Provincial Families of the Renaissance James S. Grubb,2019-12-01 Grubb's comprehensive analysis of his subjects' compelling, if inconspicuous, lives investigates every significant aspect of private experience during the Renaissance: marriage, birth, death, household relations, work, land, social status, and spirituality. Winner of the Society for Italian Historical Studies's Howard R. Marraro Prize Originally published in 1996. Historical writing on the Renaissance has usually focused on the social extremes that co-existed in the great metropolitan centers—on either elites or the underclass. As a result, the world of the middling families and provincial societies remains largely unexplored. Daily experiences in the lesser cities are, however, no less rich and revealing than those of Florence, Venice, and Milan. In addition, writes historian James Grubb, these experiences offer new perspectives from which to reassess familiar assumptions about domestic life in the fifteenth century. Based on memoirs and other records left by thirteen merchant families from the Veneto cities of Verona and Vincenza, *Provincial Families of the Renaissance* is an engrossing study of daily lives that have until now been overlooked by scholars. Grubb examines the attitudes and experiences of families undistinguished in their modest means and local ambitions from the majority of their compatriots, uncovering a detailed historical landscape rich in social obligations, commercial activities, and religious beliefs. Grubb's comprehensive analysis of his subjects' compelling, if inconspicuous, lives investigates every significant aspect of private experience during the Renaissance: marriage, birth, death, household relations, work, land, social status, and spirituality. In reconstructing provincial life in the Veneto, Grubb discovers in his subjects an independence of mind that mediated their reception of metropolitan ideologies far more than the historiography of the Renaissance might suggest. These unremarkable provincials were agents of their own destiny, influenced in equal measures by prevailing attitudes, local customs, and personal convictions. James Grubb is exploring new terrain in this book. Distinguished by its clarity and eloquence, this is a superior work of historical writing and analysis that merits comparison with the best monographs on the social history of Renaissance Italy.—Gene Brucker, University of California at Berkeley

The Portraits of Bartolomeo Veneto Laura Pagnotta,2003 This is the first English language monograph on Bartolomeo Veneto (c. 14801531), who worked in Northern Italy in an area bounded by Venice and Milan. The art made in this region is characterized by an intensity and richness arising from the various artistic personalities that enlivened the period and the vitality of exchanges that linked artists from widely separated cultural areas. An analysis of Bartolomeo's works allows one to observe the vivid atmosphere of the period. Specializing in portraiture, he moved often to satisfy the demands of his clientele in the small and large courts in the Veneto, Emilia, and the Lombardy regions of the Po Valley. Over the course of his career, from his earliest dated painting in 1502 until his death, presumably in 1531, he produced a remarkable body of work. Characteristic of Bartolomeo Veneto is an interest in a refined rendering of details, particularly of clothing, and the inclusion of symbolic elements. This symbolism-understandable by only a select few-refers to the moral, philosophical, or even political ideals of the person depicted and reflects the cultivated society of the clients for whom the artist worked. Of particular interest are his portraits and works that fall midway between conventional portraiture and representations of a symbolic, mythological, or religious nature. On the one hand, he was able to synthesize diverse stylistic tendencies. On the other, he was able to capture nuances of his subjects' personalities. Despite the remarkable quality of many of his paintings, he was not mentioned by historical sources, and he remains one of the least-studied and most mysterious of the 16-century

Italian painters. He was rediscovered in the middle of the 19th century, when several of his signed and dated paintings were acquired by European museums.

The Via Veneto Papers Ennio Flaiano,1992 The first section of The Via Veneto Papers is an evocation of the Rome of La Dolce Vita, of the early stages in the writing and the realizing of the film itself, and, through a series of brilliant little sketches, a commemoration of the aging poet Vincenzo Cardarelli, skeptical survivor from an earlier time, representative of an altogether different life. Occasional Notebooks comprises the second section and the third section is an interview given by Flaiano shortly before his death.

Venice and the Veneto in the Early Renaissance John Easton Law,2000 John Law is concerned here with the administration of the Venetian state in the late 14th and 15th centuries, and specifically with its possessions on the mainland of Italy. These gave Venice dangerously exposed and lengthy land frontiers, and also included a number of cities whose loyalties were not to be taken for granted. Verona, Friuli and the Trentino are the focus of several articles, while others look at the people and families involved, and at Venice's relations with its powerful neighbours, from Milan to Hungary. The studies demonstrate the substantial nature of Venetian involvement with the 'Terraferma', well-established by the start of the 15th century, and examine the impact on the Venetian government itself of these mainland dominions.
