**VCs of the First World War: Road to Victory 1918** Gerald Gliddon,2014-02-03 By August 1918 fortune was on the side of the Allies: America was increasing its contribution of troops and equipment substantially; the morale of the German Army was sinking as it failed to deliver the desired 'knock out blow'; and Field Marshal Sir Douglas Haig found a new confidence, firmly believing that the Allies could at last push the Germans out of France and Belgium. This volume of the best-selling VCs of the First World War series covers the fifty days of the Allied advance from 8 August to 26 September 1918. Arranged chronologically, it tells the story of the sixty-four VC winners during this period. The recipients came from many countries, including Britain, Canada, Australia and New Zealand; some never lived to know that they had been awarded for their extraordinary bravery, while others returned home to face an uncertain future. This is their story.

*Next-Generation High-Speed Satellite Interconnect* Pietro Nannipieri,Gianmarco Dinelli,Luca Dello Sterpaio,Antonino Marino,Luca Fanucci,2021-07-23 This book introduces the space community to the novel SpaceFibre protocol, developed under the guidance of the European Space Agency (ESA) as the forthcoming, high speed (Gbps) communication protocol for satellite on-board communication. Since SpaceFibre is expected to follow the success of its predecessor SpaceWire protocol (Mbps), the authors provide a system-level perspective for the end-user willing to adopt this latest technology for future space missions. The authors provide a complete view of the SpaceFibre protocol, together with an analysis of all the necessary hardware and software components to integrate this technology onboard a satellite. The text guides potential system adopters toward understanding the protocol, analyzing strengths, weaknesses and performances. Practical design examples and prototype performance measurements in reference scenarios are also included.

**Raising Venture Capital Finance in Europe** Keith Arundale,2007-04-03 European private equity investment reached €47 billion in 2005, up 27% from 2004. Funds raised for private equity were €72 billion, up 250% on the previous year, both figures being all time highs. Raising Venture Capital Finance in Europe provides business owners, entrepreneurs and investors alike with a step-by-step approach to exploiting this market and funding new projects effectively. Written by Keith Arundale, an advisor and commentator on the European and US VC and private equity industry for over 20 years, the guide blends business experience with practical approaches to enable the reader to maximize the opportunities available. The book includes a series of real-life case studies from venture capitalists and entrepreneurs from around Europe, each with practical tips for successful venture capital finance raising. With forewords from Sir Paul Judge (Chairman, Enterprise Education Trust) and Patrick Sheehan (Chairman, Venture Capital Committee, European Private Equity and Venture Capital Association) the book begins with a brief introduction to the field, including an analysis of current trends and issues in the industry, and goes on to provide a detailed framework for an objective assessment of each business opportunity. The book looks at sources of finance and private equity, shows how to write a successful business plan, details the entire investment process, and considers the tax and legal issues involved. A particular feature of the book is that it looks at the topic from both sides - showing what the venture capitalist is looking for as well as detailing how an entrepreneur or business owner can make proposals attractive to those investors This means that the reader will be able to minimize time wasted on unnecessary activities and therefore develop investment approaches which are succinct, relevant, and give every chance of success.

The Way of the VC Ying Tan,2012-11-28 Venture Capital funds are the fastest growing sector of the financial industry, and possibly the least understood. In this book, the author provides a primer on what some of the world's best venture capitalists have in common. How do the world's top venture capitalists consistently obtain supernormal returns? How do they add value to entrepreneurs they have backed? Why is a top venture capitalist like a skilled chef? How did Lip Bu Tan, when he was Chairman of Walden, manage to invest in Creative Technology, despite the CEO's aversion for VCs? How did Nam Ho, Founder and Managing Partner of Altos Venture, turn an introduction by a Stanford Business School professor into a venture capital firm managing a quarter billion dollars of capital? How does Bing Gordon, Partner at Kleiner Perkins Caufield & Byers and author of the business plan that resulted in KPCB's investment in Electronic Arts, time exits properly? Why did Soo Boon Koh, Managing Director of IGlobe Ventures, back a GPS company which was filing for Chapter 11, in the post-9-11 market? The Way of the VC: Having Top Venture Capitalists on Your Board is essential reading for venture capital practitioners, including partners, principals, analysts, consultants and limited partners--both institutional and private. It is also useful to students of finance who want a better understanding of what goes on in the venture capital world.

