Step Up Your Game Naresh C. Rao, 2016-02-02 As a sports and wellness medicine practitioner whose clients include Olympic and professional athletes, triathletes, and weekend warriors, Dr. Naresh Rao has uncovered the secrets of how and why elite athletes consistently perform at the highest levels. In *Step Up Your Game*, he reveals what separates the best athletes from the rest of us, despite our best efforts in any chosen sport. According to Rao, top athletes know that peak performance requires much more than consistent practice. He reveals a comprehensive program that takes into account every aspect of optimizing wellness—from monitoring health to improving nutrition, following a thorough training protocol, and developing a plan for recovering from and preventing injury. The mental game is just as important as the physical one; these athletes make sure to address their motivational, psychological, and spiritual needs, too. In short, the athletes who are at the top of their game know that if they want to improve—whether it's their accuracy at the goal, time at the finish line, or consistency of play—they need to take each of these aspects into consideration every single day. *Step Up Your Game* reveals how remarkable success is available to athletes with the conviction and desire to improve. By integrating Dr. Rao's program into an existing fitness routine, readers will take ownership of their training in a systematic way, remove the stress that often hampers outcomes, and—most importantly—begin to fully enjoy their exercise experience as they work to achieve their healthiest selves. Power Up Your Classroom Lindsey Blass, Cate Tolnai, 2022-08-24 Learn to design learning experiences that leverage gameplay to increase motivation and engagement, while building classroom community. By the time Lindsey Blass and Cate Tolnai's paths crossed, both had taken a path from teacher to coach to central/county office roles focused on innovative learning design, all while noticing three trends that extended beyond their classrooms: students who weren't able to own and connect to their learning experience became disengaged; students and teachers alike had a general fear of failure; and teachers were perplexed at how to design learning experiences that fostered student choice and celebrated failure as an opportunity for iteration. Together, they began to ask ... what if? What if we designed learning experiences that leveraged the power of gameplay to create more motivated learners? What if we modeled this type of learning with educators so they could experience the impact firsthand and spread the excitement and innovation in their classrooms? What if learning was fun for both students and teachers? This book:

- Includes visual elements that model the theme of engaging in a game with tips, hints and suggestions sprinkled throughout the chapters.
- Features a downloadable full-color game board that can be used in tandem with the book.
- Provides access to an accompanying website that offers dynamic elements and book study questions.
- Features the voices of experts and innovators in the fields of gamification and game-based learning.

With a uniquely fun and inviting format, Power Up Your Classroom helps educators implement gamification and game-based learning in their classes to drive student engagement and learning.

Put Your Game Together Donnie Howell, 2010-03-03 Donnie Howell was the kid who was raised on food stamps with little parental guidance. He discovered at a young age his needs would only be met through hard work and a game called football. In *Put Your Game Together*, Donnie puts together his story of childhood struggles and the lessons he learned along the way to illustrate how to achieve success in a fair and ethical way. Donnie Howell discovered that his success in business came from treating people fairly and responsibly. He applies these principles to coaching young people in football and adds another ingredient—parents. Most coaches of youth football want to keep parents on the outside looking in, but not Donnie, he gets the parents involved. Whatever the task—managing a business or coaching kids—he believes that a leader who practices ethical behavior and builds a program fair to all will be successful.
