Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Watching YouTube Michael Strangelove,2010-01-01 Michael Strangelove provides a broad overview of the world of amateur online videos and the people who make them. He describes how online digital video is both similar to and different from traditional home-movie-making and argues that we are moving into a post-television era characterized by mass participation. --from publisher description.

Girls, Autobiography, Media Emma Maguire,2018-04-05 This book investigates how girls' automedial selves are constituted and consumed as literary or media products in a digital landscape dominated by intimate, though quite public, modes of self-disclosure and pervaded by broader practices of self-branding. In thinking about how girlhood as a potentially vulnerable subject position circulates as a commodity, *Girls, Autobiography, Media* argues that by using digital technologies to write themselves into culture, girls and young women are staking a claim on public space and asserting the right to create and distribute their own representations of girlhood. Their texts—in the form of blogs, vlogs, photo-sharing platforms, online diaries and fangirl identities—show how they navigate the sometimes hostile conditions of online spaces in order to become narrators of their own lives and stories. By examining case studies across different digital forms of self-presentation by girls and young women, this book considers how mediation and autobiographical practices are deeply interlinked, and it highlights the significant contribution girls and young women have made to contemporary digital forms of life narrative.

Subverting Masculinity ,2021-08-04 Contemporary Western societies are currently witness to a “crisis of masculinity” but also to an intriguing diversification of images of masculinity. Once relatively stable regimes of masculine gender representation appear to have been replaced by a wider spectrum of varieties of masculine “lifestyles” taken up by the media and the market, to produce new and immensely flexible forms consumerised gender hegemony. The essays in *Subverting Masculinity* concentrate on contemporary film, literature and diverse forms of popular culture. The essays show that the subversion of traditional images of masculinity is both a source of gender contestation, but may equally be susceptible to assimilation by new hegemonic configurations of masculinity. *Subverting Masculinity* maps out the ongoing relevance of gender politics in contemporary culture, but also raises the question of increasingly unclear distinctions between hegemonic and subversive versions of masculinity in contemporary cultural production. *Subverting Masculinity* will be of interest to students and teachers of gender, cultural, film and literary studies.

Media Sport Stars Garry Whannel,2005-07-08 *Media Sport Stars* considers how masculinity and male identity are represented through images of sport and

sport stars. From the pre-radio era to today's specialist TV channels, newspaper supplements and websites, Whannel traces the growing cultural importance of sport and sportmen, showing how the very practices of sport are still bound up with the production of masculinities. Through a series of case studies of British and American sportsmen, Whannel traces the emergence of the sporting 'hero' and 'star', and considers the ways in which the lives of sport stars are narrated through the media. Focusing on figures like Muhammad Ali and David Beckham, whose fame has spread well beyond the world of sport, he shows how growing media coverage has helped produce a sporting system, and examines how modern celebrity addresses the issues of race and nation, performance and identity, morality and violence. From Babe Ruth to Mike Tyson, *Media Sport Stars* demonstrates that, in an era in which both morality and masculinity are perceived to be 'in crisis', sport holds a central place in contemporary culture, and sport stars become the focal point for discourses of masculinity and morality.

Reading Sport Susan Birrell, Mary G. McDonald, 2000 A look at power relations in sports along the axes of gender, race, class, and sexuality.

The Metrosexual David Coad, 2014-02-07 Explores the cultural significance of the metrosexual in sports.

Men in the Mirror Tim Edwards, 2016-10-06 In recent decades, the myth of fashionable women and sartorially challenged men has been overturned not least through the proliferation of men's style magazines such as GQ and the emergence of masculinity as a marketing tool. In this engaging book, Edwards applies a sociological approach to our understanding of men's fashion, which he argues is significant in the nexus of masculinity and society, past and present, rather than a narrow artistic or aesthetic interest. Rejecting an essentialist or 'natural' origin, Edwards explores how masculinity and men's fashion are constructed, particularly in relation to consumer society. It is the growing commodification and aestheticism of everyday life, alongside developments in marketing and advertising, that Edwards identifies as the catalyst in the emergence of men's fashion, rather than an abstract 'crisis of masculinity' or 'new man' identity. Concurrently, in the 1980s, changes in demography, economics and ideology gave certain men greater freedom and spending power than ever before. Edwards investigates how these men, clearly distinguished by age, class and sexual orientation, were seduced by advertisers with sexualised images of suited city gents and body-beautiful boys in Levis, and how the resultant process of consumption was facilitated through developments in the practice of shopping itself, such as easy access to credit. He examines the influence of the advertisers' message in creating a hierarchy of masculinity in which some men are valorised and others are denigrated. Starting with a historical review of men's fashion and a discussion of its importance and meanings, Edwards goes on to analyse the contemporary marketing of menswear and masculinity in advertising and in the media, and considers the politics of fashion for men in terms of

gender, class, race and sexuality.

