America's Marines provide a large range of capabilities for the modest investment of our nation's scarce resources. In the most recent months and years, in locations all over the globe -Pakistan, Haiti, the Caribbean, the U.S. Gulf Coast, South America, the Gulf of Aden, the Philippines, and Afghanistan - Marine Corps forces were either engaging with our allies, conducting full spectrum counter-insurgency operations, enabling the Joint Force and Interagency Non-governmental Agency elements, providing humanitarian assistance and disaster relief, deterring aggression or contributing to assured access. Today's Marine Corps is a middleweight force. We fill the void in our nation's defense for an agile force that is comfortable operating at the high and low ends of the threat spectrum or the more likely ambiguous areas in between. We will continue to support our national objectives in Afghanistan. Concurrently, we will modernize, reset and reconstitute our equipment in order to provide a balanced air-ground-logistics team that is forward deployed and forward engaged; shaping, training, deterring and responding to a wide variety of global crises and contingencies. This is a privately authored news service and educational publication of Progressive Management.

U.S. Marine Close Combat Fighting Handbook United States Marine Corps, Today's Marines operate within a continuum of force where conflict may change from low intensity to high intensity over a matter of hours. Marines are also engaged in many military operations other than war, such as peacekeeping missions or noncombatant evacuation operations, where deadly force may not be authorized. During non-combatative engagements, Marines must determine if a situation warrants applying deadly force. Sometimes Marines must decide in a matter of seconds because their lives or the lives of others depend on their actions. To make the right decision. Marines must understand both the lethal and nonlethal close combat techniques needed to handle the situation responsibly without escalating the violence unnecessarily. Marine Corps Reference Publication (MCRP) 3-02B, Close Combat, provides the tactics, techniques, and procedures of Marine Corps close combat. It also provides the doctrinal basis for the Marine Corps Close Combat Training Program (MCCCTP). This manual contains the following chapters: Overview of Close Combat 1. Purpose of Close Combat 2. Continuum of Force 3. Marine Corps Tactical Concepts Chapter 1. Fundamentals of Close Combat 1. Ranges of Close Combat 2. Weapons of the Body 3. Target Areas of the Body 4. Pressure Points of the Body 5. Basic Warrior Stance 6. Angles of Approach and Movement 7. Balance and Off-Balancing 8. Falls Chapter 2. Lethal and Nonlethal Weapons Techniques 1. Bayonet Techniques 2. Nonlethal Rifle and Shotgun Retention Techniques 3. Nonlethal Handgun Retention Techniques 4. Firearm Disarmament Techniques Chapter 3. Hand-Held Weapons 1. Fundamentals of Knife Fighting 2. Knife Fighting Techniques 3. Weapons of Opportunity 4. Fundamentals of Combative Stick 5. Combative Stick Techniques 6. Blocking Techniques 7. Marines Under Armor Kenneth Estes, 2013-04-11 In this story of men, machines and missions, Kenneth Estes tells how the U.S. Marine Corps came to acquire the armored fighting vehicle and what it tried to do with it. The longtime Marine tank officer and noted military historian offers an insider's view of the Corps's acquisition and use of armored fighting vehicles over the course of several generations, a view that illustrates the characteristics of the Corps as a military institution and of the men who have guided its development. His book examines the planning, acquisition, and employment of tanks, amphibian tractors, and armored cars and explores the ideas that led to the fielding of these weapons systems along with the doctrines and tactics intended for them, and their actual use in combat. Drawing on archival resources previously untouched by researchers and interviews of both past and serving crewmen, Estes presents a unique and unheralded story that is filled with new information and analysis of the armored vehicles, their leaders, and the men who drove these steel chariots into battle. Such authoritative detail and documentation of the decisions to acquire, develop, and organize armored units in the U.S. Marine Corps assures the book's acknowledgement as a definitive reference.

Small Wars Manual United States Marine Corps,2023-11-23 The Small Wars Manual is a manual on tactics and strategies for engaging in certain types of military operations created by the United States Marine Corps. The purpose of this work is sharing experience and preserving the achievements of tactics and organization of small wars, or different military operations of the United States in countries where government is unstable, inadequate, or unsatisfactory for the preservation of life and of such interests as are determined by the foreign policy of the United States. The book starts with the definition of the term small war and continues into more than 500 pages on tactics, personnel structure, communication chain, transportation and logistics, military-civil relationship, psychological side of war, training, and support of native armed organizations and much more. The book is extremely interesting as a manual on tactics, whether it is used for a military operation or any other sort of massive campaign involving a large part of population, like elections. For example, it contains a chapter telling how to plan and organize legally the disarmament of local population. It tells what laws should be issued and what organizations form, what sort of personnel should be involved and what should be their roles. A reader will find guidelines on how to distribute and spare resources needed for a campaign, and how to properly cross a river in a dangerous area. Given the book's organization, structure and abundance of important information, covering different aspects of civil and military campaigns, this volume is a must-read for any person engaged in a state service or a student considering career in serving their country.

