Ask a Manager Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

**Alternative Baker** Alanna Taylor-Tobin,2016-09-13 While most gluten-free baking cookbooks simply replace all-purpose wheat flour, usually with white rice, tapioca and potato flours, this book celebrates the wide array of grains, nuts and seeds that add unique texture and flavor to desserts. Recipes oust hard-to-find gums, such as guar and xanthan, and minimise starches, such as corn, tapioca and potato. Alternative Baker highlights lesser-known flours such as millet, oat, buckwheat, chestnut, sorghum and mesquite. These flours provide recipe with superior texture, flavor and nutritional value to boot. Alternative Baker features fruit-based recipes that range from breakfast breads to pies, tarts, crisps, cobblers, cakes, custards and small treats like cookies and bars. Examples include Cranberry Millet Scones with Vanilla Bean Glaze; Buckwheat, Pear & Walnut Galettes with Salty Honey Caramel; Salty Caramel & Banana Cream Tarts in a Mesquite Crust and Maple Bourbon Peach Cobbler with Brown Butter Biscuits. In addition, the book includes recipes for basics like sauces and accompaniments. Author Alanna Taylor-Tobin is a classically trained pastry chef who has been developing recipes and techniques for her own gluten sensitivity for more than a decade. Her love of alternative, unrefined flours, sweeteners and organic produce is a product of her upbringing by health-nut hippie parents.

Different indicators can be selected according to a study's objectives, sample population, costs and required precision. In low capacity settings, a number of other issues should be considered (e.g. availability of food composition tables, cultural and community specific issues, such as intra-household distribution of foods and eating from shared plates, etc.). This manual aims to signpost for the users the best way to measure food and nutrient intakes and to enhance their understanding of the key features, strengths and limitations of various methods. It also highlights a number of common methodological considerations involved in the selection process. Target audience comprises of individuals (policy-makers, programme managers, educators, health professionals including dietitians and nutritionists, field workers and researchers) involved in national surveys, programme planning and monitoring and evaluation in low capacity settings, as well as those in charge of knowledge brokering for policy-making.
