*Beisbol on the Air* Jorge Iber,2023-12-01 Both the U.S. population and Major League Baseball rosters have seen dramatic demographic changes over the past 50 years. The nation and the sport are becoming multilingual, with Spanish the unofficial second language. Today, 21 of 30 MLB teams broadcast at least some games in Spanish. Filling a gap in the literature of baseball, this collection of new essays examines the history of the game in Spanish, from the earliest locutores who called the plays for Latin American audiences to the League's expansion into cities with large Latino populations--Los Angeles, Houston and Miami to name a few--that made talented sportscasters for the fanaticos a business necessity.

**Viewers Like You** Laurie Ouellette,2002-09-17 How public is public television if only a small percentage of the American people tune in on a regular basis? When public television addresses viewers like you, just who are you? Despite the current of frustration with commercial television that runs through American life, most TV viewers bypass the redemptive oasis of the wasteland represented by PBS and turn to the sitcoms, soap operas, music videos, game shows, weekly dramas, and popular news programs produced by the culture industries. *Viewers Like You?* traces the history of public broadcasting in the United States, questions its priorities, and argues that public TV's tendency to reject popular culture has undermined its capacity to serve the people it claims to represent. Drawing from archival research and cultural theory, the book shows that public television's perception of what the public needs is constrained by unquestioned cultural assumptions rooted in the politics of class, gender, and race.

*Constructing Postmodernism* Brian McHale,2012-11-12 Brian McHale provides a series of readings of a wide range of postmodernist fiction, from Eco's *Foucault's Pendulum* to the works of cyberpunk science-fiction, relating the works to aspects of postmodern popular culture.

**The Peninsula Question** Yoichi Funabashi,2008-09-01 In October 2002 the United States confronted North Korea with suspicions that Pyongyang was enriching uranium in violation of the Agreed Framework that the nations had worked out during the Clinton administration. North Korea subsequently evicted international monitors and resumed its nuclear weapons program. The *Peninsula Question* chronicles the resulting second Korean nuclear crisis. Japanese journalist Yoichi Funabashi, informed by interviews with more than 160 diplomats and decision makers from China, Japan, Russia, South Korea, and the United States, provides a behind-the-scenes look at the negotiations to denuclearize the peninsula. Between 2002 and 2006, a series of top level diplomats, including the prime minister of Japan, attempted to engage with North Korea. Funabashi illustrates how the individual efforts of these major powers laid the groundwork for multilateral negotiations, first as the trilateral meeting and then as the Six-Party Talks. The first four rounds of talks (2003-2005) resulted in significant progress. Unfortunately, a lack of implementation after that breakthrough ultimately led to North Korea's missile tests in July and subsequent nuclear tests in October 2006. The *Peninsula Question* provides a window of understanding on the historical, geopolitical, and security concerns at play on the Korean peninsula since 2002. Offering multiple perspectives on the second Korean nuclear crisis, it describes more than just the U.S. and North Korean points of view. It pays special attention to China's dealings with North Korea, providing rare insights into the decision-making processes of Beijing. This is an important, authoritative resource for understanding the crisis in Korea and diplomacy in Northeast Asia.

**Screwball Television** David Scott Diffrient,David Lavery,2010-04-13 Bringing together seventeen original essays by scholars from around the world, *Screwball*

Television offers a variety of international perspectives on *Gilmore Girls*. Adored by fans and celebrated by critics for its sophisticated wordplay and compelling portrayal of a mother-daughter relationship, this contemporary American TV program finally gets its due as a cultural production unlike any other, one that is beholden to Hollywood's screwball comedies of the 1930s, steeped in intertextual references, and framed as a kinder, gentler kind of cult television series in this tightly focused yet wide-ranging collection. This volume makes a significant contribution to television studies, genre studies, and women's studies. *Screwball Television* seeks to bring *Gilmore Girls* more fully into academic discourse not only as a topic worthy of critical scrutiny but also as an infinitely rewarding text capable of stimulating the imagination of students beyond the classroom.

**Contemporary Television Series** Silvia Branea, Bianca Mitu, 2014-06-19 *Contemporary Television Series: Narrative Structures and Audience Perception* proposes an interdisciplinary and multicultural approach of old concepts like fiction, reality and narrativity applied to actual worldwide television series. The authors that have contributed to this volume analyze the almost invisible barriers between fiction and reality in television series from different perspectives. The results of their studies are extremely interesting and revealing. The new perspectives offered by this volume will be of great interest to any scholar of European and international studies, because they bring to light new ideas, new methodologies and results that could be further developed. This volume allows readers to explore these unique insights, even if they are not senior researchers, and to easily digest the content, and also to acknowledge the impact of the viewing of television series on reality and on their own lives.

