The Armed Forces: Towards a Post-Interventionist Era? Gerhard Kümmel,Bastian Giegerich,2013-07-09 The present anthology stems from the perception of a widespread and manifest uneasiness concerning the business of military intervention in our times. Indeed, the West is for quite some time engaged in a deep introspection about his military intervention policies in the years to come and reflects about this. What will Western military intervention policies look like in the future; what kind of military intervention policies is wanted and what kind of military intervention policies is financially, politically and socio-culturally possible and militarily feasible? The hypothesis pursued in this volume states that, in the foreseeable future, we may see a different kind of military intervention policy and intervention posture of the West that will lead to different military interventions. It may be argued that we are witnessing the dawn of a new era, the era of military post-interventionism.
