Unleash! Perry Noble, 2012-09-20 Why is it that we trust Jesus with our salvation but never fully trust him with our lives? God longs to unleash his full measure of power in our lives to fill us with passion and purpose. But too often the things of our past—fear, anger, bitterness, worry and doubt—hold us back. Rather than focusing on the reality of who Christ is and what he has done for us, we allow ourselves to be identified by all the things we aren't. But we are not who our past says we are, and we are not who the enemy says we are. We are who God and his Word say that we are. Pastor Perry Noble challenges all followers of Christ to make a bold move by fully embracing the exciting adventure God has called us to. Are you ready to unleash all the life he has created you to live? Join Perry on this journey as he digs into the major barriers holding people back and shows how Jesus calls and equips his followers to experience a life most of us never dreamed possible.

Brand Beauty Unleashed Roberto M. Álvarez del Blanco, 2020-03-12 This book presents an in-depth, careful study of our understanding of the concept of beauty in everyday objects and its impact on markets and brands. Through examining the neuroscientific evidence for how the brain processes beauty, the author articulates the implications this may have on marketing and brand management. He also offers a glimpse of how beauty may evolve, and its marketing implications for firm strategy in the coming decades. Written by a recognized authority in marketing and brand strategy, *Brand Beauty Unleashed* gives students with an interest in marketing, consumer behavior, branding, and neuromarketing an exciting new perspective on this intangible asset.

Rethinking Marginality in South Africa Powell,
Crystal, 2014-07-19 What does it mean to be
marginal? For residents of Cape Town's Langa
Township, being considered marginal is subject to
a host of social, physical and sometimes
materialistic qualifications - not least of which
is owning a mobile phone. Through various
presentations of unique aspects of township life
revealed through ethnographic snapshots, this book
reveals the complex realities of marginalization
experienced by some residents in Langa Township,
located in Cape Town, South Africa. Mobile phones
have been embraced and accommodated by both local
South Africans and African immigrant residents
living and working in Langa. Among other things,
the technology has become a way of challenging
(real and imagined) marginalities within the
township in particular and South Africa in
general. The book provides empirical data on the
role of technology in regards to migration and
notions of belonging; specifically the ways that
technology has mitigated distance for residents,
provided opportunities for development,
facilitated the negotiation of various
marginalities, and offered new ways of belonging
for Langa residents.
