**Contrasting Rural and Urban Fatal Crashes, 1994–2003** Michael William Burgess, 2005 Data from the Fatality Analysis Reporting System (FARS) for the period 1994–2003 were used to compare the characteristics of fatal rural and urban crashes. The study found that there are approximately 42 percent more fatal crashes in rural areas compared to urban areas; however there are fewer vehicle miles traveled in rural areas than urban areas. In addition, fatal rural crashes are more likely to involve multiple fatalities, rollovers, and more trucks. Fatal rural crashes more often occur on curved roadways and have greater vehicle damage. Head-on crashes are more prevalent in rural areas than in urban areas. Finally, the length of time for emergency medical services to arrive at the scene is longer in rural areas than in urban areas.

*How Hip Hop Became Hit Pop* Amy Coddington, 2023 How did rap become the most popular genre in the United States, and what were the consequences of this subculture becoming part of the mainstream? In *How Hip Hop Became Hit Pop*, Amy Coddington examines the programming practices at commercial radio stations in the 1980s and early 1990s to uncover how this industry facilitated rap's introduction into the musical mainstream. Playing rap on the radio changed the sound of the genre, as artists negotiated expanding audiences and industry pressure to make songs that fit on the radio. But the effects of rap's mainstreaming were not one-sided. The genre altered the radio industry by bringing brought together large multicultural audiences, challenging the racial identity of the popular music mainstream. But within a few years, the very idea of the mainstream would be called into question, as radio programmers unsure of the genre's popularity wreaked havoc on the multicultural coalitions which rap had fostered—

*Zoonotic Viruses of Northern Eurasia* Dimitry Konstantinovich Lvov, Mikhail Yurievich Shchelkanov, Sergey Vladimirovich Alkhovsky, Petr Grigorievich Deryabin, 2015–05–25 *Zoonotic Viruses of Northern Eurasia: Taxonomy and Ecology* provides a review of modern data of the taxonomy, distribution, and ecology of zoonotic viruses in the ecosystems of Northern Eurasia. This leads to the appearance of emerging or re-emerging infections. This book presents data about circulation and evolution of influenza viruses, tick-borne encephalitis virus, West Nile virus, Crimean-Congo hemorrhagic fever virus, hantaviruses, Sindbis virus, California encephalitis group viruses and other pathogenic viruses as well as of novel viruses classified for the first time using next-generation sequence. Features summarized data about the circulation of approximately 80 viruses isolated in natural foci of Northern Eurasia Provides descriptions of the main ecosystems of Northern Eurasia in the context of the ecology of viruses with environmental factors Delineates the potential impact of climate change for the distribution of viruses Includes virus taxonomy, ecology, distribution and pathogenicity for humans and animals

**Complete Book of Urban Combatives** Lee Morrison, 2015-02-01 The Complete Book of Urban Combatives is based on what Lee Morrison teaches in his Urban Combatives (UC) curriculum. Morrison formed UC after 22 years of researching various Asian and Western methods of combat, incorporating the teachings of W.E. Fairbairn and E.A. Sykes, Charles Nelson, Geoff Thompson, Bob Kasper, and Kelly McCann, to name just a few. Morrison's reality-based UC is neither a sport nor an art. It is designed to counter street violence. Having been in his share of real blood-and-snot fights, first as a somewhat misguided youth and later as a doorman at pubs and nightclubs, Morrison knows that 30 seconds on the street is worth three years in the dojo any day of the week. His hard-earned experience also taught him that no one system has all the answers, necessitating that you keep an open mind and stay on the cutting edge of combatives. At UC, the essence of good self-protection is threefold: Master a few well-honed personal security concepts. Add a realistic understanding of your enemy. Gain an understanding of fear and how you will react under pressure. In this book, Morrison includes attribute-developing drills to help you develop these and other key combatives principles, as well as the combative mentality that must accompany every aspect of your training. The goal is to provide you with a functional game plan that can be tapered to your specific needs, whether for personal protection, or for law enforcement, military, or executive-protection duties.

**The Adventurist** Robert Young Pelton, 2001-07-31 The Adventurist is one man's story, a story that will change the way you think about travel, survival, where you have been, and where you are going. Enter the world of Robert Young Pelton (if you dare), adventurer extraordinaire, author of Come Back Alive and The World's Most Dangerous Places (required reading at the CIA), and host of his TV series, Robert Young Pelton's The World's Most Dangerous Places. A breakneck autobiography, The Adventurist blasts across six continents and spans four decades of hard-core living with its dispatches of mayhem, adventure in exotic locales, survival against formidable odds, memories of the pivotal events, and memorable portraits of the people that have shaped Pelton's obsessive spirit. Be shelled with the Talibs on the front lines of Afghanistan; hang out with hit men and rebels in the Philippines; survive a plane crash in Borneo; narrowly escape a terrorist bombing in Africa; dance with headhunters in Sarawak; crew with pirates in the Sulu Sea; explore the events that led Pelton to his unusual calling (including how he honed his survival skills at the toughest boys' school in North America); and, perhaps most important, discover Pelton's secret mission--to understand the hearts and minds of the people he meets. The Adventurist is a real book about the real world, an inspirational read that takes you places you might never willingly go.