**The Alphabet Soup of Television Program Ratings** Bradley S. Greenberg, Lynn Ann Rampoldi Hnilo, Dana Mastro, 2001 This volume contains the responses of thousands of parents and young people to the age-based and content-based television ratings. It reports on the analyses of ratings from several thousand TV shows, identifying the process by which these ratings came into being.

**The Sitcom Reader** Mary M. Dalton, Laura R. Linder, 2005-10-06 Offers a variety of perspectives on the sitcom genre and its influence on American culture.

**Hi There, Boys and Girls!** Tim Hollis, 2010-01-06

**Directed by God** Yaron Peleg, 2016-09-13 As part of its effort to forge a new secular Jewish nation, the nascent Israeli state tried to limit Jewish religiosity. However, with the steady growth of the ultraorthodox community and the expansion of the settler community, Israeli society is becoming increasingly religious. Although the arrival of religious discourse in Israeli politics has long been noticed, its cultural development has rarely been addressed. *Directed by God* explores how the country's popular media, principally film and television, reflect this transformation. In doing so, it examines the changing nature of Zionism and the place of Judaism within it. Once the purview of secular culture, Israel's media initially promoted alternatives to traditional religious expression; however, using films such as *Kadosh*, *Waltz with Bashir*, and *Eyes Wide Open*, Yaron Peleg shows how Israel's contemporary film and television programs have been shaped by new religious trends and how secular Israeli culture has processed and reflected on its religious heritage. He investigates how shifting cinematic visions of Jewish masculinity and gender track transformations in the nation's religious discourse. Moving beyond the secular/religious divide, *Directed by God* explores changing film and television representations of different Jewish religious groups, assessing what these representations may mean for the future of Israeli society.

**The Invisible Bridge** Rick Perlstein, 2015-08-11 The best-selling author of *Nixonland* presents a portrait of the United States during the turbulent political and economic upheavals of the 1970s, covering events ranging from the Arab oil embargo and the era of Patty Hearst to the collapse of the South Vietnamese government and the rise of Ronald

Reagan.

Religion, Law, and Freedom Yahya Kamalipour, Joel Thierstein, 2000-09-30 Religion, Law, and Freedom: A Global Perspective introduces readers to diverse perspectives on the interplay of religion, law, and communications freedom in different cultures around the world. Through discussion and analysis of the religious mores and cultural values that a nation adheres to, a greater understanding of that nation, its laws, and its freedoms can be cultivated. Rather than suggesting that harmony can be achieved without conflict, the essays in this volume seek to present the reader with a variety of perspectives from which to view and understand the relationships among religion, law, and freedom in various cultures. This multifaceted analysis, therefore, helps readers draw their own conclusions as to the best way to resolve cultural conflict brought about by the growing global community. The book consists of fifteen chapters, authored or coauthored by 17 international scholars representing China, Germany, Israel, Iran, Japan, Latvia, Nigeria, Singapore, the United Kingdom, and the United States. The chapters are organized into four parts: Perspectives on Eastern and Western Religions; Press Freedom in Religious and Secular Societies; Journalism, Advertising, and Ethical Issues; and Religion, Politics, Media, and Human Rights. This important contribution will especially appeal to researchers and students in such fields as mass communications, legal studies, cultural studies, political science, religion, intercultural communications, international communications, and journalism.

Radio and Television Broadcasting on the European Continent Burton

Paulu, 1967-10-30 Radio and Television Broadcasting on the European Continent was first published in 1967. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. In this book Dr. Paulu provides a comprehensive survey based on firsthand study of the development and current status of radio and television broadcasting in continental Europe. He discusses the technical, organizational, financial, and programming aspects of European broadcasting in both Communist and Western countries. The material is organized, not on a country-by-country basis, but as it relates to broad basic issues, and it is presented in a framework of such interrelated factors as geography, history politics, international relations, religious traditions, language, national economic standards, and cultural and social life. The broadcasting systems studied include those of the Soviet Union and other Communist countries, France, West Germany, Belgium, the Netherlands, Italy, Sweden, and Switzerland. The account is particularly timely in view of the concern and discussion about the future course of broadcasting in the United States. It has relevance not only for communications specialists but for political scientists and other scholars in the social sciences as well as for the growing public which is interested in the improvement of American broadcasting.

Mothering in the Age of Neoliberalism Giles Melinda Vandenbeld, 2014-03-01

Neoliberal policies and austerity measures have unequivocally altered the landscape of women's lives globally. The most detrimental effect has been on mothers as they are faced with increasing responsibility and decreasing resources. Despite mothers being the primary producers, consumers, and repro- ducers of the neoliberal world, their centrality has been largely silenced within economic discourse. Thus, Mothering in the Age of Neoliberalism calls for a new economic framework to counter the individualized neoliberal model, one in which the needs of mothers and children are prioritized. This volume provides a crucial starting point. By identifying the sources of neoliberal failure toward mothers, we can begin to collectively formulate an alternative paradigm in which mothers'

voices are no longer rendered invisible, but rather predominate in the global landscape.
