Lighting Design will also benefit illuminating engineers who want to move away from mere computational approaches in lighting and on to explore techniques along the design approaches of theatrical lighting design. The final 9 chapters cover many specialty areas of lighting design, highlighting the unique and shared qualities that exist between the different aspects of these elements. Discussions involve traditional entertainment areas like theatre, as well as lesser known facets of the industry including film/video, landscape lighting, retail/museum lighting, virtual lighting, concert, spectacle performances, and architectural lighting. Models of design tasks demonstrate the actual use and development of plots/sections, schedules, photometrics tables, and cut sheets, rather than simply talking about what they are. This hands-on approach provides students with a firm understanding of how to actually use these tools and processes.

Beasts of the Deep Jon Hackett, Seán Harrington, 2018-01-10 Beasts of the Deep: Sea Creatures and Popular Culture offers its readers an in-depth and interdisciplinary engagement with the sea and its monstrous inhabitants; through critical readings of folklore, weird fiction, film, music, radio and digital games. Within the text there are a multitude of convergent critical perspectives used to engage and explore fictional and real monsters of the sea in media and folklore. The collection features chapters from a variety of academic perspectives; post-modernism, psychoanalysis, industrial-organisational analysis, fandom studies, sociology and philosophy are featured. Under examination are a wide range of narratives and media forms that represent, reimagine and create the Kraken, mermaids, giant sharks, sea draughts and even the weird creatures of H.P. Lovecraft. Beasts of the Deep offers an expansive study of our sea-born fears and anxieties, that are crystallised in a variety of monstrous forms. Repeatedly the chapters in the collection encounter the contemporary relevance of our fears of the sea and its inhabitants – through the dehumanising media depictions of refugees in the Mediterranean to the encroaching ecological disasters of global warming, pollution and the threat of mass marine extinction.