**Young, Rich, and Dangerous** Jermaine Dupri, Samantha Marshall, 2008-12-30 A behind-the-scenes account of the platinum musical producer and songwriter traces his first productions as a teen, his education in the music business, and his experiences with such artists as Lil Jon, Mariah Carey, and Kriss Kross.

**The Drama of Dictatorship** Joseph Scalice, 2023-07-15 The Drama of Dictatorship uncovers the role played by rival Communist parties in the conflict that culminated in Ferdinand Marcos's declaration of martial law in 1972. Using the voluminous radical literature of the period, Joseph Scalice reveals how two parties, the PKP and the CPP, torn apart by the Sino-Soviet dispute, subordinated the explosive mass struggles of the time behind rival elite

conspirators. The PKP backed Marcos and the CPP, his bourgeois opponents. The absence of an independent mass movement in defense of democracy made dictatorship possible. The Drama of Dictatorship argues that the martial law regime was not fundamentally the outcome of Marcos's personal quest to remain in power but rather a consensus of the country's ruling elite, confronted with mounting social unrest, that authoritarian forms of rule were necessary to preserve their property and privileges. The bourgeois opponents of Marcos did not defend democracy but, like Marcos, plotted against it.

**General Aviation Security** Daniel J. Benny, Ph.D, 2012-08-16 After 9/11, the initial focus from the U.S. government, media, and the public was on security at commercial airports and aboard commercial airlines. Soon, investigation revealed the hijackers had trained at flight schools operating out of general aviation airports, leading to a huge outcry by the media and within the government to mandate security regulations for this flight sector. General Aviation Security: Aircraft, Hangars, Fixed-Base Operations, Flight Schools, and Airports examines the threats against general aviation (GA) and presents resources for security professionals and GA airport owners and operators to develop an impenetrable airport and aircraft security plan. Following an overview of general aviation and its inherent security threats, the book explores: Physical security for the aviation environment, including intrusion detection systems, cameras, locks, lighting, and window security The security force, including recruitment and training Security of general aviation aircraft and airports, including runway security and fuel storage Airport safety regulations such as the Workers Protection Act and the Bloodborne Pathogens Act Emergency response to a range of scenarios, including medical emergencies, fires, gas leaks, and bomb threats The security of hangars, fixed-base operations, and flight schools Corporate aviation security departments The book concludes with a study involving the Aircraft Owners and Pilots Association (AOPA) Airport Watch Program and the Transportation Security Administration (TSA) security requirements and recommendations for general aviation. General aviation supports public safety, business, agriculture, commercial airports, aeronautical education, and many aspects of the aviation industry. The book is the first to explore the unique security concerns relevant to general aviation operations. Dr. Daniel J. Benny was interviewed on video by General Aviation Security Magazine about his article concerning the effects of the Airport Watch Program.

*Black Man in the Netherlands* Francio Guadeloupe, 2022-01-04 Francio Guadeloupe has lived in both the Dutch Antilles and the Netherlands. An anthropologist by vocation, he is a keen observer by honed habit. In his new book, he wields both personal and anthropological observations. Simultaneously memoir and astute exploration, *Black Man in the Netherlands* charts Guadeloupe's coming of age and adulthood in a Dutch world and movingly makes a global contribution to the understanding of anti-Black racism. Guadeloupe identifies the intersections among urban popular culture, racism, and multiculturalism in youth culture in the Netherlands and the wider Dutch Kingdom. He probes the degrees to which traditional ethnic division collapses before a rising Dutch polyethnicity. What comes to light, given the ethnic multiplicity that Afro-Antilleans live, is their extraordinarily successful work in forging an anti-racist Dutch identity via urban popular culture. This alternative way of being Dutch welcomes the Black experience as global and increasingly local Black artists find fame and even idolization. *Black Man in the Netherlands* is a vivid extension of renowned critical race studies by such Marxist theorists as Achille Mbembe, Paul Gilroy, Stuart Hall, and C. L. R. James, and it bears a palpable connection to such Black Atlantic artists as Peter Tosh, Juan Luis Guerra, and KRS-One. Guadeloupe explores the complexities of Black life in the Netherlands and shows that within their means, Afro-Antilleans often effectively contest Dutch racism in civic and work life.

As part of the plan, three brilliant young predictive

historians in the Cassandra Group are assigned to devise a way to uncover the foreign nation's hidden ICBM launch sites. Cassandra has devised a way to locate these "missing" sites by supporting a spin-off group called The Searchers composed mostly of women with highly unusual talents and time-tested old fashioned strategies. But they work. Too well, perhaps. Then bad stuff happens and everything gets messy as each hidden launch site is located. Is The Cassandra Group helping or merely meddling with history? Does this information help with the president's negotiations? Or is it too late? Will both countries be hit hard? The Cassandra Group will tell you its truth—but you may not want to believe it.
