Women Marines Peter A. Soderbergh,1992-07-22 The nexus of this study lies in the recollections of 146 Women Reservists who served in the U.S. Marine Corps during World War II and who were surveyed by Peter Soderbergh in 1990 and 1991. Soderbergh's purposes were (1) to gather primary data before it was lost; (2) to cast the women's experiences in the social context of their time; (3) to contrast the role of women in the armed forces of the 1940s with the role they play today; (4) to give these female pioneers a voice that speaks to current generations about values, relationships with male counterparts, patriotism, and competence; and (5) to provide a yardstick with which we may measure how much, if any, progress women have made in our patriarchal society over the past half-century. His study provides a social chronicle of a little-studied facet of U.S. military and women's history. The basic purpose of the book is to pay tribute to the women of the World War II generation who were courageous enough to join the newly created military auxiliaries. It is the only study of its kind done on Women Reservists in the U.S. Marine Corps during World War II. There have been official histories written by female Marine officers, but this is the first social history. The oral histories of these women add a dimension to our understanding of what life was like for Women Reservists. These women, most of them now in their seventies, come alive as they share their experiences openly, express their feelings candidly, and remember the good war vividly. The book includes many vintage photographs from the 1943-1946 period. Women who have or are serving in the military and their families, those interested in women's studies, and students of the military will be especially interested in this volume.

Taking Haiti Mary A. Renda,2004-07-21 The U.S. invasion of Haiti in July 1915 marked the start of a military occupation that lasted for nineteen years--and fed an American fascination with Haiti that flourished even longer. Exploring the cultural dimensions of U.S. contact with Haiti during the occupation and its aftermath, Mary Renda shows that what Americans thought and wrote about Haiti during those years contributed in crucial and unexpected ways to an emerging culture of U.S. imperialism. At the heart of this emerging culture, Renda argues, was American paternalism, which saw Haitians as wards of the United States. She explores the ways in which diverse Americans--including activists, intellectuals, artists, missionaries, marines, and politicians--responded to paternalist constructs, shaping new versions of American culture along the way. Her analysis draws on a rich record of U.S. discourses on Haiti, including the writings of policymakers; the diaries, letters, songs, and memoirs of marines stationed in Haiti; and literary works by such writers as Eugene O'Neill, James Weldon Johnson, Langston Hughes, and Zora Neale Hurston. Pathbreaking and provocative, Taking Haiti illuminates the complex interplay between culture and acts of violence in the making of the American empire.

Embarrassing Confessions of a Marine Lieutenant Donny O'Malley,2015-10-08 A Marine Infantry Officer confesses his lust for killing and f cking everything in sight, his desire to beat his boss's face in and frag the battalion staff, his willingness to risk Afghan civilians in order to save Marines, his burning desire to win a game of gay chicken at all costs, his personal mission to nail the combat reporter who joined his unit, his sexual arousal at the sight of ED (Enemy Death), and his inability to take serious things seriously; while planning and executing the last combat operation of his

deployment in Afghanistan; a nighttime helicopter raid named, Operation Branding Iron Part 2.1A. (Continued from National Geographic's Battlefield Afghanistan) This is undoubtedly the most honest and raw account of an Officer's thoughts and actions during combat that has ever been written. After publishing this book, Donny O'Malley's job options are now reduced to low level sales and day labor construction. It is still unclear how he ever made it out of the Marines without court martial. Senior officer's will slam him, military historians will be shocked, and all civilians will be 100% certain he's psychotic. Fortunately, the book is written for the opposite of those mentioned above. It's written for Enlisted guys. Officers who are brave enough to read will either cry themselves to sleep, jerk themselves off to Donny's picture, or will ask their buddies to write them up for an award with V for having the moral courage to finish the book. This book is a reach-around to all enlisted, and a F CK YOU to every Officer who has ever written a politically correct, full-of-shit, I'm a great leader, book about combat. Every single one of those fucking jerkoffs wrote a book for civilians that not a single enlisted guy ever gave two-shits about. The truth is that Marines love killing more than they love pussy; they fantasize about mowing down insurgents with a 240 on post while 70 virgins take turns blowing them. This is who we are, and I'm sick and tired of nerdy book writers hiding our reality from the public. Fuck the public, they'll judge us and say we're psychotic until they watch an ISIS beheading video, and then they'll beg us to come out of our cage to fight the bad guys. At which time we'll head to the front line of evil and kill them all with a smile. Enjoy the read my brothers, this one's for you.

Hachi Nana Go Gary T. O'Neil, 2010-02-11 This complete 28 year history of a commissioned Navy Destroyer (USS Henry W. Tucker DD-875) was a member of the Asiatic Squadron. The Title HACHI NANA GO is Japanese for the hull number 875. Stationed in Yokosuka and visiting many ports of call, the crew would hear the familiar Hey Hachi Nana Go from Bar owners and shop keepers as they would go into town on Liberty.

Det One John P. Piedmont, 2010 From the Foreword: The story of the Marine Corps U.S. Special Operations Command Detachment, which became known as Det One, is an extraordinary tale. On its face, the story would not rate a minute's glance. One small group of Marines, about a hundred in number, formed, trained, and went to war. This all happened as the nation was 18 months into the Global War on Terrorism and as the Marine Corps was deploying I Marine Expeditionary Force in Operation Iraqi Freedom. Yet the story behind the basic facts is not only far more intricate and fascinating, with dramatic episodes and intrepid characters from the Pentagon to Camp Pendleton, it portended great significance for the Marine Corps. What makes the Det One story extraordinary is the shift in Marine Corps policy that brought it about, the maturation of the special operations capabilities of forward-deployed Marine expeditionary units that made it possible, and the patriotism, valor, fidelity, and abilities of the Marines and Navy Corpsmen who manned it. Although Det One has passed now into the history books, its legacy survives in the formation of Marine Corps Special Operations Command and in the lessons learned and experiences of its members, who now continue to serve in dozens of units. Lieutenant Colonel John P. Piedmont Marine Field Historian in Iraq in April 2004, saw the historical significance of Det One and decided to pursue its history as a project. Under the director of the History and Museums Division at the time, Colonel John W. Ripley, he was given permission to proceed with his collections with a view toward turning them into a monograph. What follows here is the culmination of his efforts, the product of two years' work, more than 60 interviews done in Iraq, Washington, D.C., Virginia, and California, and the collection of hundreds of documents.--Dr. Charles P. Neimeyer.

Hue 1968 Mark Bowden, 2017-06-06 The author of *Black Hawk Down* vividly recounts a pivotal Vietnam War battle in this New York Times bestseller: "An extraordinary feat of journalism". —Karl Marlantes, *Wall Street Journal* In *Hue 1968*, Mark Bowden presents a detailed, day-by-day reconstruction of the most critical battle of the Tet Offensive. In the early hours of January 31, 1968, the North Vietnamese launched attacks across South Vietnam. The lynchpin of this campaign was the capture of Hue, Vietnam's intellectual and cultural capital. 10,000 troops descended from hidden camps and surged across the city, taking everything but two small military outposts. American commanders refused to believe the size and scope of the siege, ordering small companies of marines against thousands of entrenched enemy troops. After several futile and deadly days, Lieutenant Colonel Ernie Cheatham would finally come up with a strategy to retake the city block by block, in some of the most intense urban combat since World War II. With unprecedented access to war archives in the United States and Vietnam and interviews with participants from both sides, Bowden narrates each stage of this crucial battle through multiple viewpoints. Played out over 24 days and ultimately costing 10,000 lives, the Battle of Hue was by far the bloodiest of the entire war. When it ended, the American debate was never again about winning, only about how to leave.