*VCs Gallipoli* Stephen Snelling,2012-05-30 The landings on the Gallipoli Peninsula on 25 April 1915 represented the greatest amphibious operation carried out during the course of the First World War. What had initially been a purely naval enterprise had escalated to become a full-scale Anglo-French invasion, resulting in an eight-month campaign which Churchill hoped would knock Turkey out of the war. For a campaign that promised so much, it ultimately became a tragedy of lost opportunities. By January 1916, when the last men were taken off the peninsula, the casualties totalled 205,000. This book contains new material from recently released archives and tells the stories of the thirty-nine men whose bravery on the battlefield was rewarded by the Victoria Cross, among them the war's first Australian VC, first New Zealand VC, and first Royal Marine VC. It represents the highest number of VCs won in a theatre of war, other than the Western Front.

*VCS Somme 1916* Gerald Gliddon,2012-05-30 The Battle of the Somme, which lasted from 1 July to 18 November 1916, is remembered as one of the most horrific and tragic battles of the First World War. On the first day alone nearly 19,000 British troops were killed - the greatest one-day loss in the history of the British Army. By November the death toll from the armies of Britain, France and Germany had risen to over a million. This book tells the stories of fifty-one soldiers from the Commonwealth and Empire armies whose bravery on the battlefield was rewarded by the Victoria Cross, the highest military honour - men like Private Billy McFadzean, who was blown up by two grenades which he smothered in order to save the lives of his comrades, and Private 'Todger' Jones, who single-handedly rounded up 102 German soldiers. Not only do we learn of heroic endeavours of these men at the height of battle, but we also read of their lives before 1914, ranging from the backstreets of Glasgow to a country house in Cheshire, and of what life was like after the war for the thirty-three survivors.

**VCs Western Front 1915** Peter F. Batchelor,Christopher Matson,2012-05-30 The predictions of the war 'being over by Christmas' turned out to be far from the truth. By January 1915 the British Expeditionary Force found themselves trapped in the murderous stalemate of trench warfare. British troops had suffered badly in the early campaigns and by January 1915 were holding some 30 miles of trench. The year 1915 was to witness some of the bloodiest and bitter battles of the Great War, including the first blooding at Neuve Chapelle, the Second Battle of Ypres and the appalling failure of Loos. By the end of the summer almost 50,000 men of Kitchener's Army had been killed. This book tells the story of the 67 VC winners from this period on the Western Front. Each of their stories are different and 20 medals were awarded posthumously. However, they all have one thing in common - acts of extraordinary bravery under fire.

*VCs of the North* Alan Whitworth,2015-10-30 Today the Victoria Cross remains the supreme British award for bravery. It takes precedence over all other awards and decorations. During its 160-year history, since the first medals were given for gallantry during the Crimean War in the 1850s, 1,357 of these medals have been won, and almost fifty of them have gone to the soldiers of Cumbria, Durham and Northumberland . Alan

Whitworth, in this carefully researched and revealing account, describes in graphic detail the exploits and the lives of this elite band of heroes. Within this group of Northern VC recipients are a number of outstanding names, including Richard Annand who gained the first VC of the Second World War and Roland Bradford who was one of only four sets of brothers to have secured the VC. He also had the distinction of becoming the youngest general in the British army. But among the roll of the brave whose gallantry and self-sacrifice are celebrated in these pages the reader will find the names and extraordinary deeds of many other men who were either born or bred or lived and died in the North. They will also find the story of the youngest Victoria Cross recipient who won his award aged just nineteen. The stories of these ordinary individuals who have 'performed some signal act of valour or devotion to their country' will be fascinating reading for anyone who is interested in military history in general and in the long military tradition of the North of England.

