*Like I See It* Dale Pollak, 2017-10-17 Simply Selling More Cars Won't Be Enough: Revolutionizing the Retail Automotive Industry Dale Pollak believes that the car business—and the dealers who make their living in it—are in more trouble than anyone cares to admit. After four decades and three best-selling books, Pollak has witnessed the trials and triumphs of the retail automotive industry from a vantage point that few get. While car dealers are making good money, he warns that the industry is at a critical turning point, with too few paying attention to how inefficiency and lack of transparency are sapping the industry's true potential. Amid the ever-faster confluence of technology, the Internet, and changing consumer preferences, the future prosperity of the industry is far from secure. *Like I See It* offers practical solutions, such as making the sales process more customer-focused and digitally driven to encourage sales, managing new and used inventory to mitigate margin compression, and ending factory bonus checks. It spurs much-needed conversations and sets guideposts that help dealers, OEMs, and solution providers improve how they do business. It also shows dealers how to stay relevant, evolve to keep up with the changing times, and deal with issues like high personnel turnover and the coming disruption of ride-sharing, self-driving cars, and Millennials who don't want (or can't afford) to own a car. Pollak believes that success will come to dealers who recognize that each customer engagement is a chance to make a positive impact and create a bond. He offers a collectively minded approach that will help build a better, more profitable, and prosperous retail automotive industry for tomorrow.

**Velocity** Dale Pollak, 2008 Retail automotive expert Dale Pollak reveals how dealers in today's pre-owned automotive marketplace can shift out of

low gear toward accelerated profits.

Gross Deception Dale Pollak, 2020-02-04 A journey of discovering and correcting a hole in the used car universe. Dale Pollak, innovator and leader of the automotive sales and management industry, will once again, have you rethinking how to manage the used car business. More than a how-to business book, Gross Deception is a story of finding a problem in the reliance on gross profit and the trials to create a solution. This thoughtfully written book not only shows you the trial and error of potential answers, but also how to apply the answer that culminated from years of work. Referred to as ProfitTime, Dale's solution includes both the "New Math of Used Vehicles" and the "Investment Score" system, helping you to know the ROI and net profit potential of every vehicle. With Dale's ProfitTime solution you will: • Invigorate your cash flow • Increase your sales volume • Introduce new metrics • Initiate value-based management • Identify market shifts Through metric and methodology, Gross Deception will restructure how you view a car's time on the lot.

**Whole Truth** Dale Pollak, 2022-07-12 Dale Pollak unveils the truth, and nothing but the whole truth, on how to make more money from selling wholesale vehicles As a cofounder of the successful dealership, Pollak Cadillac, with nearly four decades of experience, Dale Pollak's insight is invaluable to both car enthusiasts and to those in the automotive industry alike. He was the sole founder of vAuto—a premier inventory management solution provider for franchise and independent dealers—and now serves as the executive vice president at Cox Automotive. His groundbreaking text Whole Truth: A Fresh Money-Making Method to Wholesale, the Most Misunderstood Side of Your Business dissects the systemic difficulties that dealers and car wholesalers face today. With today's technology and data science,

used-car valuation is growing ever stronger in the wholesale industry despite the recent global pandemic. Yet dealers are still settling for too little when they sell. Pollak teaches techniques of mindful curation, double-barreled business, and his very own Project Bluebird Guaranteed Profit Model to outline how car dealers can turn a net profit on their wholesale inventory. You can expect: --Greater understanding of the disparity between dealers and top-performing wholesalers. --A comprehensive and controllable method to achieve consistent wholesale profits every month. --A new perspective on the wholesale market as an efficient, transparent, and profitable business. --And much more. The car industry is one of the most innovative in the world, yet its wholesalers face financial challenges that can drive them out of business. Pollak's expertise as a leader in the field grants him unmatched prestige. His concrete solutions for wholesalers will uplift not just their businesses, but the car industry as a whole.

*Velocity Overdrive* Dale Pollak, 2012-10-02  
Velocity Overdrive shifts the discussion of velocity principles and metrics to the next level. Across North America, dealers are no longer assured of profitability and prosperity. Today's environment is defined by increased competition, a greater degree of market volatility, ongoing margin compression and fast-changing consumer expectations. -- Page 2 of cover.

