The Human Web John Robert McNeill,William Hardy McNeill,2003 Why did the first civilizations emerge when and where they did? How did Islam become a unifying force in the world of its birth? What enabled the West to project its goods and power around the world from the fifteenth century on? Why was agriculture invented seven times and the steam engine just once?World-historical questions such as these, the subjects of major works by Jared Diamond, David Landes, and others, are now of great moment as global frictions increase. In a spirited and original contribution to this quickening discussion, two renowned historians, father and son, explore the webs that have drawn humans together in patterns of interaction and exchange, cooperation and competition, since earliest times. Whether small or large, loose or dense, these webs have provided the medium for the movement of ideas, goods, power, and money within and across cultures, societies, and nations. From the thin, localized webs that characterized agricultural communities twelve thousand years ago, through the denser, more interactive metropolitan webs that surrounded ancient Sumer, Athens, and Timbuktu, to the electrified global web that today envelops virtually the entire world in a maelstrom of cooperation and competition, J. R. McNeill and William H. McNeill show human webs to be a key component of world history and a revealing framework of analysis. Avoiding any determinism, environmental or cultural, the McNeills give us a

synthesizing picture of the big patterns of world history in a rich, open-ended, concise account.

Vergeleken met de laaiende razernij van een ontslagen vrouw, is de opwarming van de aarde een gezellig kampvuurtje. De Internationale Klimaatconferentie in Krakau moet de wereld redden van alle dreigende ecologische rampen. De LSD (Luxembourg Spy Department) wil helpen: ze sturen Red, The Runner, om dit verhaal met een BOEM te beginnen. Maar wanneer Red zijn missie voltooit, ontdekt hij dat de opwarming van de aarde slechts een gezellig kampvuurtje is, vergeleken met Scarlett's laaiende razernij om haar ontslag. Red probeert koel te blijven: Je verdient een betere baan. Ik zal je helpen. Maar Scarlett is niet geïnteresseerd in een volgende baan; ze wil de crimineel die haar de vorige deed verliezen. Mannen hebben zo'n beetje alle verschrikkelijke dingen in de menselijke geschiedenis veroorzaakt. Vrouwen zijn allemaal lief en aardig, warm en zacht, vriendelijk, met een groot moederhart voor iedereen. Als een vrouw als Scarlett wraak wil, hoef je nergens bang voor te zijn.