**VCs The Final Days 1918** Gerald Gliddon,2014-07-15 The latest volume in the series covering the final days of the war on the Western Front from the Allied Armies being poised to capture the Hindenburg Line to the Armistice on 11 November 1918. The book opens with the stories of seven VC-winners who took part in the Battle of the Canal du Nord on 27 September 1918. Despite enemy resistance, the British First and Third Armies advanced six miles, leading eventually to the successful capture of Cambrai. The last period of the war became a series of battles to capture a series of river lines. From the Battle of the Canal du Nord until Armistice Day, a period of just under six weeks, a total of 56 VCs were won in the victorious Allied advance. The VC winners came from France and Canada as well.

**The Student Life Handbook** Christine Fanthome,2005-09-08 Many students arrive at university with the idea that this will be 'the time of their lives'. However, some students find that being a fresher is not all it's cracked-up to be: they are not immediately at ease with university culture and find it hard to deal with the day-to-day issues arising from living away from home. The Student Life Handbook draws on the experiences of over 160 students from all over the UK to offer practical advice on balancing domestic demands with university study. Covering many aspects of university life such as finance, accommodation, leaving home and joining the social scene, this guide will help students reap the greatest possible benefit and enjoyment from their time at university.

British Concepts of Heroic "Gallantry" and the Sixties Transition Matthew J. Lord,2021-05-03 This book examines the relationship between concepts of heroic gallantry, as projected by the British honours system, and the sociocultural, political, military and international transitions of the supposed Sixties cultural revolution. In so doing, it considers how a conservative, hierarchical and state-orientated concept both evolved and endured during a period of immense change in which traditional assumptions of deference to elites were increasingly challenged. Covering the period often defined as The Long Sixties, from 1955-79, this study concentrates on four distinct transitions undergone by both state and non-state gallantry awards, including developments within the welfare state, class and gender discrimination, counterinsurgency and decolonisation. It ultimately sheds fresh light upon the importance of postwar decades to the continued evolution of concepts of gallantry and heroism in British culture using a range of underexplored government and media archives. It will be of interest to scholars, students and general researchers of heroism in modern Britain, the Sixties revolution, postwar military history and both the social and political evolution of British honours, decorations and medals.

**We Don't Need Permission** Eric Collins,2022-09-01 Highly Commended for the Diversity, Inclusion and Equality Award at the Business Book Awards A powerful 10 step guide to transformative entrepreneurship for under-represented people from Eric Collins, host of the award-winning Channel 4 reality business show The Money Maker. 'Eric Collins is one of the most powerful business people in Britain.' The Times \_\_\_\_\_  
Step 1: Embrace the unexpected Step 2: Engage in consistent and continuous acts of disruption Step 3: Let go of small - think bigger, think global and prepare for pitfalls Step 4: Take risks using data to mitigate the downside Step 5: Put your money where your mouth is, make your resources matter Step 6: Leverage what you know Step 7: Become a convener by making your mission bigger than yourself Step 8: Invest in women to create Alpha Step 9: Sell your vision, make time-appropriate asks and don't forget to recruit allies Step 10: Always bet on Black \_\_\_\_\_ At a time when half of Black households in the UK live in persistent poverty - over twice as many as their white counterparts - We Don't Need Permission argues that investing in Black and under-represented entrepreneurs in order to create successful businesses is the surest, fastest socio-economic game-changer there is. Long-lasting economic empowerment - from education to health outcomes - is key to solving the multiple problems that result from systemic racism and sexism. And it is the best way to close the inequality gaps that have hampered and continue to hinder Black people and all women too. To address this problem head on, Eric Collins co-founded venture capital firm Impact X Capital to invest in under-represented entrepreneurs in the UK and Europe. In We Don't Need Permission, Collins identifies ten key principles of successful entrepreneurship, and reveals how it's possible to change a system that has helped some, while holding others back. The book not only aims to inspire and motivate under-represented people to take their future and economic destiny into their own hands, but will demand of current business leaders and organizations that they do business better. It's time to stop waiting for someone else to give permission and start boldly making the world we want to see. \_\_\_\_\_
