Dickie V's ABCs and 1-2-3s Dick Vitale,2011-03-18 Dickie V's ABCs and 1-2-3s, the first little book in the Dick Vitale Children's Literacy Initiative, is AWESOME BABY! It's a children's alphabet and counting book from the legendary ESPN college basketball analyst, Dick Vitale. In the book, children learn their alphabet through high-energy basketball words that Dick uses in his national broadcasts. For example, D is for dunk and J is for jump. In the counting section of the book, Dick leads kids in counting using colorful basketballs. The book has a special feature (may not be available on all e-readers): a video introduction by Dick Vitale and digital audio clips for all 26 letters in Vitale's own voice broadcasting different phrases to encourage the child, including You and Me-What a Team and Vitale's signature catchphrase: You're Awesome, Baby! The book is illustrated with a colorful menagerie of animal characters and a tiny little version of Dickie V. Dr. Bryan Nelson, a long-time member of the American Academy of Pediatrics says the book is an excellent tool for early childhood development

Do More Than Give John V. Kania,Mark R. Kramer,Leslie R. Crutchfield,2011-03-01 How donors change the world through the six catalytic practices of high-impact philanthropy Do More Than Give provides a blueprint for individuals, philanthropists, and foundation leaders to increase their impact. Based on Forces for Good, this groundbreaking book demonstrates how the six practices of high-impact nonprofits apply to donors aiming to advance social causes. Rather than focus on the mechanics of effective grantmaking, reporting, or evaluation, this book instead proposes that donors can become proactive catalysts for change by rising to meet the challenges of our increasingly interdependent world. Key principles include: going beyond check writing/traditional volunteering; advocating for change; leveraging business; forging peer networks; empowering individuals; leading adaptively; and developing learning organizations. Contains robust case studies depicting every type of philanthropy (corporate, community, operating, specialized, and large private and family foundations) Includes easy to use Key Takeaways tailored for donors at the beginner and experienced levels of catalytic philanthropy Authors are internationally-acclaimed philanthropic, nonprofit, and corporate social responsibility strategy experts who frequently speak and train on high-impact philanthropy In good economic times or bad, this book provides guidance for givers to increase the impact of their charitable resources and go beyond check-writing to help solve problems and change the world.

Foundation Eric Goodman,Peter Park,2011-05-10 A sense of fatigue dogs the fitness world. Many of the new programs that are tagged as groundbreaking are actually recycled ideas. Foundation offers something completely different for novices and athletes alike: a simple program with powerful and proven results that will remedy bad posture, alleviate back pain, and help readers break through fitness challenges and plateaus. Dr. Eric Goodman, a brilliant and dynamic young chiropractor, teams up with Peter Park, one of the top trainers in the United States, to radically redefine the core--shifting the focus from the front of the body to the back. Their groundbreaking approach works to strengthen the lower back and the full posterior chain and correct poor movement patterns by addressing mechanical imbalances and weaknesses. Foundation training involves simple movement patterns and is equipment free, creating maximum power, flexibility, and endurance. Word-of-mouth enthusiasm has inspired both Hollywood luminaries and world-class athletes to make Foundation training the core of their fitness programs. Eric and Peter's client list has grown exponentially to include Lance Armstrong, NBA star Derek Fisher, world-champion surfer Kelly Slater, and actor Matthew McConaughey.

Inherent Vice Thomas Pynchon,2012-06-13 Part noir, part psychedelic romp, all Thomas Pynchon—Private eye Doc Sportello surfaces, occasionally, out of a marijuana haze to watch the end of an era In this lively yarn, Thomas Pynchon, working in an unaccustomed genre that is at once exciting and accessible, provides a classic illustration of the principle that if you can remember the sixties, you weren't there. It's been a while since Doc Sportello has seen his ex- girlfriend. Suddenly she shows up with a story about a plot to kidnap a billionaire land developer whom she just happens to be in love with. It's the tail end of the psychedelic sixties in L.A., and Doc knows that love is another of those words going around at the moment, like trip or groovy, except that this one usually leads to trouble. Undeniably one of the most influential writers at work today, Pynchon has penned another unforgettable book.

Courting Science Damon V. Coletta,2016-05-25 In Courting Science, Damon Coletta offers a novel explanation for the decline of American leadership in world affairs.

Whether the American Century ends sooner rather than later may depend on America's capacity for self-reflection and, ultimately, self-restraint when it comes to science, technology, and engineering. Democracy's affinity for advanced technology has to be balanced against scientific research and progress as a global enterprise. In an era of rising challengers to America's lead in the international order and an increasingly globalized civil society, a Scientific State has a better chance of extending its dominance. In order to draw closer to this ideal, though, the United States will have to reconsider its grand strategy. It must have a strategy that scrutinizes how tightly it constrains, how narrowly it directs, and how far it trusts American scientists. If given the opportunity, scientists have the potential to lead a second American Century through domestic science and technology policy, international diplomacy, and transnational networks for global governance.