Cultures of Consumption Frank Mort, 2013-04-15 First Published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

Men, Masculinity and the Media Steve Craig, 1992-02-26 Although studies of men and masculinity have gained momentum, little has been published that focuses on the media and their relationship to men as men. *Men, Masculinity and the Media* addresses this shortcoming. Scholars from across the social sciences investigate past media research on men and masculinity. They also examine how the media serve to construct masculinities, how men and their relationships have been depicted and how men respond to media images. From comic books and rock music to film and television, this groundbreaking volume scrutinizes the interrelationship among men, the media and masculinity.

End of Masculinity John MacInnes, 1998-02-16 Why does masculinity seem obvious yet prove impossible to define? What has caused the erosion of men's power and will progress towards sexual equality continue? How political is the personal? This book explains why both popular and academic commentators have found it impossible to define masculinity. It is because no such thing exists. Re-examining the ideas of thinkers such as Sigmund Freud and Thomas Hobbes, the author shows that modern societies faced the novel problem of explaining how men and women had equal rights, yet led such different lives, and solved it by inventing the concept of masculinity. It concludes that strong forces in modern societies encourage greater sexual equality, and that these are better supported by a politics of equal rights than by encouraging men to personally reform their masculine identity. MacInnes challenges established ways of thinking about sex, gender and masculinity that underpin not only feminist thought, but the treatment of these issues across the social sciences, philosophy and history.

Reading Ads Socially Robert Goldman, 2005-07-25 This systematic and authoritative book provides an unrivalled guide to understanding ad culture. It shows how the logic of commodities permeates the ways we think about ourselves, our relationships and our desires. Richly illustrated and written with great clarity, it will be essential reading for anyone interested in ad culture.

Sport Stars David L. Andrews, Steven J. Jackson, 2002-09-11 *Sport Stars* investigates the nature of contemporary sporting celebrity, examining stars' often turbulent relationship with the press, and exploring themes of identity, race, and spectacle.

Breaking Up America Joseph Turow, 2007-12-01 Combining shrewd analysis of contemporary practices with a historical perspective, *Breaking Up America* traces the momentous shift that began in the mid-1970s when advertisers rejected mass marketing in favor of more aggressive target marketing. Turow shows how advertisers exploit differences between consumers based on income, age, gender, race, marital status, ethnicity, and lifestyles. An important book for anyone wanting insight into the advertising and media worlds of today. In plain English, Joe Turow explains not only why our television set is on, but what we are watching. The frightening part is that we are being watched as we do it.—Larry King Provocative, sweeping and well made . . . Turow draws an efficient portrait of a marketing complex determined to replace the 'society-making media' that had dominated for most of this century with 'segment-making media' that could zero in on the demographic and psychodemographic corners of our 260-million-person consumer marketplace.—Randall Rothenberg, *Atlantic Monthly*

Cultures of Masculinity Tim Edwards, 2004-08-02 Presenting a survey of the social, cultural and theoretical issues which surround and inform our

understanding of masculinity, this book explores the interface between traditional sociological approaches and the work covered by more post-structural, media-driven or cultural perspectives. Edwards well known for his work on representations of masculinities, uses grounded examples of the job market and domestic violence to set his theoretical discussion. He argues that there is a need for more dialogue on men and masculinities between disciplines, and considers the validity of the concerns and anxieties which surround masculinity in the contemporary world through a range of key topics, including: the new man, the new lad and 'men's movements' men, masculinity and violence marginalized masculinities: black masculinity and gay male sexuality queer theory, performativity and fashion cinema, representation and the body. One of the most comprehensive and progressive studies of modern masculinity available, this book will be essential reading for students of gender, culture and sociology.

Masculinity Beyond the Metropolis J. Kenway, A. Kraack, A. Hickey-Moody, 2006-06-20 This book gives insights on youth, masculinity and place by exploring spatially marginalized masculinities in stigmatized and romanticized out-of-the-way places in 'developed' Western countries. It shows the impact of globalization on place and identity through global ethnographic studies and media representations of young men in peripheral places.

Motherhood Online Michelle Moravec, 2011-05-25 It may take a village to raise a child, but increasingly that means a virtual village. While the media may focus on the so-called "mommy wars," and babyrazzi follow every move of celebrity moms, millions of mothers world-wide are creating online communities. These mommy groups provide an alternative context for understanding how women construct modern motherhood together. Motherhood Online explores the multifaceted lives that moms live online. Ranging from longitudinal studies to focused explorations of identity, and the newest community context, mommy blogs, this book documents the millions of mommies who have found an outlet online. Whether centered on region, religion, race, or something else altogether, these communities of mothers are creating a new space for mom and allowing many women to maintain a grasp, however tenuous, on sanity in this crazy-making world of modern motherhood.