Velocity 2.0 Dale Pollak, 2010  
*Velocity 2.0: Paint, Pixels, & Profitability* is the second book from retail automotive industry expert, entrepreneur and former dealer, Dale Pollak. The book picks up where Dale's *Velocity: From the Front Line to the Bottom Line* leaves off, revealing new ROI-based management metrics and processes dealers can use to operate more efficient and profitable used vehicle departments. The book flows from the recognition that today s

used vehicle marketplace is more challenging and volatile than it s ever been a tough reality driven by the power of the Internet and a troubled economy. Velocity 2.0 offers a playbook of best practices and processes to help dealers become more successful.

Brainlesion: Glioma, Multiple Sclerosis, Stroke and Traumatic Brain Injuries Alessandro Crimi, Spyridon Bakas, Hugo Kuijf, Farahani Keyvan, Mauricio Reyes, Theo van Walsum, 2019-02-08 This two-volume set LNCS 11383 and 11384 constitutes revised selected papers from the 4th International MICCAI Brainlesion Workshop, BrainLes 2018, as well as the International Multimodal Brain Tumor Segmentation, BraTS, Ischemic Stroke Lesion Segmentation, ISLES, MR Brain Image Segmentation, MRBrainS18, Computational Precision Medicine, CPM, and Stroke Workshop on Imaging and Treatment Challenges, SWITCH, which were held jointly at the Medical Image Computing for Computer Assisted Intervention Conference, MICCAI, in Granada, Spain, in September 2018. *The Automotive Manifesto* Paul J. Daly, 2019-04-15 If you're a dealership (or any retail business, really) whose marketing relies on paid search and sell, sell, sell commercials to keep your business flourishing, you're wrong. Connection is the new currency. Marketing, sales, and branding (yes -

branding!) must radically shift to reflect how people actually engage with companies. It would be an understatement to say the auto industry has been slow to adapt. Make no mistake, change - spurred by the Amazons, Carvanas, and CarMaxes of the world - is upon us. If you're not willing to be among the most innovative thinkers regarding brand connection, you're simply not going to survive, let alone thrive. The Automotive Manifesto goes beyond conventional marketing, sales, and branding. It contains actionable tips and the thought processes behind them. Automotive retail needs a reminder that it didn't conquer all of the challenges over the last hundred years to get beat by ones, zeros, and a smartphone. It cuts right through the brand rot that's infesting automotive retail and offers real-time strategies to out-thrive the lagging 90% of dealers who can't change with the times.

Web and Big Data Xin Wang, Rui Zhang, Young-Koo Lee, Le Sun, Yang-Sae Moon, 2020-10-13 This two-

Due to the COVID-19 pandemic the conference was organized as a fully online conference. The 42 full papers presented together with 17 short papers, and 6 demonstration papers were carefully reviewed and selected from 180 submissions. The papers are organized around the following topics: Big Data Analytics; Graph Data and Social Networks; Knowledge Graph; Recommender Systems; Information Extraction and Retrieval; Machine Learning; Blockchain; Data Mining; Text Analysis and Mining; Spatial, Temporal and Multimedia Databases; Database Systems; and Demo.

*Visualization of Categorical Data* Jörg Blasius, Michael Greenacre, 1998-02-09 A unique and timely monograph, *Visualization of Categorical Data* contains a useful balance of theoretical and practical material on this important new area. Top researchers in the field present the books four main topics: visualization, correspondence analysis, biplots and multidimensional scaling, and contingency table models. This volume discusses how surveys, which are employed in many different research areas, generate categorical data. It will be of great interest to anyone involved in collecting or analyzing categorical data. \* Correspondence Analysis \* Homogeneity Analysis \* Loglinear and Association Models \* Latent Class Analysis \* Multidimensional Scaling \* Cluster Analysis \* Ideal Point Discriminant Analysis \* CHAID \* Formal Concept Analysis \* Graphical Models
