*Bearded Dragon Valentine's Day Cards* Gail Forsyth,2015-11-28 Let your imagination and creativity soar with these cute do-it-yourself Bearded Dragon Valentine's Day paper cards. A fun Valentine's Day activity for all ages, sure to create lasting memories. Kids and animals just go together, especially if it's their favorite pet. Each book has 12 paper cards to color - 2 different designs. The pictures are hand drawn and the child is encouraged to draw more items on each card, along with any special markings that they like, truly making them one-of-a-kind. The inside of six of the cards reads Be Mine, Valentine and the other six cards read You're Special. There are 12 envelopes to color, address, cut out and fold, adding to the fun. You'll find a Valentine's Day List to keep track of who you have given a Valentine card to. Fun for all ages.

**The Big Book of Facts** Terri Schlichenmeyer,2021-08-01 Strange science facts! Hilarious history facts! Informative and Fun! A treat of science and history stories and trivia that will inform and entertain anyone curious about the world! From astonishing, amazing and surprising science and history facts to the little-known stories hidden inside bigger events, The Big Book of Facts is a fascinating tour through our weird and interesting world. You'll learn about the earth and its history through absorbing stories and interesting tidbits. Did you know ... Babies start laughing at just a few weeks old; there are ten discernible types of laughter; and laughter spurs our appetite for food? Like fingerprints, every tongue on Earth has a unique print? The history of the U.S. Postal Service, including the Pony Express, ... and the short-lived (but legal) practice of mailing children? Hand washing was not always common through history; toilet paper was invented in the 1400s, and Sir John Harington invented the flushable toilet for Queen Elizabeth I? Though they are all differently shaped by virtue of being an assembly of water droplets, there are ten basic kinds of clouds? A basic and quick history of cash in America, including Alexander Hamilton and the Bank of the United States, Benjamin Franklin's efforts to thwart counterfeiting, \$100,000 bills, and the fact that more than 85% of the world's money is digital only? Though Shakespeare mentioned Valentine's Day in "Hamlet," sending paper cards to a beloved wasn't a fad until the eighteenth century, and by the 1840s, insulting Valentine cards also became common? Government agencies in the U.S. and France both agree that the measure of a second is determined by how long it takes a cesium atom to vibrate just over nine billion times? The history of children's games such as hide-and-seek, blindman's bluff, and jacks that date back to the ancient Greeks and Romans? And much, much more. Engrossing, engaging, and enlightening, The Big Book of Facts lets you discover the fun oddities that make up our world. Wide-

ranging and fact-filled with nearly 160 illustrations, this information-rich tome also includes a helpful bibliography and an extensive index for those scrambling for more information.

**The Cardmaker's Workbook** Jenn Mason,2008-05-01 The most complete volume on card making available The Cardmaker's Workbook is the only book on cardmaking that a crafter will ever need, and is formatted in a sturdy volume that can kept on the desk and referred to again and again. The book is divided into chapters focusing on composition, color, theme, construction and inspiration. Instructions are clear but concise, making room for large pictures and multiple variations. It has the look of a designer's notebook with sketches and templates that show different card formats. Unlike other cardmaking books available that are occasion driven or aren't stylized, The Cardmaker's Workbook provides an inspiring and hands-on tool for paper addicts to use to expand their skills and stretch their imagination. The designs cover many different styles, from detailed multi-layered beauties to simple cards that can be quickly made and given as a set of stationery.