McMap Marine Corps Martial Arts Program Usmc,2013-12 The Marine Corps Martial Arts Program (MCMAP) is a combat system developed by the United States Marine Corps to combine existing and new hand-to-hand and close quarters combat (CQC) techniques with morale and team-building functions and instruction in the Warrior Ethos. The program, which began in 2001, trains Marines (and U.S. Navy personnel attached to Marine units) in unarmed combat, edged weapons, weapons of opportunity, and rifle and bayonet techniques. It also stresses mental and character development, including the responsible use of force, leadership, and teamwork. The techniques used by MCMAP vary in degrees of lethality, allowing the user to select the most appropriate (usually the least) amount of force. For example, a Marine facing a nonviolent but noncompliant subject can use an unarmed restraint to force compliance with minimal damage and pain. A more aggressive subject could be met with a choke, hold, or a strike. Lethal force can be used on a subject as a last resort. The majority of techniques can be defensive or offensive in use, with or without a weapon; allowing Marines flexibility in combat and operations other than war (such as civil control or humanitarian missions, as well as self-defense).

US Marine Corps in Vietnam David Doyle,2021-09-28 The March 1965 landing of the US Marine Corps at Da Nang, South Vietnam, marked the first large-scale deployment of US forces to the region. From then on, the Marine Corps fought continuously until May 1975, when two Marines became the last US servicemen killed in that war during the Mayaguez battle. With over 200 archival photos, many never before published, the weapons, vehicles, and equipment of the Marines in theater are documented in this volume. Small arms, mortars and artillery, tanks, amphibious, armored and soft-skinned vehicles, helicopters, uniforms, and personal and specialist equipment are featured in superb-quality photos and detailed captions, including photos from such legendary Marine Corps battles as Hue and Khe Sanh.

Among Heroes Jack R. Ainsworth,2011 Jack Ainsworth's account tells the story of the Company C's ordeal, from the landing on 15 September to the withdrawal of its shattered remnant from the front line five days later. It is often written in the present tense, as the fighting raged around him. ... Ainsworth's account is not only a unique combat narrative. It is also an important historical document that adds previously unknown details to our understanding of the battle itself, from the narrow but intense perspective of one rifle company of the 1st Marines. --From Preface.

LAV-25 James D'Angina,2011-11-20 The Light Armored Vehicle 25 (LAV-25) has played a significant role in transforming United States Marine Corps doctrine since its introduction in the early 1980s. The Marine Corps' Light Armored Vehicle program was based on the proven Swiss MOWAG Piranha series of 4x4, 6x6, and 8x8 wheeled vehicles. However, developing organizational units, tactics, and employment of the weapon system within the force structure of the Marine Corps proved to be more of a challenge than fielding the weapon system. This resulted in multiple re-designations for LAV units within the Corps. The LAV first saw combat in Panama during Operation Just Cause and LAV-25s have fought in every major conflict since, including Operation Enduring Freedom, and Operation Iraqi Freedom. This book covers the design, development, and deployment of this continually successful vehicle.

The History of Marine Corps Competitive Marksmanship Maj. Robert E. Barde,1961 A historical look at the illustrious Marine Corps Marksmanship teams Major Barde's extensively researched and footnoted book is considered the definitive text on the history of the US Marine Corps shooting programs. This detailed examination of the era from 1901 thru 1962 covers all of the most famous matches, both U.S. and internationally-based. You'll learn about the most famous marksmen of each era and how they contributed to the Marines' legacy as the winningest service branch in U.S. competitive shooting. A must-have edition for any Marine Corps shooting competitor or those with an interest in American shooting competition history. • U.S. and International matches • Olympics participation • Vintage shooting positions • Team-based competition • Automatic weapon marksmanship • The Krag, Springfield, and Garand in competition • Equipment tricks and maintainance • Amusing stories and anecdotes Numerous appendices give information on the most coveted awards and trophies, such as the Lauchheimer, Elliot Trophy, Lloyd Trophy, San Diego Trophy, The Holcomb, Edson and many more. Generously illustrated with historical photos from every era. This edition features a new Foreword by former Marine Shooting team competitor/coach MSgt Jim Owens. It is in this historical record you will find many clues to the US Marines eternal emphasis on rifle marksmanship as a key tenet of their organization. Commandant Gen. David M. Shoup said it best in his Preface to this book: The triumphs and the defeats at Camp Perry, Wakefield, and Sea Girt played a fundamental part in the training and molding of combat Marines. The firing lines of these famous ranges produced shooters and techniques that augured well the successful battles of France, Nicaragua, Haiti, the Pacific Isles and Korea.

World War II US Marine Infantry Regiments Gordon L. Rottman,2018-07-26 The United States Marine Corps came into its own in the Pacific Islands campaign against Japan in World War II. From Guadalcanal to Okinawa, US Marines formed the tip of the spear as Allied forces sought to push the Japanese back to their Home Islands. This fascinating study tracks the deployments of the various Marine divisions throughout the war and explains their composition, but also goes deeper, to detail the individual regiments – the focus of the marines' identity and pride. It explains the organization of the Marine infantry regiment and its equipment, and how they evolved during the war. The marine infantryman's evolving uniforms, field equipment and weapons are illustrated throughout using specially commissioned artwork and detailed descriptions to produce a fitting portrait of the US military's elite fighting force in the Pacific.
