**Course in Nepali** David Matthews,2013-01-11 Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now understood throughout the whole of Nepal, the Darjeeling region of West Bengal, Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people, and the object of A Course in Nepali is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.

**Fluent Forever** Gabriel Wyner,2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

God and the Afterlife Jeffrey Long,Paul Perry,2016-06-28 Based on the largest near-death experience study in history, involving 3,000 people from diverse backgrounds and religious traditions, including nonbelievers, *God and the Afterlife* presents startling evidence that a Supreme Being exists—and there is amazing consistency about what he is like. In his bestselling book *Evidence of the Afterlife*, Dr. Jeffrey Long showed us that there is a strong scientific case for life after death. Now, he goes further, revealing evidence that God is real. At the Near Death Experience Research Foundation, Dr. Long studied the stories of thousands of

people who have journeyed to the afterlife. Though there are a wide variety of differences in how people experience NDEs—some see a bright light, others go through a tunnel, still others experience a review of their life—he discovered that many of the accounts shared a remarkably similar description of God; a Supreme Being who radiated love and grace. Expanding on his analysis begun in *Evidence of the Afterlife*, *God and the Afterlife* is the first intensive exploration of the people who have reported going to the frontier of heaven, met God, and have returned to share their journey. Groundbreaking and profound, it provides new insight into the human experience and expands our notions of mortality, offering possibility, hope, and comfort.

**Kindness of Your Nature** Linda Olsson, 2011-10-03 Set on the desolate, moody coastline near Kawhia, this beautifully written and insightful novel paints a warm and sensitive portrait of the many forms love takes – the destructive, the forbidden and, ultimately, the healing. Marion Flint lives alone on the wild west coast of New Zealand's North Island. One day she meets a small boy, Ika, on the empty, rugged beach, and an unlikely friendship begins between the Swedish doctor and the solemn child with webbed feet and a fear of being touched. As Marion's involvement with Ika deepens she is forced to revisit her own lonely childhood in Sweden, where neglect and a destructive home environment had deadly consequences. But Marion's most deeply buried hurt is that she had to lose the love of her life twice over. As Marion and Ika grow closer, both begin to learn that human closeness can heal as well as destroy, and when it looks like Ika might have to return to his dysfunctional family, Marion must fight for him to stay with her – for his sake and hers. **Having Faith** Sandra Steingraber, 2012-05-15 A brilliant writer, first-time mother, and respected biologist, Sandra Steingraber tells the month-by-month story of her own pregnancy, weaving in the new knowledge of embryology, the intricate development of organs, the emerging architecture of the brain, and the transformation of the mother's body to nourish and protect the new life. At the same time, she shows all the hazards that we are now allowing to threaten each precious stage of development, including the breast-feeding relationship between mothers and their newborns. In the eyes of an ecologist, the mother's body is the first environment, the mediator between the toxins in our food, water, and air and her unborn child. Never before has the metamorphosis of a few cells into a baby seemed so astonishingly vivid, and never before has the threat of environmental pollution to conception, pregnancy, and even to the safety of breast milk been revealed with such clarity and urgency. In *Having Faith*, poetry and science combine in a passionate call to action. A Merloyd Lawrence Book
