A History of Digital Currency in the United States P. Carl Mullan,2016-11-23 This book presents detailed case studies of the first commercial internet digital currency systems developed between 1996 and 2004. Transactions completed with the new technology circumvented all US financial regulations, an opening that transnational criminals exploited. Mullan explains how an entire industry of companies, agents, and participants turned a blind eye to crimes being committed in this unsupervised environment. He then tracks the subsequent changes made to US regulations that now prevent such unlicensed activity, illustrating the importance of supervising products and industries that arise from new disruptive technology. This book distills hundreds of hours of interviews with the creators and operators of early digital currency businesses to create detailed case studies of their practices.

New Castle County Police Department New Castle County Police Department,2013 The New Castle County Police Department has provided over a century of service to a county that continues to grow. In February 1913, two men were duly appointed and became the driving force of the New Castle County Rural Police. By the early 1930s, this small team evolved into an efficient police force. Today, the department has grown to be

one of the top law enforcement agencies in the country and is comprised of approximately 350 law enforcement officers. Members of the New Castle County Police Department have displayed tremendous courage and sacrifice in the line of duty. The dedicated men and women of the force continue to provide a positive and invaluable service to the diverse communities of New Castle County.

Thin Blue Fault Line - Policing America John C. Franklin,John F. Hein,2021-02-22

Authors Franklin and Hein have witnessed firsthand difficulties experienced in some black communities. They use their knowledge to analyze and discuss the interactions between American policing, a subculture of the black community and the BLM movement. The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men. It describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements, outbursts, and demonstrations. It begins with an examination of the differences between the black and white communities; how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another. Because of civil rights efforts American policing is going through a transformation. A change in policing tactics must be met with a re-evaluation of some cultural norms by the black community. They also discuss the lack of support by blacks shown to other blacks when there is an impression of being “not black enough.” The authors believe in political correctness, but also believe that political correctness is harming the black community, because well-recognized negative issues in some communities are not being addressed to avoid criticism of black culture. In the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself. Finally, the authors believe that American policing understands its 21st century obligations and is taking steps to meet them.

Fire Congress Irene Petteice, 2017-12-01 Is congress corrupt? *Fire Congress* names the corrupt persons and tells you their crimes. A congressman gets elected and becomes a very wealthy congressman by “making very wise investments.” Of course, they have some help from K Street. K Street is where the lobbyists are. When congressmen are not receiving checks from lobbyists for their campaign funds, they are going to work for lobbying firms at the end of their careers—that is if the congressmen are not in prison. Then, of course, there are all of the earmarks they are no longer supposed to have! Literally billions of dollars of earmarks are tacked onto bills, some frivolous, for stuff that would otherwise never get passed, just to garner votes from their own constituency.
