

Uta Rider

B Lingard

Uta Graf Worry-Free Dressage Uta Grf,Friederike Heidenhof,2016 At last the dressage world has a sensible means of reconciling classical idealism with show-ring aspirations. In these pages, Gräf shares her schooling exercises, as well as the techniques she uses to incorporate groundwork, long-lining, trail riding, creative play, bombproofing, and turnout in her training program. The result is dressage that makes reaching your riding goals look and seem easy while ensuring a healthy, contented horse. --

The Pony Express in Utah Patrick Hearty,Dr. Joseph Hatch,2015-04-06 The Pony Express stands out in the history of the American West, memorable and captivating for the romance and adventure it evokes. The image of the intrepid young rider on a fast horse, crossing mountain and desert with his precious cargo of mail, is known and loved around the world as an icon of the Western frontier. Although its service was short, only about 19 months, its mystique seems to continue to grow after more than 150 years. Utah and the Pony Express were vital to each other. Salt Lake City was the major center of population between the Missouri River and the West Coast. Utah-bred men managed the line, rode the Express horses, and kept vigil at the lonely desert stations. This book tells the stories of those men and those stations, as well as advancements in communication and the celebrations that have kept the memory of the Pony Express in Utah alive.

Fine Riding on motivated Horses Uta Gräf,Friederike Heidenhof,2015-08-17 Whether it be dressage, showjumping, eventing or hobby riding, our common goal is to enjoy riding, treat our horses well and reach personal goals. To demonstrate how highly successful competitive sport can indeed go hand in hand with a close-to-nature, horse-friendly way of caring for and looking after horses, we provide insights into the personal training and stable management concepts of Uta Graef.

The authors will show everything that goes into this approach, including, for example, the structure of training, supporting horses in a way which respects their age, as well as general care and behaviour around horses. But you as a rider are also very important! How can you change your attitude towards horses in a positive way? How can you maintain your pleasure in riding or, if lost, win it back? How can it be possible to ride with less stress in future? The stable culture and the way classes and lessons are structured also play an important role in ensuring you enjoy your riding. The authors will show what influences each and every rider can optimise in order to reach the goal of fine riding on motivated horses. The book will encourage you to follow a horse-friendly path towards personal success, adhering to the principles of classical training and, step by step, working up towards your personal goals. This does not necessarily have to be competitive success, but it could also simply be the desire for fine riding on motivated horses. Therefore, the authors of this book wish to emphasise what kind of thought processes and which principles are particularly suitable for a positive influence on fine riding, rather than just listing training movements and the requirements at different levels. It is not a classical textbook, but rather a helpful and pleasant read with many 'behind the scenes' insights for riders of all disciplines and of all levels.

Korean Film and History Hyunseon Lee,2023-09-15 Cinema has become a battleground upon which history is made – a major mass medium of the twentieth century dealing with history. The re-enactments of historical events in film straddle reality and fantasy, documentary and fiction, representation and performance, entertainment and education. This interdisciplinary book examines the relationship between film and history and the links between historical research and filmic (re-)presentations of history with special reference to South Korean cinema. As with all national film industries, Korean cinema functions as a medium of inventing national history, identity, and also establishing their legitimacy – both in forgetting the past and remembering history. Korean films also play a part in forging cultural collective memory. Korea as a colonized and divided nation clearly adopted different approaches to the filmic depiction of history compared to colonial powers such as Western or Japanese cinema. The Colonial Period (1910-45) and Korean War (1950-53) draw particular attention as they have been major topics shaping the narrative of nation in North and South Korean films. Exploring the changing modes, impacts and functions of screen images dealing with history in Korean cinema, this book will be of huge interest to students and scholars of Korean

history, film, media and cultural studies.

Directory of Geoscience Departments 2015 Carolyn Wilson,2015-02-27 The Directory of Geoscience Departments 50th Edition is the most comprehensive directory and source of information about geosciences departments and researchers available. It is an invaluable resource for individuals working in the geosciences or must identify or work with specialists on the issues of

Earth, Environmental, and related sciences and engineering fields. The Directory of Geoscience Departments 50th Edition provides a state/country-sorted listing of nearly 2300 geoscience departments, research departments, institutes, and their faculty and staff. Information on contact information for departments and individuals is provided, as well as details on department enrollments, faculty specialties, and the date and source of faculty and staff's highest degree. New in the 50th edition: Listing of all US and Canadian geoscience theses and dissertations accepted in 2012 that have been reported to GeoRef Information Services, as well as a listing of faculty by their research specialty.
