Black Belt Sal Convento, 2014-05-21 My name is Sal Convento. I was born in Manila, Philippines, the youngest of thirteen children. I came to the United States at the age of eight and began my Martial Arts training at age 13. Currently, I am a Fourth Degree Master Instructor in World Tang Soo Do and Fourth Degree Black Belt in Karate Do. I am a two-time World Champion in the art of World Tang Soo Do. I am owner and Chief Instructor of the United States Karate Academy in San Diego, California. I graduated from the United States Naval Academy and served ten and a half years as a Surface Warfare Officer and Naval Aviator. I have a Master's degree in Executive Leadership from the University of San Diego. This is my personal story of how the Martial Arts became the foundation of my successes. It is based on more than 28 years of Martial Arts experience teaching children and adults. I offer my insights and opinions based on my successes, challenges, and failures of how Martial Arts have greatly impacted my life. My hope is that it will do the same for you. I want you the reader to know you can achieve a Black Belt! The experience will change your life. I present 13 character-building weapons to help you earn your Black Belt but more importantly, to help you become a champion in life. I share with you the many benefits of a Martial Arts education and training with the hopes that you will one day achieve the rank of Black Belt. I guarantee with 100 percent certainty that with a Black Belt, you will be more disciplined, have greater confidence in yourself, and be

better equipped to persevere through life's challenges. Earning a Black Belt helps us as individuals to truly be our best. And, when you are at your best, you become a more productive member of our society. It is my bold vision that all students in America will achieve a Black Belt by the time they graduate high school. I believe this will greatly impact our society.

Karate-Do A.O. Mercado,2012-05-31 In *KARATE-DO The Art of Defense*, Mercado covers a plurality of the karate fundamentals. In addition, this book has two chapters he considers very unique. Chapter II (Diagram and Medical View of

the Vital Points) informs the practitioner of the combative and safety points. Chapter X (Nutrition Produces Performance) deals with the benefits of nutrition to the karate practitioner and also to the person interested in the value of nutrition. Chapter II (Diagram and Medical View of the Vital Points) "It is imperative that all serious practitioners should familiarize themselves with the locations of these vital points." - Dr. Steven C. Hannah, M.D. "The practicing beginner or advanced karateka will find the foundation provided in this book an invaluable source to obtain a first degree black belt or higher." - Austin Box Founder, Hana-Dai Ichi Karate Association Foreword by Austin Box, inducted member of the United States Martial Arts Hall of Fame (Native American Grandmaster of the year).

Hajime Antonio (Tone) Resende, 2013-09-16 For several years, I have wanted to write the history of karate in Southeastern Massachusetts. However, there always seemed to be other priorities that distracted my focus. In 2009 I retired from my position as a police detective, and having been retired from the armed forces, I now had no legitimate reason not to devote as much time as possible to such a good karate ideawell, except for a brief period of hospitalization due to a serious surgery that kept me hospitalized for twenty-seven days and then at home for three weeks under nurses care with months of recovery. Karate history, in general, is, in some cases, somewhat obscured, including in the United States. I am willing to bet that not many people have thought of or proceeded to put in writing any historical account

of karate in specific communities of the United States other than the Armed Services Judo and Jujitsu Academy in Pensacola, Florida, and the paper Helium by Can Tran. There are a number of historical writings as to how karate was introduced to the United States; however, I have not come across any historical account that takes us from Japan to the United States and to a particular community. There are also a number of historical accounts, but only pertaining to individual organizations or instructors. For this reason, I decided that this may spark the interest of other practitioners of martial arts to write factual accounts to the best of their abilities so that other young martial artists may draw some knowledge from these written facts or events. Even if this does not occur, at least the Shotokan practitioners can have some guidance as to the historical facts, at least in a certain US community. The reason I emphasize the Shotokan practitioners is because I have a greater involvement with the Shotokan system of karate. Perhaps this can be used as the basis of historical research or studies, especially among the college clubs and even dojos. I hope to keep your interest from beginning to end as I will cover a short history of karate in general and Shotokan karate to the history of karate in Southeastern Massachusetts. This will also be useful in recognizing specific individuals, masters, and instructors that deserve the credit and acknowledgment since karate remains a sport with less recognition compared to other sports. As Gichin Funakoshi often reminded his students, The spirit of karate-do is lost without courtesy. Therefore, this

