### **Great Books Written by Africans across the Academic Disciplines**

Emmanuel D. Babatunde, Abdul Karim Bangura, 2022-07-04 This volume is the first text to provide a comprehensive account of the great books across the academic disciplines written by Africans born in the continent and those who became naturalized citizens of African countries. These great books are those that have had a powerful, important or affecting influence on the author of a chapter in this book, as an individual, and on society. The books included here are mostly of the storytelling type and, thus, not representative of most of the academic disciplines. This volume allows each contributor to write a chapter on a discipline showcasing five great books written by African authors. Each selection is appraised and suggestions made by other experts in a discipline, while every chapter entails an introduction to the topic, a conceptual discussion of the discipline, a book-by-book review of the five books, and a conclusion and recommendations for research using the selected books.

### **How to Get the Most Out of Business Bertiecharles**

Forbes,2006-04-01 [H]appily, as already said, many modern leaders in business now feel that the mere piling up of millions is not the highest goal attainable in business, but that the supreme purpose of any business must be to render a service equal to the price charged for it, and that the business man or business enterprise that aspires to win the highest recognition for success must distinguish himself or itself, not by the magnitude of profits, but by the value of service performed. -from *What Constitutes Success in Business?* As the founder and longtime editor of *Forbes Magazine*, B. C. Forbes not only hobnobbed with some of the most successful and respected men in the worlds of high finance, industry, and commerce... he was one himself. Cheerfully and sensibly,

Forbes explains why it's vital not to neglect mental and emotional contentment in the pursuit of financial riches, and how a zestful life is fully compatible with career fulfillment.
