College Sports Inc. Frank P. Jozsa Jr.,2012-10-24 For several decades in America, athletic programs in colleges and universities received financial support and resources primarily from their respective schools and such sources as alumni and the National Collegiate Athletic Association (NCAA). More recently, however, college coaches assigned to athletic departments and the presidents and marketing or public relations officials of schools organize, initiate, and participate in fund-raising campaigns and thus obtain a portion of revenue for their sports programs from local, regional and national businesses, and from other private donors, groups, and organizations. Because of this inflow of assets and financial capital, intercollegiate athletic budgets and types of sports expanded and in turn, these programs became increasingly important, popular, and reputable as revenue and cost centers within American schools of higher education.

**National Basketball Association Franchises** Frank P. Jozsa Jr.,2017-02-09 This book examines the development and organization of the NBA and its clubs, how each club has performed in seasons and postseasons, and to what extent each has prospered and succeeded as a business enterprise despite competition for market share from other types of entertainment. Each chapter contains two core themes—Team Performance and Franchise Business. The former highlights how teams won division and conference titles and NBA championships while the latter analyzes and compares financial data including revenue, gate receipts, and operating income. The book also explores such things as when each franchise organized and why it joined the NBA, a brief profile of its current majority owner or ownership group, records of teams' special coaches and players, attendances at home games, and how their arenas rank as venues for fans. This book explains why particular teams located in very large, large, midsized, or small markets win more games and titles than others and when and how frequently this occurs. In addition, it provides ways to individually—and by division or conference—compare basketball franchises from a financial perspective.
