Code Like a Girl: Rad Tech Projects and Practical Tips Miriam Peskowitz,2019-08-13 Welcome to Code Like a Girl, where you'll get started on the adventure of coding with cool projects and step-by-step tips, from the co-author of the bestselling The Daring Book for Girls. Coding is about creativity, self-expression, and telling your story. It's solving problems and being curious, building things, making the world a better place, and creating a future. It's about you: whoever you are, wherever you're at, whatever you want. Nearly everything you encounter on a screen is made from code. You see, with code you can have an idea and put it into action: it's your voice and your vision. From the outside, tech and code may seem puzzling and mysterious, but when you get through the door and past the

first few beginner steps and your code starts to work, it feels like magic. In this book, you'll learn how to: - Code with Scratch--projects like making a dog walk through the park, sending your friend a card, and devising a full-scoring game! - Build your own computer--really! - Create your own digital fortune-teller, with the Python language. - Make your own smartphone gloves. - Make light-up bracelets. - Code a motion sensor that tells you when someone enters your room. - And lots more!

The Yearbook of South Asian Languages and Linguistics, The Yearbook of South Asian Languages and Linguistics (2006) Rajendra Singh,2006-11-29 South Asia is home to a large number of languages and dialects. The considerable body of linguists working on this region have made significant contributions to our understanding of language, society, and language in society on a global scale. Despite this, there is as yet no recognized international forum for the exchange of ideas amongst South Asian linguists. The YEARBOOK OF SOUTH ASIAN LANGUAGES AND LINGUISTICS is designed to be just that forum. It brings together empirical and theoretical research and serves as a testing ground for the articulation of new ideas and approaches which may be grounded in a study of South Asian languages but which have universal applicability. Each volume of this annual series will have four major sections: I. Invited contributions consisting of state-of-the-art essays on research in South Asian languages. II. Refereed open submissions focusing on relevant issues and providing various viewpoints. III. Reports from around the world book reviews and abstracts of doctoral theses. IV. A forum for dialogue; critiques; comments and discussions; reports on research activities; and conference announcements. In the words of the Editor-in-Chief, 'other than excellence and non-isolationism, we have no agenda and no thematic priorities'. This pioneering series will interest all those in the fields of sociolinguistics, language studies, grammar, literature and sociology.
