The Emergence of Start-ups David Heller, Sylvain de Chadirac, Lana

Halaoui,Camille Jouvét,2019-04-29 In France, the number of young start-ups has soared since the beginning of the 2010s, leading the government to encourage their development and make France the “start-up nation”. This book contributes to a better understanding of the emergence of these companies by studying the influence of the ecosystem on their development and the modes of financing that they use. The financing of start-ups remains a major challenge insofar as they are often faced with refusal from the banks. Successful financing depends largely on the geopolitical and economic environment. Through a comparative study of models from both France and English-speaking countries, the authors explore possible financing solutions for France. The book concludes with a discussion of equity crowdfunding, which proves to be a successful financing alternative. Including theoretical and empirical studies, this book provides concrete solutions aimed at developing innovative entrepreneurship in France.

The Golden Tap - The Inside Story of Hyper-Funded Indian Start-Ups Kashyap Deorah, 2015-11-16 Ever wondered why global investors are willing to write million dollar cheques to young and inexperienced entrepreneurs? Why companies are no longer judged on their ability to make profits? Why the valuation of a startup can dwarf that of its well-established counterpart? Is it a bubble? Or have the rules of the game changed? Can these hyper-funded; technology driven companies become global superpowers? Or is it an unsustainable phenomenon? The Golden Tap gives you the answers. In a remarkably honest, no holds barred account; Kashyap – himself a serial entrepreneur – demystifies the technology ecosystem that exists in India today. From the origins of Amazon and Google, to the remarkable growth of Flipkart and Ola, he meticulously plots and chronicles a connected global sequence of events. Set in this background he recounts his personal roller coaster of a life. A story filled with ambition, greed, vanity, fear and success that all young entrepreneurs can relate to. Is this the business model of the future? Or merely a game of poker played by master investors? The answers pour out of The Golden Tap.

Black Swan Start-ups Sami Mahroum, 2016-05-11 This book explores startups that have thrived against the odds in places where startup success was deemed to be unlikely. Discussing a number of technology startups from around the world that have succeeded without state backing nor local venture and seed capital, Black Swan Start Ups provides unique insights into unsung models of

success beyond the two dominant narratives of Asia's 'Tiger Economies' and America's Silicon Valley miracle. The author describes these stories of success as 'black swan events' and ascribes their achievements to the ability of entrepreneurs to leverage the 'place surplus' of their locations, while building connections to support networks outside their immediate geographies. Including case studies such as Skype in Estonia, SoundCloud in Germany and Bayt.Com in Dubai, this insightful book gives a holistic and wide-ranging view of how technology startups have, and can, succeed in less likely places.

VUCA in Start-ups Dr. Aseem Chauhan, Prof. (Dr.) Manoj Joshi, Prof. (Dr.) Ashok Kumar & Suhayl Abidi, 2021-12-25 How to Thrive as a Start-Up in an Uncertain World What motivates a start-up in its journey? Wealth and fame? Or is it hunger for innovation? VUCA in Start-Ups attempts to capture a start-up's entrepreneurial journey and find out why some do well when others don't. It's a highly volatile environment out there for entrepreneurs and start-ups, thanks to the unprecedented Covid-19 crisis filled with volatility, uncertainty, complexity and ambiguity (VUCA). Many businesses that did well in the past had to shut shop as a result. So what went wrong? To find the answer, it's important to understand what worked in the past and why a new venture must discover fresh and innovative opportunities to survive. Learn from those who chose the road less travelled, including Zomato, Paytm, Flipkart, Ola Cabs and Quikr, and discover the underlying causes for start-up successes and failures. These well-researched case studies aim to inspire

those who wish to embark on an entrepreneurial journey.

Business models and key success drivers of agtech start-ups Lohento, Ken, Sotannde, Motunrayo, 2019-12-04 This interpretative phenomenological research focuses on youth-led companies offering digital services to the agrofood sector in West Africa. Youth is considered as per the African Union definition: individuals aged between 15 and 35 years old. Our research questions were to understand the business models adopted by these start-ups; how their business models and business model innovation lead to business success; other key drivers that can support the achievement of success. With this study, we aim to contribute to the limited existing body of knowledge on this nascent but growing business field in West Africa. Though focused on West Africa, analyses go beyond and are of interest to any stakeholders interested in this subject in Africa in particular.
