So far Meg Langslow's summer is not going swimmingly. Down in her small Virginia hometown, she's maid of honor at the nuptials of three loved ones--each of whom has dumped the planning in her capable hands. One bride is set on including a Native American herbal purification ceremony, while another wants live peacocks on the lawn. Only help from the town's drop-dead gorgeous hunk, disappointingly rumored to be gay, keeps Meg afloat in a sea of dotty relatives and outrageous neighbors. And, in whirl of summer parties and picnics, Southern hospitality is strained to the limit by an offensive newcomer who hints at skeletons in the guests' closets. But it seems this lady has offended one too many when she's found dead in suspicious circumstances, followed by a string of accidents--some fatal. Soon, level-headed Meg's to-do list extends from flower arrangements and bridal registries to catching a killer--before the next catered event is her own funeral...

Sonic Interaction Design Karmen Franinovic,Stefania Serafin,2013-03-22 An overview of emerging topics, theories, methods, and practices in sonic interactive design, with a focus on the multisensory aspects of sonic experience. Sound is an integral part of every user experience but a neglected medium in design disciplines. Design of an artifact's sonic qualities is often limited to the shaping of functional, representational, and signaling roles of sound. The interdisciplinary field of sonic interaction design (SID) challenges these prevalent approaches by considering

sound as an active medium that can enable novel sensory and social experiences through interactive technologies. This book offers an overview of the emerging SID research, discussing theories, methods, and practices, with a focus on the multisensory aspects of sonic experience. Sonic Interaction Design gathers contributions from scholars, artists, and designers working at the intersections of fields ranging from electronic music to cognitive science. They offer both theoretical considerations of key themes and case studies of products and systems created for such contexts as mobile music, sensorimotor learning, rehabilitation, and gaming. The goal is not only to extend the existing research and pedagogical approaches to SID but also to foster domains of practice for sound designers, architects, interaction designers, media artists, product designers, and urban planners. Taken together, the chapters provide a foundation for a still-emerging field, affording a new generation of designers a fresh perspective on interactive sound as a situated and multisensory experience. Contributors Federico Avanzini, Gerold Baier, Stephen Barrass, Olivier Bau, Karin Bijsterveld, Roberto Bresin, Stephen Brewster, Jeremy Coopersotck, Amalia De Gotzen, Stefano Delle Monache, Cumhur Erkut, George Essl, Karmen Franinović, Bruno L.   <u>Mediactive</u> Dan Gillmor,2010 We're in an age of information overload, and too much of what we watch, hear and read is mistaken, deceitful or even dangerous. Yet you and I can take control and make media serve us -- all of us -- by being active consumers and participants. Here's how. With a Foreword by Clay Shirky Praise for Mediactive: Dan Gillmor has thought more deeply, more usefully, and over a longer period of time about the next stages of media evolution than just about anyone else. In Mediactive, he puts the results of his ideas and experiments together in a guide full of practical tips and longer-term inspirations for everyone affected by rapid changes in the news ecology. This book is a very worthy successor to his influential We the Media. --James Fallows, Atlantic Magazine, author of Postcards from Tomorrow Square and Breaking the News Dan's book helps us understand when the news we read is reliable and trustworthy, and how to determine when what we're reading is intended to deceive. A trustworthy press is required for the survival of a democracy, and we really need this book right now. --Craig Newmark, founder of craigslist A master-class in media-literacy for the 21st century, operating on all scales from the tiniest details of navigating wiki

software all the way up to sensible and smart suggestions for reforming law and policy to make the news better and fairer. Gillmor's a reporter's reporter for the information age, Mediactive made me want to stand up and salute. --Cory Doctorow, co-editor/owner, Boing Boing; author of For the Win As the lines between professional and citizen journalists continue to blur, Mediactive provides a useful roadmap to help us become savvier consumers and creators alike. -- Steve Case, chairman and CEO of Revolution and co-founder of America Online It's all true - at least to someone. And that's the problem in a hypermediated world where everyone and anyone can represent his own reality. Gillmor attacks the problem of representation and reality head on, demanding we become media-active users of our emerging media, instead of passive consumers. If this book doesn't get you out of Facebook and back on the real Internet, nothing will. --Douglas Rushkoff, author of Program or Be Programmed: Ten Commands for a Digital Age An important book showing people how to swim rather than drown in today's torrent of information. Dan Gillmor lives on the front line of digital information - there's no-one better to help us understand the risks and opportunities or help us ask the right questions. --Richard Sambrook, Global Vice Chairman and Chief Content Officer at Edelman, and former BBC Director of Global News With the future of journalism and democracy in peril, Mediactive comes along with sage and practical advice at a crucial time. Dan Gillmor, pioneering journalist and teacher of journalists, offers a practical guide to citizens who now need to

become active producers as well as critical consumers of media. Read this book right away, buy one for a friend and another one for a student, and then put Gillmor's advice into action. --Howard Rheingold, author of the Smart Mobs and other books about our digital future Through common-sense guidelines and well-chosen examples, Gillmor shows how anyone can navigate the half-truths, exaggerations and outright falsehoods that permeate today's media environment and ferret out what is true and important. As Gillmor writes, 'When we have unlimited sources of information, and when so much of what comes at us is questionable, our lives get more challenging. They also get more interesting.' --Dan Kennedy, assistant professor of journalism at Northeastern University, former Boston Phoenix media critic, and author of the Media Nation blog at www.dankennedy.net
