Religious Tourism and the Environment Kiran A.

Shinde,Daniel H. Olsen,2020-09-30 The remarkable growth in religious tourism across the world has generated considerable interest in the impacts of this type of tourism. Focusing here on environmental issues, this book moves beyond the documentation of environmental impacts to examine in greater depth the intersections between religious tourism and the environment. Beginning with an in-depth introduction that highlights the intersections between religion, tourism, and the environment, the book then focuses on the environment as a resource or generator for religious tourism and as a recipient of the impacts of religious tourism. Chapters included discuss such important areas as theological views, environmental responsibility, and host perspectives.

*First Overland* Tim Slessor, 2016-03-07 Why Not? After all, no-one had ever done it before. It would be one of the longest of all overland journeys - half way round the world, from the English Channel to Singapore. They knew that several expeditions had already tried it. Some had got as far as the deserts of Persia; a few had even reached the plains of India. But no one had managed to go on from there: over the jungle clad mountains of Assam and across northern Burma to Thailand and Malaya. Over the last 3,000 miles it seemed there were 'just too many rivers and too few roads'. But no-one really knew ... In fact, their problems began much earlier than that. As mere undergraduates, they had no money, no cars, nothing. But with a cool audacity, which was to become characteristic, they set to work - wheedling and cajoling. First, they coaxed the BBC to come up with some film for a possible TV series. They then gently persuaded the manufacturers to lend them two factory-fresh Land Rovers. A publisher was even sweet-talked into giving them an advance on a book. By the time they were ready to go, their sponsors (more than 80 of them) ranged from whiskey distillers to the makers of collapsible buckets. In late 1955, they set off. Seven months and 12,000 miles later, two very weary Land Rovers, escorted by police outriders, rolled into Singapore - to flash bulbs and champagne. Now, fifty years on, their book, 'First Overland', is

republished – with a foreword by Sir David Attenborough. After all, it was he who gave them that film.

*Fantasies of Improvisation* Dana Gooley, 2018-05-15 The first history of keyboard improvisation in European music in the postclassical and romantic periods, *Fantasies of Improvisation: Free Playing in Nineteenth-Century Music* documents practices of improvisation on the piano and the organ, with a particular emphasis on free fantasies and other forms of free playing. Case studies of performers such as Abbé Vogler, J. N. Hummel, Ignaz Moscheles, Robert Schumann, Carl Loewe, and Franz Liszt describe in detail the motives, intentions, and musical styles of the nineteenth century's leading improvisers. Grounded in

primary sources, the book further discusses the reception and valuation of improvisational performances by colleagues, audiences, and critics, which prompted many keyboardists to stop improvising. Author Dana Gooley argues that amidst the decline of improvisational practices in the first half of the nineteenth century there emerged a strong and influential idea of improvisation as an ideal or perfect performance. This idea, spawned and nourished by romanticism, preserved the aesthetic, social, and ethical values associated with improvisation, calling into question the supposed triumph of the work.