written account expresses the acknowledgment of those who brought karate to us, beginning at the grass roots of the communities, for this is how it manifested to national participation. This is one courtesy we often forget; it is like not knowing, or forgetting, where we come from. So often I have come across karate practitioners that are black belts and instructing karate classes and they do not know much, if anything, about how and where karate began and how it spread to all parts of the world. Sure, if you should ask any person with some karate interest as to where karate originated and how it spread, they almost always give the basic knowledge that it started from Dharma in India to China to Okinawa but not a whole lot more than that. In Japan, karate is a culture, not just instructions on how to kick and punch. As to this, I quote Funakoshi's writing: The ultimate aim of Karate lies not in victory or defeat, but in the perfection of the character of the participant. Through this, there are a number of dojo kun to be followed, and the five most important are the following: seek perfection of character, be faithful, endeavor to excel, respect others, and refrain from violent behavior. These are usually found posted on a wall in the dojo. Additional dojo kun will be listed at the end of the book in both Japanese and English.

Kwon Bup American Karate Alton Case, 2014-01 Kwon Bup means 'Fist Method, ' it was developed by Sensei Robert. J. Babich, the head instructor of the Kang Duk Won in San Jose during the 1960s and 1970s. The Kang Duk Won (House for Espousing Virtue) was one of the most prestigious martial arts schools in the United States. Students were constantly pursued as instructors, and the quality of the art was far above other martial arts schools of the time.

Sensei Babich was unique in that he could actually perform 'The One Finger Trick, ' which is to thrust his finger through a board and leave a hole. The material in this book, Kwon Bup, was developed by him, after intense work with his senior black belts. It was recorded by Al Case, one of his students and a black belt from that era. Here are the forms, the techniques, and the incredibly valuable information that made this art superior. Much of this information is simply not known in the martial arts of the modern era. About the Author: Al Case began Martial Arts in 1967. He became a writer for the martial arts magazines in 1981, and had his own column (Case Histories) in Inside Karate. Currently, he resides on a mountain top in Southern California where he is building a Martial Arts temple.

The Making of a Butterfly Phillip Starr, 2006-04-07 The only American heir to W. C. Chen, Phillip Starr continues the master's teachings in this useful guide that also profiles the exciting early years when martial arts were still new in America. Through this entertaining collection of personal anecdotes involving Master Chen, the author, and his classmates, readers learn a particular aspect of the traditional martial arts. Included are explanations of the importance and meaning of courtesy and the custom of

bowing, the significance of training with weapons and how it impacts bare-handed skills, and the value of traditional forms and how they relate to actual combat.

Hidden Hands Phillip Starr, 2010-11-23 The solo forms or sets of a martial art may appear to be merely flashy performances or rote exercises for conditioning, and because of this many students disregard this aspect of their training. True martial arts masters, however, know that the forms of a

system actually contain all of the techniques and secrets of that system—if one knows how to look for them. Often called the “great books” of martial arts, forms are crucial for a deeper understanding of the art one practices. In *Hidden Hands*, Phillip Starr provides detailed instruction in the art of reading martial arts forms: by first mastering rudimentary “words” (individual techniques) and then moving on to simple “sentences” (combinations of techniques), the student will come to understand forms as ancient documents that contain the true essence of their art. Starr discusses different aspects of forms practice such as rhythm, timing, spirit, and performance, and presents specific guidelines for interpreting the movements of various forms. The book ends with the dissection and interpretation of a complete form. Containing examples from Chinese, Japanese, Okinawan, and Korean martial arts, *Hidden Hands* shows serious practitioners how to improve in any art and style.
