The Shooting Star Shivya Nath, 2018-09-14 Shivya Nath quit her corporate job at age twenty-three to travel the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, The Shooting Star is a travel memoir

that maps not just the world but the human spirit.

Social Innovation and Sustainability Transition Geoff Desa,Xiangping Jia,2022-12-11 This book uses a historical and modern lens to reimagine the role that Extension could potentially play in catalyzing reciprocal, co-learning relationships between Land-Grant Universities and their diverse local constituencies. The establishment of statewide extension systems was once seen as a way to ensure that Land-Grant Universities would be accessible and responsive to all of a state's residents. Extension systems continue to offer a front-door to a major public university in almost every county of the United States, but they tend to be viewed primarily as a way to translate science or distribute information from the university to the public. This books argues for the importance of Extension and shows that we are conceiving of this system too narrowly. Only by retelling the stories of the Extension and getting people to see themselves as part of the story can we imagine a different future in which state universities and land-grant colleges engage more authentically and equitably in two-way relationships with their local constituents.in catalyzing reciprocal, co-learning relationships between Land-Grant Universities and their diverse local constituencies. Rabies in the Streets Deborah Nadal, 2020-04-20 Found in two-thirds of the world, rabies is a devastating infectious disease with a 99.9 percent case-fatality rate and no cure once clinical signs appear. *Rabies in the Streets* tells the compelling story of the relationship between people, street animals, and rabies in India, where one-third of human rabies deaths occur. Deborah Nadal argues that only a One Health approach of “interspecies camaraderie” can save people and animals from the horrors of rabies and almost certain death. Grounded in multispecies ethnography, this book leads the reader through the streets and slums of Delhi and Jaipur, where people and animals, such as dogs, cows, and macaques, interact intimately and sometimes violently. Nadal explores the intricate web of factors that bring humans and animals into contact with one another within these urban spaces and create favorable pathways for the transmission of the rabies virus across species. This book shows how rabies is endemic in India for reasons that are as much social, cultural, and political as they are biological, ranging from inadequate sanitation to religious customs, from vaccine shortages to reliance on traditional medicine. The continuous emergence (and reemergence) of infectious diseases despite technical medical progress is a growing concern of our times and clearly questions the way we think of animal and environmental health. This original account of rabies challenges conventional approaches of separation and extermination, arguing instead that a One Health approach is our best chance at fostering mutual survival in a world increasingly overpopulated by humans, animals, and deadly pathogens.

Vegan Street Food Jackie Kearney,2015-09-10 Winner of the Best Book Award in the PETA Vegan Food Awards 2016. Jackie and her family ate their way around Asia, sampling streetfood and jotting menu ideas on the back of napkins. Inspired by the food cultures she embraced on her travels, Jackie has brought new life to healthy, meat- and dairy-free food, inspired by the sheer quantity of vegan food on offer in Asia. Dotted with personal anecdotes from her travels, family photos and fascinating local information, Jackie takes us from India to Indonesia on a journey of tastes and textures, via Sri Lanka, Thailand, Vietnam, Laos and Malaysia. Recipes includes classic dishes that we might be already familiar with, such as Simple Sri Lankan Dal or Cauliflower and Kale Pakora, as well as regional specialities such as Oothapam (vegetable crumpets from South India) or Tahu Campur (Javanese fried tofu with cassava cakes). Street food is a central part of life in Asia. It brings families and communities together from breakfast to dinner, through all the scrumptious snacks along the way. With this book, you can bring this inspirational approach to feeding your family into your own kitchen, whipping up flavourful and wholesome bites. Celebrate vegan food in all its glory, without compromising on flavour or protein, or trying to make substitutions for meat or fish. That is the beauty of this collection of Asian streetfood – it is simply delicious, and it just so happens to be vegan.

Now you can enjoy healing yourself as well.”—Mehmet Oz, MD, attending surgeon, New York-Presbyterian/Columbia University When Michael Symon found out he had rheumatoid arthritis and external lupus, he suspected that what he ate—or didn't eat—could make a profound difference in his levels of inflammation and how he felt. So he committed to a food “reset” on *The Chew*—no red meat, white flour, sugar, dairy, or alcohol. Michael used social media to share his experiment with his fans, and was shocked by the outcome: after completing the reset, he felt amazing. He discovered that dairy, sugar, and processed flours are his food triggers, and that by avoiding them, his inflammation essentially vanished. Michael came up with more than 125 recipes to satisfy his cravings without aggravating his body, including Ginger and Chile-Roast Chicken, dairy-free Mac and Cheese, Spaghetti Squash with Arugula Pesto, and Apple and Cherry Oat Crisp, among many others. Now, for the first time, he is sharing these recipes, as well as a guide on how to identify your food triggers and create a meal plan that works around whatever ingredient causes your discomfort so that you too can enjoy incredible food without sacrificing your health.
